HORNBY

The Bethel United Church Women's Association and the Woman's Missionary Society met at the home of Mrs. Oscar Clifton on Wednesday afternoon, February 6th. Material for a future bazaar was on hand and given out for servicing. The Canadian Aid to China request was referred to the Woman's Institute for community organization and canvas. The name of Miss Wilma H. Gardner, a missionary, was put on the prayer list. The 1947 allocation of \$110.00 plus 15 per cent was accepted. A quilt was planned for, and it was decided to cooperate with the Ashgrove W.M.S. in securing a speaker for W.M.S. Sunday during the month of August, if such cooperation were desired by the Ashgrove group.

Mrs. James Ball took charge of the devotions, and the president of the W.M.S., Mrs. Emerson Ford, gave a talk on India, telling how it came to be part of the British Commonwealth of Nations, and also giving the story of the first missionaries, Don and Ann Judson, who were baptists, and began work under the most difficult circumstances. He spent two years in prison under the most unsanitary conditions, and she died of jungle fever. Mrs. Lister is to have charge of the study book for the next meeting. Refreshments were served by the hostess and her daughter Miss Annie Clifton.

Jumbo is another member of our dog colony, and is what you might call a prince among dogs. He is one of our dog elder statesmen, somewhat diplomatic at times, and goes abroad with his tail aloft and an air of importance befitting his station in life. I see him foraging far and wide up and down the highway and through the fields, apparently in search of substantial morsels of food to tuck inside his form-fitting skin. Friendly and kind, he puts up with the children's whims, seldom barking or whining. A good dog withal, and being meek he inherits the sofa.

Some of us are at variance in our own minds as to whether to be thankful to the snowplow crews who widen our roads to ditch-covering widths, or consternated by the mountain high chunks of lead snow that are heaved into our driveway entrances in the process. Some of us just compromise and enjoy feelings of consternated thankfulness.

ACCEPTS GOVERNMENT POSITION, DR. MAGWOOD LEAVING FOR MARITIMES

A resident of Georgetown since the spring of 1943, Dr. Stuart E. Magwood is leaving this week-end for Sussex, New Brunswick, where he has accepted a position with the Provincial Veterinary Service. Dr. Magwood succeeded the late Dr. Learmonth in Georgetown, which had been without a veterinarian since Dr. Learmonth's death in July, 1942. He has carried on his practice from his office in the Dale Block on Mill Street, using part of the premises for an apartment.

Dr. Magwood will drive to his new home this week-end, making the trip through the northern States. His wife, formerly Peggy Adams and their son Peter, will join him in the east in another three weeks, and will travel by plane.

All veterinarians in New Brunswick are civil servants, and are under the direction of the Provincial Veterinary Service. Dr. Magwood has heard good reports of the system from former classmates at the Ontario Veterinary College, of which he is a graduate.

Dr. and Mrs. Magwood will be missed in town where they have both taken an active part in community life. Dr. Magwood has been sanitary inspector for the town and a member of the teaching staff of the United Church Sunday School. His wife has been president of the dramatic group known as Apprentice Productions and was a member of St. George's Church choir.

Dr. Magwood has sold his practice to Dr. Stiles of Nova Scotia, who is expected to arrive in town tomorrow. He is married and has a family of three children. He is a 1942 graduate of the Ontario Veterinary College and during the war served with the Navy. He has been engaged in practice in the east.

BALLINAFAD

Ashgrove Y.P.U. held their first meeting of the new year Sunday evening, January 19th, at the home of Betty and Howson Ruddell. It was a Fellowship meeting in charge of George Wilson, who took the main topic "Faithfulness." Roll call was the first verse of a favourite hymn. Members were urged to attend the first class of the Leadership Training School in Georgetown United Church next Monday, and the fireside service in Aton United Church next Sunday evening.

TERRA COTTA

(last week)

There was quite an exciting event took place here recently when Lex Schrag of the Globe & Mail staff called at Leslie Team's store with his camera and took an excellent picture of the interior of the store and some familiar scenes of Main Street. These, with an able write-up of the rediscovery of Balmeville appeared in a recent edition of the paper (January 28th). We cannot remember when Terra Cotta or Balmeville was first discovered, but it was a long time ago. We cannot make any further comment on this article, only to congratulate Mr. Schrag on his good work. Come again, Lex.

Mrs. I. Langton of Toronto has moved to her new home here and we kindly welcome her to our village.

Mr. and Mrs. Pitt and family have moved to Wilberforce, near Haliburton, where Mr. Pitt is engaged in the mining business. Mr. Messenger of the Town Line is having the hydro installed in his residence here. It is expected that there will be quite a boom in real estate here this spring.

The temporary shortage of fuel oil was caused by a shipping strike last summer. The rising demand for fuel has made the situation difficult for a few months.

We have **TORRID HEAT OIL BURNERS** in stock and will be glad to deliver burners and tanks for installation when oil is available.

NEW HORIZONS IN Canada Unlimited

NEW WORLDS TO CONQUER...

Today, perhaps, he's whetting his skill, with deep pride of craftsmanship, on a model airplane... shaping a thing that symbolizes his longing for a man's strength, a man's freedom.

Tomorrow, he may be riding the winds in a real plane... charting new ways into Canada's Northland, topping the mountains of the West, bridging the ocean in a trifle of hours... with other lives dependent on his skill and judgment.

In whatever field his fancy ranges, marvellous things await him in the Canada of Tomorrow. Provided only he is offered the stimulus to ambition, the open door to achievement, which wise statesmanship and enterprising leadership alone can provide. These only are needed to start him on the march to New Horizons in Canada Unlimited.
