**JUNIOR FARMERS' PLAN
COUNTY CITIZENSHIP
PROGRAM**

On April 21st of this year, a large group of Halton rural young people came before our County Court Judge, his Honor, W. N. Munro, and during a very impressive ceremony, they were each presented with a Certificate of Canadian Citizenship. At this time, they were publicly recognized as Citizens of Canada, although they had previously assumed this status automatically upon reaching their twenty-first birthday. The ceremony impressed upon them the important duties, privileges and responsibilities which they had acquired when they, as Canadian-born young people, became citizens of a free democratic country.

The ceremony was the climax of a series of meetings held in three well distributed places in the county, and sponsored by the Halton Junior Farmers' Association. At the meetings, which were led by very competent instructors, these young people studied and discussed our systems of federal, provincial and municipal government, our systems of courts of law, taxation and banking, and their duties and responsibilities as citizens. Each developed a sense of fresh fellowship with the other participants as a result of both their study and the social recreation which was organized as a part of each "get-together".

Because this educational project was such an unqualified success, the directors of the Junior Farmers' Association of Ontario, (an organization comprising more than 8,000 members) had the programme placed before the annual conference of this organization with the idea that the project be expanded to other counties across the province.

The executive of the Halton Junior Farmers' Association hopes that this type of programme can be carried on annually in this county for the benefit of the new group of young people who come of age each year.

To discuss the possibilities of a county-wide programme for the benefit of both rural and town young people, the Citizenship Committee of the Halton Junior Farmers' Association met with a very small group, representative of some other organized bodies in the County. This group was composed of Mr. D. M. Heddie and Mr. Hunter Reid, the Rotary Club of Oakville, Rev. Gordon W. Porter, St. Paul's Church, Milton, Mr. Roy F. Smith, Ontario Federation of Home and Schools, and Mr. J. E. Whitlock, Ontario Department of Agriculture, Milton. The group consulted were unanimous in the opinion that such a project would receive the active support and co-operation of most of the organizations in the county, and as a result of this, the Halton Junior Farmers' Association has called a meeting to be held in the Milton High School, the evening of Thursday, October 30th at 8.30.

There is no doubt that such a project will receive much cooperation from the Community Programmes Division of the Ontario Department of Education. Mr. Norman C. Lindsay, Supervisor of this Branch will be on hand to address the meeting, and to discuss any proposed project.

Last January, the suggestion was made at a meeting of the Provincial Directorate of the Junior Farmers that "in lieu of possible infiltration of non democratic ideals among the youth of our country, some definite, aggressive programme of Citizenship Training should be adopted".

A county-wide programme of Citizenship Training in Halton County would certainly contribute toward maintaining the democratic freedom which we enjoy and cherish so dearly.
