**Arts & Crafts Plan Fine
 Exhibit for Georgetown Fair**

The Arts and Crafts of Georgetown held their August meeting on the 21st at the home of Mrs. Paul Beer, the president, Mrs. M. H. Moyer in the chair. New members were welcomed and discussions of the crafts followed.

The Pottery group reported progress in the procuring of a kiln and a few samples of models made by the class were on display.

Plans were made for the Fall Fair, an interesting program of demonstrations on the potters' wheel being promised. While all the handicrafts will be well represented by a display, interest this year is to center around the Pottery. The different stages from "clay to finished article will prove of great interest to the visitors at the fair. Mrs. Moyer called the attention of the members to the Handicraft Special in the Fall Fair prize list, and all were urged to enter this competition.

A very pleasant tea hour followed, provided by the hostesses Mrs. Beer and her mother, Mrs. Pap, assisted by Mrs. Denny Charles and Miss Judy Beer of Midland. The October meeting is to be at the home of Mrs. D. McLaughlin.

**Helen Devereaux Visiting
 in the West**

Mr. C. D. Casey sends this item clipped from the Crossfield (Alberta) Chronicle, which will be of interest to friends of Miss Helen Devereaux:

Miss Pat Casey accompanied by two of her friends Misses Jean Barbour and Helen Devereaux, who are all dieticians in Toronto arrived a few days ago to spend their holidays at the farm home of Mr. and Mrs. Dewey Casey. We hear that these charming young ladies not only play bridge—they would have to at Casey's anyhow, but they also are mean handlers of the rod and line. Dewey had them out on the Dog Pound on Sunday and they came home with enough trout for a meal. Some of you boys had better look out or they will be taking home the prizes from the forthcoming Fish and Game Banquet.

"I hear your cook has rather an amorous disposition."
 "Yes, if she can't get up a flirtation with the milkman, she starts mashing the potatoes."

**Windsor Bank Robbers
 Passed This Way**

The closest this district wants to be connected with bank robberies was last Thursday when gunmen who held up a bank in Windsor are believed to have passed this way. \$40,000 was taken at gunpoint from a downtown Windsor branch of the Royal Bank on Friday afternoon and the get-away car, a light green 1946 Mercury coach was found soon afterwards abandoned by the robbers. The car had been stolen the previous evening from R. C. Cairns of Guelph and bore a licence plate U2807, stolen from the car of Archie Eccles, R. R. 1, Glen Williams.

Mr. Eccles believes that the licence plate was taken from his car parked on the 10th Line while he was cutting grass in the vicinity of No. 15 School late Thursday afternoon. Mr. Eccles was some distance from his car when he heard a car door slam, and looking up he saw a car proceeding down the road. Curious as to the reason, he returned to his car and examined the contents, but found everything in order. It was not until the next day that he noticed the missing plate and he was much surprised on Saturday morning to read in the daily paper where it had turned up.

Mr. Eccles said the car which had stopped was headed north, and it is presumed that it contained the bank robbers who proceeded to Guelph and stole the Cairns' car there. It is reported that a district man was asked for directions to Guelph by some men in a car on the 9th Line about the same time of day and he may have been talking to the actual criminals.

**FEDERATION OF AGRICULTURE
 ANNUAL FIELD DAY**

Professor W. D. Tolton, of the Ontario Agricultural College, Guelph was the special speaker at Brookville Hall when a large crowd attended the Nasagaweya Federation of Agriculture annual field day. Mr. Tolton stressed the importance of each person taking interest in the activities of his own community. The speaker also related several stories dealing with the humorous side of community life.

At 6:30 there was a game of baseball between a team of No. 7 and 8 players and Oorwhin, which ended in a tie. Foot races for the youngsters were won by the following: Girls under 6, Marjory Elliott; boys under 6, Wayne Easterbrook, Teddy Britton, Bruce Richardson; girls 6 to 8, Judy Elsiey, Audrey Howie; boys 6 to 8, Wayne Easterbrook, Bruce Richardson, Teddy Britton; girls 8 to 10, Katherine Elliott, Joan Archibald; boys 8 to 10, Martin Davenport, Ralph Barber, Teddy Britton; boys 10 to 12, Aubrey Richardson, Kenneth Elsiey, Freddie Archibald; boys 12 to 14, Ivan MacLeod and Elwyn Service.

The game of horseshoes was won by James Simpson and Henry MacLeod. Runners-up were M. MacLeod and G. MacLeod.

A tug-of-war between single and married men caused much amusement. The married men were the winners. Two well-stocked refreshment booths remained busy during the day.

When darkness stopped outdoor activities the crowd gathered in the hall to enjoy a prepared program. Mr. O. E. Davenport as chairman introduced the entertainers who were all local talent. There were solos by Miss Joyce Cowper, accompanied by Mrs. Lloyd Crawford; Miss Jean Robertson, accompanied by Mrs. George Robertson; Miss Donna Frank, accompanied by her sister, Miss Jean Frank; a duet by Misses Donna MacMillan and Donna Frank, accompanied by Mrs. George Robertson; a seven year old tap dancer, Miss Marilyn Haggerty, Kirkland Lake, accompanied by her cousin, Miss Audrey Rhinehart.

Mr. Archie Service thanked Mr. Tolton for his splendid address and Mr. Davenport thanked the entertainers. Dancing to the Bloombury Orchestra with Mr. G. Kingsbury as floor manager concluded the evening.

**Harnessing
 Another
 81,000
 Horsepower
 for Hydro**

People sometimes ask us what we are doing about providing more electricity for Ontario. Many know how close we are now to using up all our present supply.

Since the end of the war, Hydro's peak load demand has increased approximately 500,000 horsepower or more than 25% of the highest wartime demand, and is still mounting.

What are we doing about it? Above is a part, but only a part, of the answer. It shows the great power development at Stewartville, on the Madawaska River in Eastern

Ontario, which was started many months ago when materials and labor were in even shorter supply than now. It will give you 81,000 horsepower commencing next year. With other Hydro developments being rushed to completion, an added 500,000 horsepower will be available in the next five years. In the meanwhile we must all use Hydro sparingly so there will be enough to go around.

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO

**PLEASE WRAP
 YOUR GARBAGE**

Several householders have been lax in carrying out this important regulation and are reminded that all garbage must be wrapped.

Unwrapped garbage is difficult to handle by those entrusted with its collection and leads to unsanitary conditions on streets and at the town dump.

**PLEASE CO-OPERATE
 WRAP ALL GARBAGE**
