LETTER TO THE EDITOR

2973 Foul Bay Road,
Oak Bay, B.C.
Feb. 26th, 1947

Dear Sir:
I enclose, herewith, a Bank of Canada bill for \$2.00 to renew my subscription to the Herald, for another year.

As I follow the items of news in the columns of the Herald from week to week, it is a pleasure to note the evidences of growth and progress in so many ways in the "old town."

Owing to my membership for many years on the High School Board, I am particularly pleased to note the action of the new Town Council with the High School Board, and the citizens generally (as shown by correspondent's letters) in their expressed determination that the youth of Georgetown and surrounding district, shall be provided with a properly equipped modern High School.

The West is having a severe winter this year, and January weather on Vancouver Island is said to have been the worst in many years. We had a blizzard with snow ten days ago, but it disappeared with rain last week and now the grass is green and the snow drops, crocuses and primroses are to be seen in the gardens around Victoria.

Your truly,
C. B. Dayfoot

\$1,000,000 Appeal

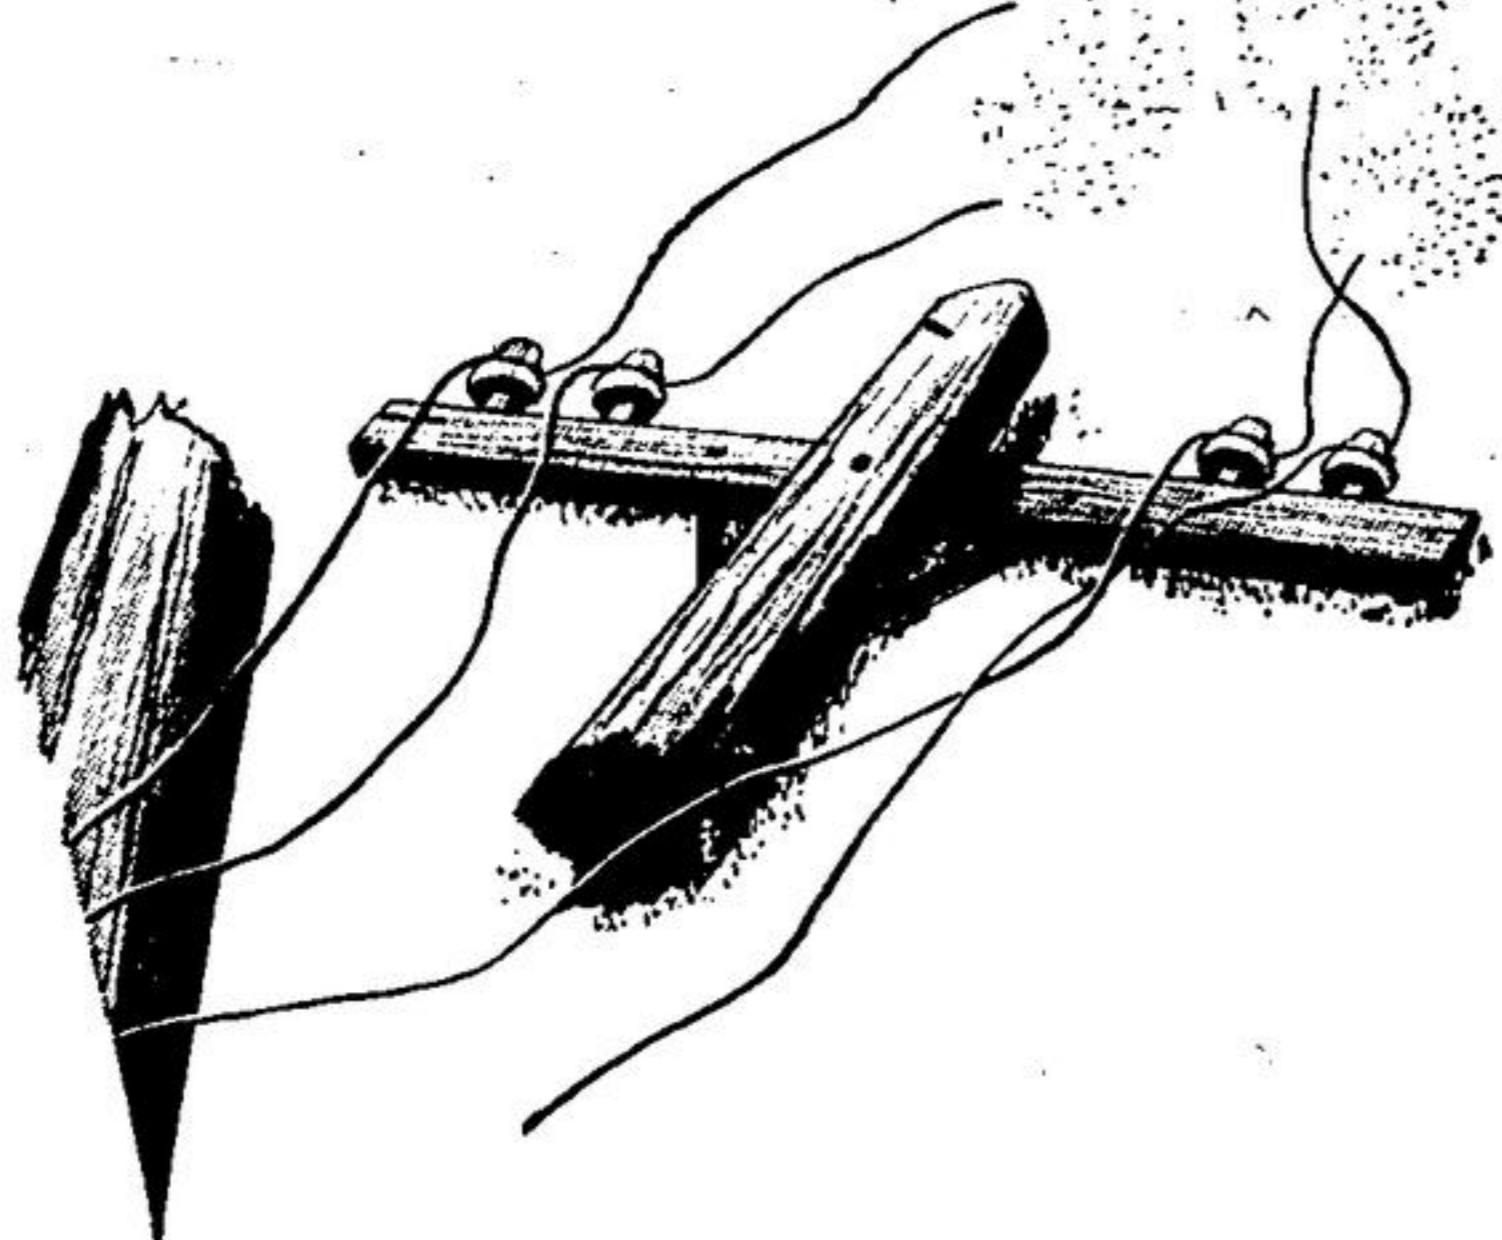

February 20 - February 28

The work of the St. John Ambulance Association is well-known in Georgetown, where there is an active Brigade operating. For instance, a group of women who will soon be graduating are prepared, if required, to do blood grouping in industries.

Georgetown's Objective - \$1,000

Give generously to your local canvasser or VOLUNTEER DONATIONS may be left at the CANADIAN BANK OF COMMERCE.

The only safe way...

Never touch a fallen wire!

Wind, snow and sleet break down electric wires sometimes in spite of every precaution. Shock or severe burns can result from touching such a wire. Never touch a fallen wire.

Warn children not to go near fallen wires... but do not risk a demonstration by trying to move one out of the way. It can be fatal!

Remember these three things if you discover an electric wire on the ground or dangerously low:

1. Do not touch the wire under any circumstances!
2. Stay on guard and keep everyone away until Hydro men arrive.
3. Have your nearest Hydro office notified at once.

Everything possible is done to keep Hydro wires safe in your community. Some things... winter storms and human folly... are beyond control. When these things occur, Hydro asks your co-operation in being careful and in warning others. By doing so you may save a life.
