— 11 a.m. 1st, 3rd and 5th Sundays.

My young nephew, Roland, went into a shop a couple of days ago and said: "I want to buy a collar for my father."  
"What style?"  
"Well?"  
"One like mine, sonny?"  
"No, I want a clean one."

DR. F. B. HUTT

Dr. F. B. Hutt, son of Prof. and Mrs. H. L. Hutt, Georgetown, Ontario, and a graduate of the Ontario Agricultural College at Guelph, has been cited for the Borden Award for 1946 for outstanding research in genetics and poultry breeding. The award carries with it a gold medal and \$1,000 and is administered by the Poultry Science Association.

The research by Dr. Hutt, whose father was formerly professor of horticulture on the faculty of O.A.C. may result in considerable saving for Canadian poultry men. Dr. Hutt observed that apparently certain strains in all breeds of chickens were more resistant to disease than others and that by selective breeding this resistance could be increased. By using parents from these resistant strains, as breeding stock, what promised to practically wipe out the poultry industry in some districts, at least, has been brought under some semblance of control.

Dr. Hutt took his master's degree in the United States and his Ph.D. at the University of Edinburgh. After leaving Guelph he was for a time poultry professor at the University of Manitoba, later going to the University of Minnesota. He was formerly Professor of Poultry Husbandry at Cornell University.

**KNOX HOME HELPERS HOLD ANNUAL MEETING**

The Home Helpers of Knox Church W.M.S. held their Annual Meeting last Wednesday afternoon at the home of Mrs. R. B. Poulis. Despite the heavy rain at time of going, a goodly number were present to enjoy the splendid program arranged and convened by Miss Redmond, Home Helper Secretary.

Mrs. W. T. Sinclair presided and welcomed all members and friends. Mrs. Wm. Cronan and Mrs. C. C. Cochran conducted the worship period, with Mrs. Francis Thompson, accompanied by Mrs. H. Graham, singing two lovely solos, "There's a Life on the Cross" and "I shall Not Pass Again This Way". Offerory prayer was given by Mrs. H. G. Clark.

Mrs. W. M. Hall, Synodical president of Toronto W.M.S. was the speaker for the meeting and gave a most inspiring address, touching especially on the work of Home Helpers, and the work that could be accomplished by being a Home Helper. She spoke of the world's condition today and the need for faith as never before and asked that all seek Divine Guidance in their work and endeavor to learn God's way rather than following their own way. She said the motto still is "The World for Christ", the aim, to unite all people and children of the church so that they will be messengers who tell of a personal Saviour and work to establish His Kingdom on earth.

Mrs. Cameron Sinclair moved a vote of thanks to all who had helped make the meeting a success and Mrs. Poulis was also thanked for giving her home. Mrs. Hall closed the meeting with prayer, after which the Home Helpers served a lovely lunch and a social half hour was enjoyed.

Take care of those left over nails from your latest repair job. They are more precious now than ever before. Don't allow them to rust through careless storing. Instead place them in a glass fruit jar. Pour in enough kerosene to cover them. As long as they are covered with the kerosene they will not rust.

*Today we Live in a Greater Canada*

*New Wealth of Skills!*

Today Canada's skilled workers, technicians and professional men have a greater wealth of knowledge, experience and ability than ever before. They know more; they can do more.

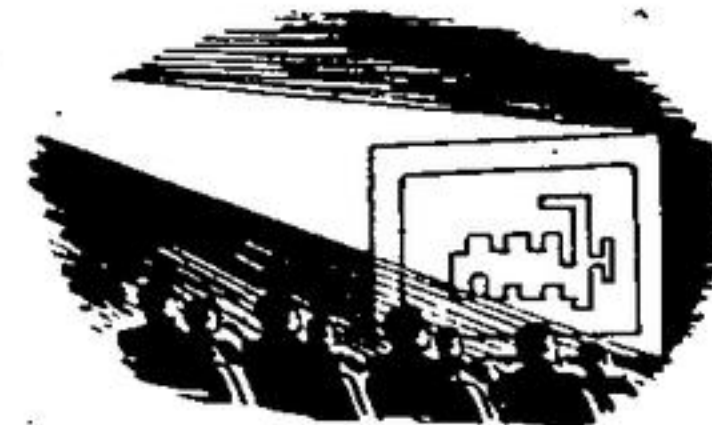

Their abilities were proven—and greatly developed—by their war-time production achievements. They made possible Canada's tremendous expansion which has meant greater and more varied opportunities in every field of Canadian activity.

Continuing leadership for that expansion is assured by the increasing numbers of skilled craftsmen and highly qualified professional men now being supplied by our training centres, schools and universities.

For years the proportion of our population attending university has been high compared with other countries. Today university enrolment is by far the greatest in our history; the number of undergraduate veterans alone is equal to the total full-time Canadian university enrolment of pre-war years.

Technical training in the armed forces became a great educational enterprise. Today student veterans swell the ranks of Canada's apprentices and scholars. Thousands who ordinarily would never do so are now taking vocational training in special centres, schools and "on the job" training in industry.

Utilizing such modern educational aids as films and radio, Canada's secondary schools today offer a greater variety of courses—including technical, commercial, agricultural—to provide fullest scope for varying interests and talents. In addition, more Canadians than ever now are taking extension courses, attending night classes.

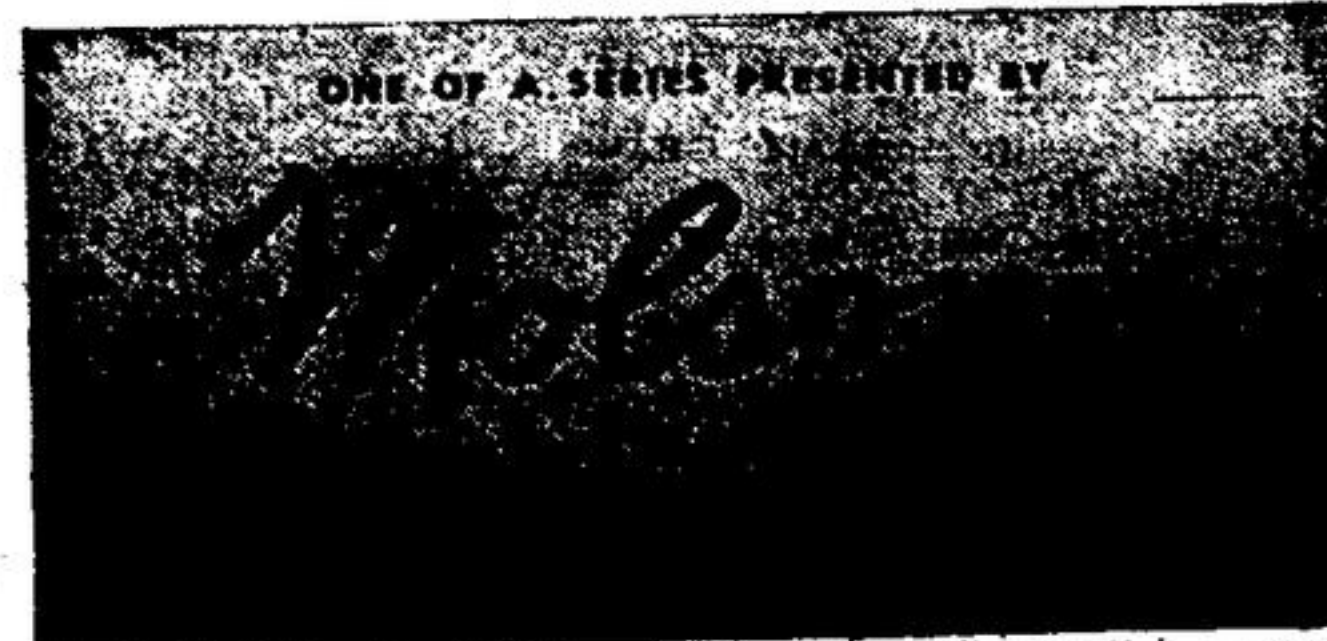

**"... OPPORTUNITIES... WHERE BETTER ?"**

American state, to Mexico and Newfoundland.

MR. OTTO says: "It is something to be a Canadian—to have the opportunity of living in a land such as our Canada... a country of understanding people. The future of young Canadians can be measured only in their ability to take advantage of the opportunities offered. Where on the face of the globe is there anything better?"

ONE OF A SERIES PRESENTED BY

**STOP WORRYING about heating your home**

Cool, soot, smoke, ashes, irregular heat constant attention to the heating plant no wonder people who use coal dread to see winter come. All that worry is banished forever in the home which has Toridheat, the modern oil burner. Come in and learn how easily you can enjoy the comfort and convenience of advanced oil heat.

**TORIDHEET**  
AUTOMATIC OIL HEAT

Oil is now available for 1947 contracts. A limited number can be handled.
