FRIENDS:—

Not very much to relate this week, folks. We brought in two more machines that will speed our lathes jobs up 100 per cent. give better service and, we hope, add to your satisfaction.

Had to spend a couple of days in the city this week and we were very happy to get back. The hustle and bustle that we used to be part of certainly gets us down and makes us appreciate our decision to move to Georgetown and try and fit into your community.

We wish all you nice people that will soon be vacationing a very happy time. Our own personal vacation will consist of seeing all this machinery set up to do your job quicker, better, and cheaper.

Saw a little slogan the other day that caught our fancy. "By serving other people better we serve ourselves best," which we hope Excelo is doing.

LES. TOMLINSON.
