**McCOORMACK'S DRUG STORE**  
**BOB'S DRUG STORE**

## ASHGROVE

Winter Says  
On the street, the beautiful street.  
See the people fall in the street.  
Look at the cars pile up the drive.  
Isn't it grand to be alive!

The January Institute meeting was held last Tuesday afternoon at the home of Mrs. Russell Hepburn and about twenty ladies braved the stormy weather and had roads to attend.

The president, Mrs. R. Cunningham opened the meeting in the usual way with the ode and prayer. Mrs. Leslie Clifton read the minutes of the December meeting and called the Roll which was answered by "The Place I would like to visit if I could." Some items of business were discussed and then Miss Betty Buddell introduced the guest speaker Mrs. J. E. Ostrom of Georgetown who told of the trip she and her husband and four others had to Atlanta Georgia, where the Congress of the Baptist Church was held in 1939. Everyone listened with the greatest of interest as she told of the places they passed through and the wonderful hospitality of the southern coloured people at whose home they stayed. She has such a pleasant charming manner and her audience enjoyed every word. Meeting closed with the National Anthem and a social time was spent over the tea cups.

# BOARD OF TRADE

## Open Meeting

**WEDNESDAY, FEBRUARY 5**  
8 p.m. sharp  
**MUNICIPAL BUILDING, GEORGETOWN**  
(no admission charge)

An interesting demonstration talk "It Takes More Than the Telephone" by the Bell Telephone Co.

This demonstration talk deals with the simplicity of the equipment required to transmit the human voice acoustically and electrically over short distances.

It reveals some of the numerous complexities of the modern telephone system which enables Canadians to talk to anyone almost anywhere in the world. Thus the use of Radio in Trans-Oceanic and mobile telephone service will be described and ultra high-frequency radio will be demonstrated.

The speaker shows what is required locally to handle the number of local and long distance calls placed from the community in which the talk is presented.

The talk will be illustrated throughout by numerous demonstrations most of which have not been shown in previous talks.

Ladies as well as gentlemen are cordially invited to attend this meeting.
