Students Win Bulova Watches in Phoenix House Contest
Two high school students are this week proudly wearing wrist watches won by them in a unique contest conducted at the Phoenix Gift Shop. All high school students were eligible for the contest and the only thing necessary for entry was to hand in their names at the store. The names were printed on a large paper clock which stood in the window all last week and two paper hands were operated from a clock behind. When the clock ran down, Bulova watches were to be presented to the boy and girl to whose names the paper hands pointed.
When the clock stopped on Saturday afternoon, the minute hand pointed to first former Colleen Gordon, and the second hand to Keith Thompson, second form student. Presentation of the watches was made in the store at 9.30 Saturday night by Mayor Joseph Gibbons. Neither student had a wrist watch previously and they were both extremely pleased at their good fortune.

THIEVES BATTER STATION SAFE AND DEPART WITH CASH
Noble Carruthers, CPR station agent at Inglewood, received a startling surprise when he went to work Tuesday morning. Some time during the early morning hours thieves had broken into the station and stole money to the amount of \$106.87.

HE'LL NEED FORESTS TOO!

If you look to the bush country for recreation or business, you'll realize how much it will mean to the youngsters of today if you help to save the forests for tomorrow. Above all, protect the forests from fire.

Ontario has been abundantly blessed with natural resources, which, if not properly protected, can be quickly exhausted. Every year, for example, thousands of acres of trees are destroyed because someone is not careful with fire.

Forests mean much more than a pleasant place to holiday . . . shelter for game animals and fishing haunts. They mean more than a source of lumber and paper products, and jobs for thousands of people, vital as these are to national welfare.

Climate is tempered—extremes prevented—by forest areas. They store water too—help to keep rivers and streams from dangerous and costly flooding in spring time. They spread the flow of water more evenly through the year. That means they help to ensure a year-round supply of Hydro power for you.

Protect the forests. They serve you well.

- SOME WAYS TO BE CAREFUL ABOUT FIRE
- Break each match in two before you throw it away.
 - Be sure your discarded cigarette is really out.
 - Keep camp fires small, and always in a safe place.
 - Before you leave, put the fire DEAD OUT with water.
