CHIMNEY FIRE MONDAY AT PUBLIC SCHOOL

The Fire Brigade answered the second call to the Public School shortly after nine o'clock on Monday morning. It was a chimney fire and was soon extinguished with no damage to the building. An earlier fire this fall, when sparks set fire to a section of the roof did minor damage to the roof and one classroom.

Miss Jean Martin is vacationing for three weeks from her position as teller at the Bank of Commerce and spent last week with relatives in Brussels.

I have been on the job for the past twenty years or more and have found the work very interesting and instructive. Will be glad to give all the information necessary regarding it to anyone who will call on me.—H. L. Hunt, Georgetown.

Good News for Housewives

RICHARDSON'S HARDWARE announce that they will soon have on exhibition and sale the new Beauty Automatic Washer. This is good news for housewives because the Beauty Automatic does away with 95 per cent of the manual labour previously needed to wash and damp-dry clothes.

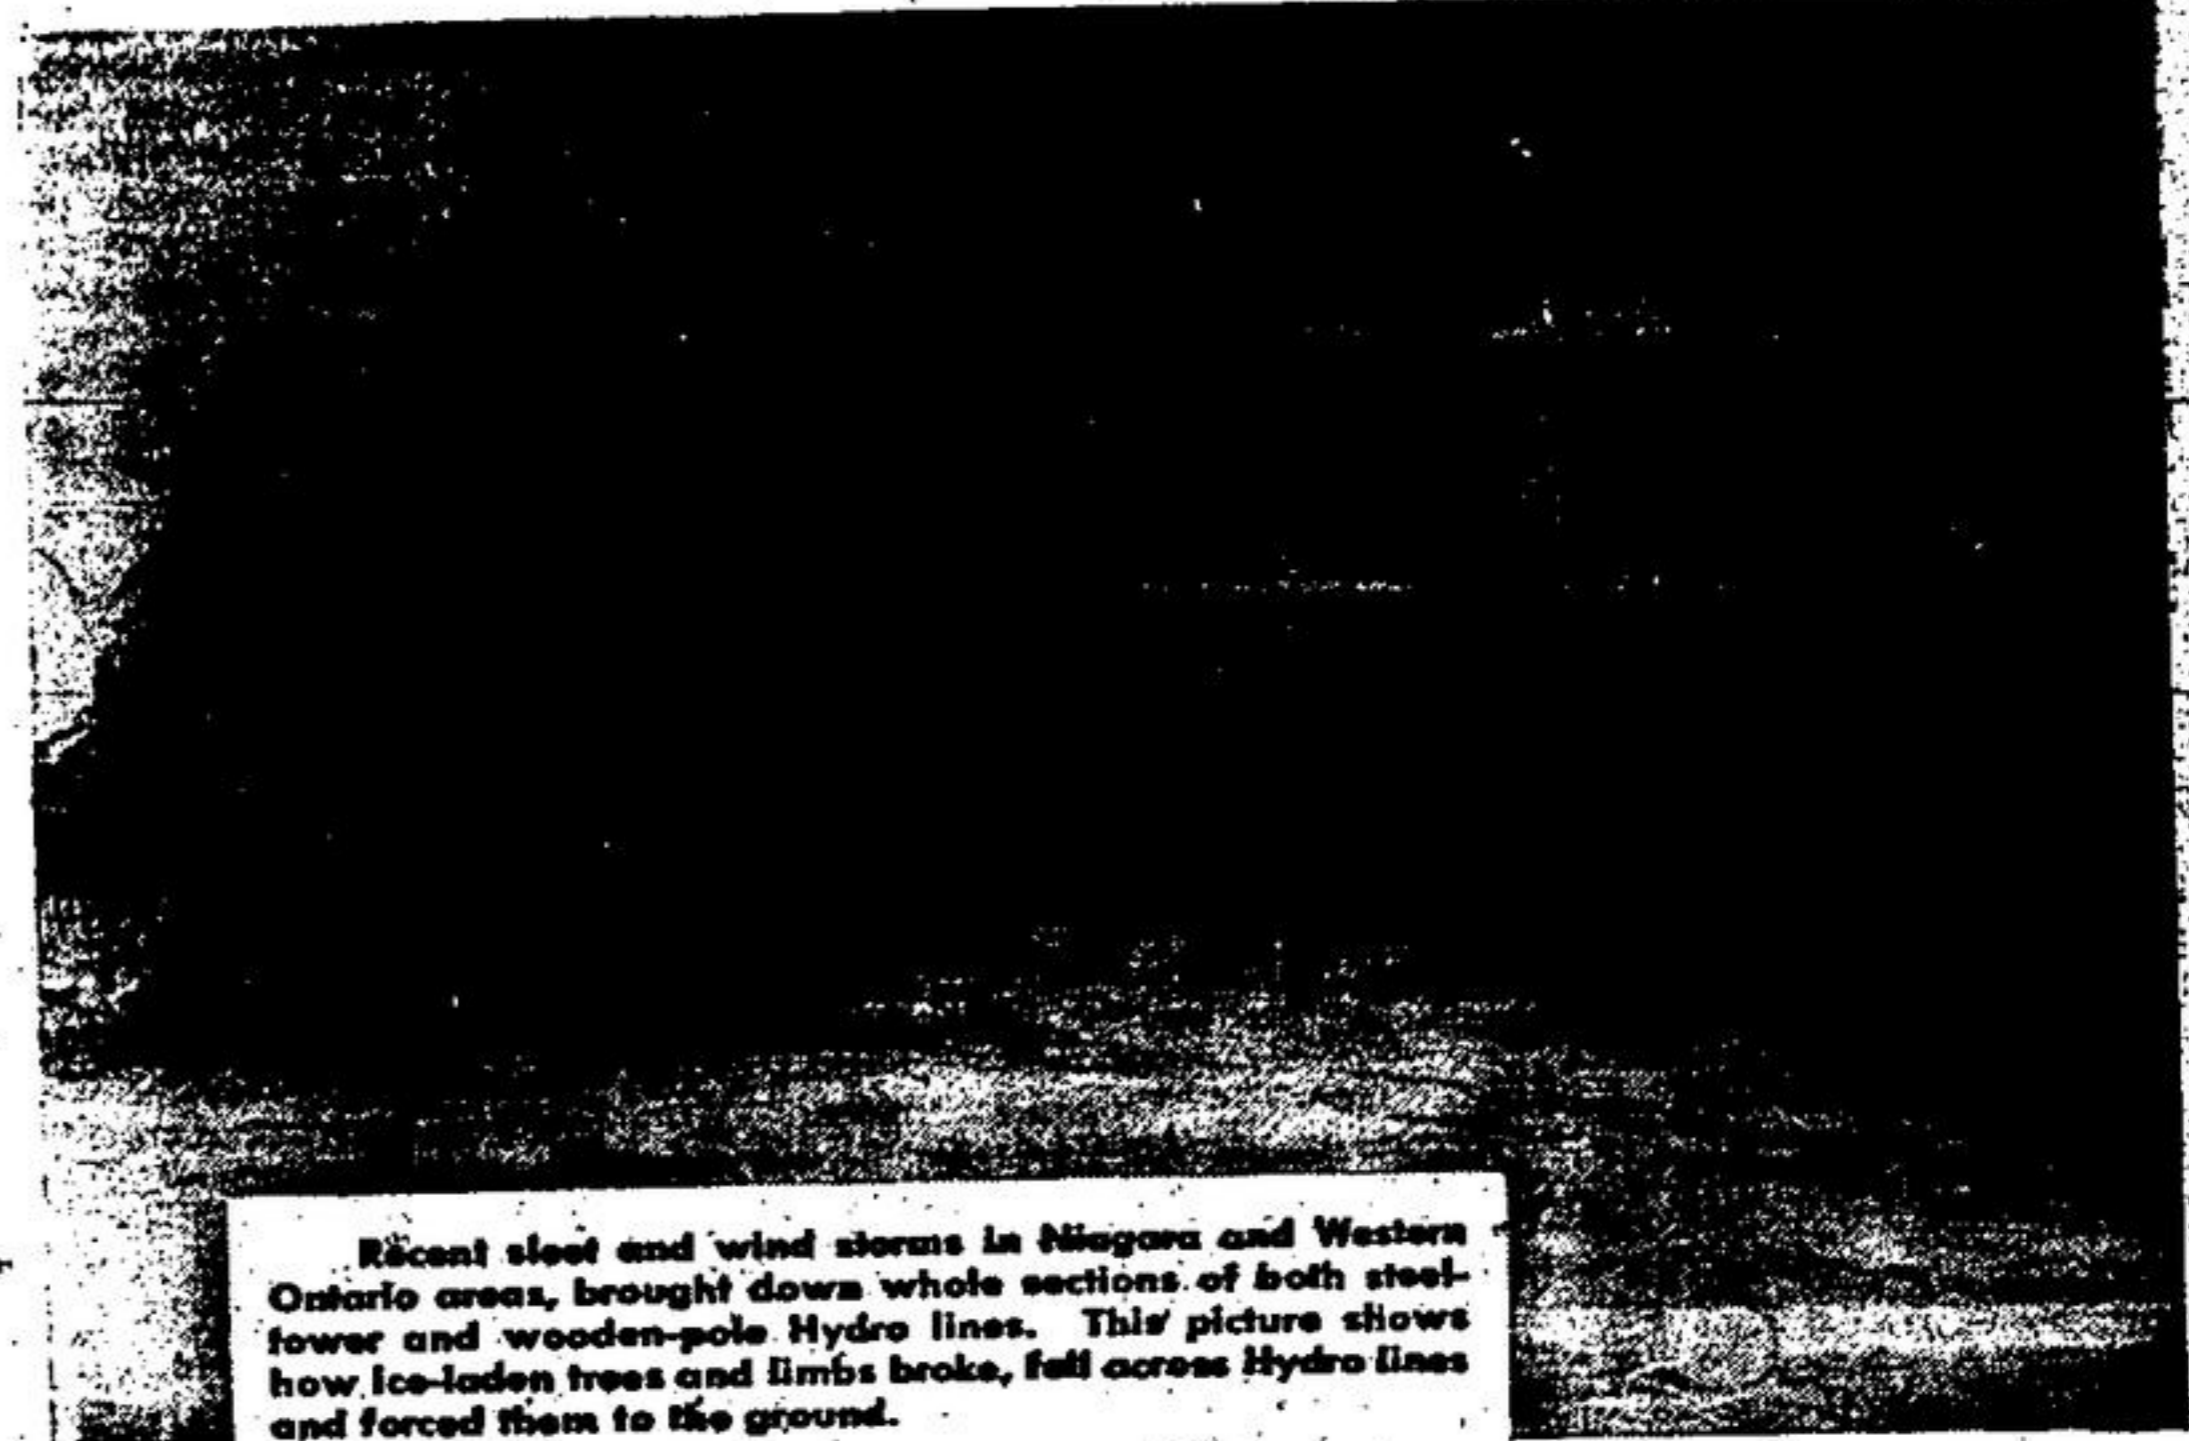

The only labour required to operate the Beauty Automatic Washer is that of placing the clothes in the machine and turning a switch. Within a few minutes the clothes will have been thoroughly washed, rinsed and damp dried, ready for hanging on the line. The Washer even drains and cleans automatically — no soap suds to clean out.

The new revolutionary feature of the Beauty Automatic is that the rinsing and drying is performed by hydraulic pressure. No installation costs are incurred in installing the washer in the home. It is vibrationless and can be used in the laundry, kitchen, or bathroom without any special foundation. No special plumbing or water heaters required. The washer can be attached to taps as easily as a garden hose; and water can be heated on a stove if the home is not equipped with a water heater. Simple construction is another feature of the Beauty Automatic. It has less than half the number of parts of an ordinary wringer type washer.

CARD OF THANKS
Mrs. D. W. Barrager would like to thank friends who were so kind during her recent illness.

WINTER RAMPAGE!

Recent sleet and wind storms in Niagara and Western Ontario areas, brought down whole sections of both steel-tower and wooden-pole Hydro lines. This picture shows how ice-laden trees and limbs broke, fell across Hydro lines and forced them to the ground.

When King Winter makes an all-out attack, man can do little but repair the damage as fast as possible. Recent power breaks in Niagara and Western Ontario areas were the direct result of unusual and severe storm conditions.

Because of the flexibility provided by its unified, province-wide organization, Hydro was able to rush emergency repair crews from other parts of Ontario to restore power. Every effort was directed to this end.

To all consumers who suffered in these storm areas, Hydro expresses its thanks and appreciation for their patience and understanding in a difficult and trying situation.

At all times Hydro safeguards service by endeavouring to locate lines free from trees and by tree trimming. Present storm damages illustrate the advisability of these methods.

During this winter period, storms and power shortage present great operating problems for Hydro. Your co-operation in the conserving of power will be of material assistance and much appreciated.

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO
