**Thomas L. Lyons**  
 AS COUNCILLOR FOR 1948

Owing to the fact that the municipality has assumed several sizeable obligations in 1948, it would appear to be wisdom on the part of citizens to elect men of experience to continue and complete the different projects.

**THE MIXING BOWL**  
 by Ann Allan  
 HYDRO HOME ECONOMIST

Hello Homemakers! When I lived at Grandma's place we always had a bowl of soup before dinner was served: it was ladled from a stock pot on the stove. Today there is a great variety of soups from which we can choose one for the particular occasion. If we wish the soup merely to create interest in the dinner, we will select one of the clear soups, either a bouillon or consommé. To discriminate between the latter you will remember that the clear soup made from fresh lean beef is bouillon, while consommé, also a clear soup is a combination of meats, fresh or cooked. On the other hand, if we wish the soup to be the main item we will select one of the thick vegetable, fish or meat soups.

A soup helps to make use of every extra piece of bread, toasted, dried or broken. Other varieties of accompaniment are—salty crackers, tiny cornmeal muffins, French sticks, cheese bites and celery biscuits. By the way, to freshen breads and crackers, soak in salted water. When they are puffed up, transfer to cookie sheet with egg lifter and bake in oven for 5 to 10 minutes.

**BEEF BONE SOUP**  
 Cover leftover roast beef bones and scraps with water. Cover; simmer 1 hour; remove bones. Add 1 cup diced carrot, 1/4 cup chopped onion, salt, pepper. Cover. Simmer 45 minutes. Add 1/4 cups cooked or canned tomatoes; heat. Garnish with lemon. Serves 4.

**POTATO CHEESE SOUP**  
 3 medium potatoes, 2 cups boiling water, 2 to 3 cups milk, 1 slice onion, 2 tbsps. fat, 2 tbsps. flour, 1 tsp. salt, Pinch of pepper, 1 cup grated cheese, 1 tsp. chopped parsley.

Cook potatoes in boiling salted water until tender. Put through strainer. Measure and add enough milk to make 4 cups. Scald with a slice of onion. Melt fat, add flour and seasoning. Gradually add potato mixture, removing onion. Cook 3 minutes. Add cheese and beat till smooth. Sprinkle parsley on soup before serving.

**BARLEY BROTH**  
 1 qt. meat stock, 1 tbsp. turnip, diced, 1 tbsp. carrot, diced, 1 tsp. white navy beans, 1 medium onion chopped, 1/2 cup pot barley.

Add beans to cold bouillon or stock, bring to boiling point and add vegetables and barley. Cover and simmer 1 1/2 hours. Season to taste. Makes about 5 cups.

**GRANDMA'S MEAT AND VEGETABLE SOUP**  
 2 1/2 - 3 lbs. of shin, knuckle or neck of beef, 1 onion sliced, 1/4 cup diced celery and leaves, 2 pepper-corns, 2 1/2 qts. water, 1 tbsp. salt, 3 carrots in strips, 1 bay leaf, paprika.

You may also add:  
 1/2 cup rice, pearl barley or noodles, 1 cup tomatoes.

Wipe the meat, cut the lean part into cubes. Cover with cold water, heat slowly to the simmering point. Remove the scum as it forms. After simmering for 2 hours, add the vegetables and seasonings. Simmer for at least 1 hour longer. We like our fair share of meat and vegetables. You may prefer to strain them out, for a clear, sparkling bouillon.

**TAKE A TIP**  
 1. Vegetable water poured down the sink means food value wasted. Canned soups take on new zest with the addition of vegetable water, but remember to go easy on the salt if the vegetable has been salted.  
 2. If you have oversalted the soup, there is something you can do about it. Slice a raw potato and add it to the soup. Remove potato before serving.  
 3. The nutritive value of the outside leaves of cabbage is good even though they are not attractive. Wash thoroughly, and add to soup stock for flavour. Remove before serving.  
 4. A dash of chili sauce and a bouillon cube added to blended

soups or dehydrated noodle soups makes a richer food.  
 5. Simmer soup. Do not boil.  
**THE SUGGESTION BOX**  
 Mrs. O. M. says: To preserve wicker furniture, spray with water. This will remove dust and keep reed from drying and cracking.  
 Mrs. J. D. says: The easy method of cleaning silver is in the aluminum pan. One quart of boiling water with one tablespoon common salt and one tablespoon of baking soda added to it before the silver is dropped in. Add silver enough to be covered. Too much silver in pan causes scratches and also prevents gold chemical action.  
 The aluminum pan may be freed of the silver tarnish by boiling apple peelings in large quantity of water for 10 minutes.

**SHORT COURSES IN AGRICULTURE AND HOME ECONOMICS**  
 Plans are now under way to hold Short Courses in Agriculture and Home Economics at Milton during the month of January. Quite a number of young people in all sections of Halton have signified their intention of attending. A further announcement regarding these Courses will be made as soon as plans are completed.
