Retire in Comfort at 60

It costs 50% to 60% LESS, the Annuity way, to retire in comfort at 60: This is because an annuity permits the use of both interest and principal as income, yet guarantees that the income will last as long as you live.

You can count on retiring at 60, with a comfortable income, if you start saving now. The cost will never be less for you, than it is today.

Quiz... FOR CANADIANS

Every Canadian today is asking himself this question: "How much more will it cost me to live tomorrow?"

The answer depends on us... Living costs should not increase...

- IF—we all keep on resisting the temptation to try to get more than our fair share of available goods.
- IF—we continue to restrict our purchases to what we really need.
- IF—we keep on producing as much as we can at as low a price as we can.
- IF—we continue to support to the fall our Government's wise measures of control.
- IF—we continue to walk the middle road, the road of moderation in all things—in our thinking, in our actions and in our pleasures.
- IF—as The House of Seagram has always suggested, we continue to think of tomorrow and practice moderation today!
