School Board Will Carry Out Fire Marshal's Recommendations

A report from the Ontario Fire Marshal on his recent inspection of the Public School was received at the Board meeting last Tuesday and the Board arranged for the necessary changes made to conform with his suggestions. The Fire Marshal recommended installation of smoke-proof partitions at the east and west ends of the first floor corridor and that the exit doors from the assembly hall be doubled in width, doors to open out and panic hardware installed.

Changes in the boiler room were recommended—the ceiling to be covered with metal lath and plaster and the walls bricked to the ceiling. It was also suggested that two water extinguishers be placed on each floor and that a vapourizing liquid extinguisher be kept near the movie projector. The Board was advised to have chimneys cleaned more often and to have breaks in walls and ceilings repaired.

When the necessary work has been done, the Board decided to ask the Fire Marshal to check over the building again to ascertain if there were any further precautionary measures that could be taken.

LINDSAY MAN BUYS HOLLYWOOD HOTEL

Changing hands for the second time in the last five years, the Hollywood Hotel at Norval has been sold to Mr. J. G. Hawkins of Lindsay and his son William Hawkins of Oshawa. The new owners took over the establishment on April 1st from Mrs. E. F. Ward, who is now making her home in Toronto. Mrs. Ward had purchased the business from Mr. Reuben Carter who also resides in Toronto now.

Mr. Hawkins Sr. and Mr. and Mrs. William Hawkins will be making their home in Norval. The hotel is the last licensed hotel between here and Toronto, as Peel County is "dry," under the Canada Temperance Act.

Mr. A. C. Patterson, who for the past fifteen years has operated the Silvercreek Service Station, has sold his business to Mr. O. McCluskey. The new owner took possession on April 14th. He previously had operated a similar business on No. 24 highway near Guelph. Mr. Patterson worked for three years during the war at but returned after the war to continue his garage business. He has taken an active part in the Halton the Massey Harris plant in Toronto, Garage Operators Association.

Mechanization

The steady progress towards a higher standard of farm living during the past one hundred years has been linked with a corresponding progress in the development of mechanized farm equipment. The widespread adoption of the modern tractor and other labor-saving machinery has helped farmers throughout the world in their realization of increased farm income — better homes — better living.

Auction sales seem to be the general order of the day.

Who said that Terra Cotta was not on the map? The Smith and Stone Company of Georgetown are running a bus service through here conveying employees from here to work in their factory. Some service, eh!

We are informed that some summer cottages will be erected along the River Credit here this summer. Then, watch Terra Cotta grow.

The spring floods are passing over here without doing much damage.
