

**Norval Lacrosse Club**

Although the lacrosse season officially ended several months ago, one important feature was missed and last Friday night official tribute was paid to the five Norval teams at a dance and presentation in Norval Parish Hall. There was something for everyone with the older folks dancing upstairs to music by Jack Armstrong and movies, boxing and games in the lower auditorium for the young people.

Crests were presented to members of the Pee Wee, Bantam, Midget and Juvenile clubs by Tim Daly, trainer of the Toronto Maple Leaf Hockey and baseball clubs. Mr. Daly pointed out to the lads the essential part that training plays in sport and the quality of sportsmanship without which the game means nothing. He reminisced about the old days of lacrosse when no substitutes were allowed and a man played until he was carried off the field. An ex-boxer, Mr. Daly also recalled his boxing days when he won the 125-lb. championship in the Golden Gloves tournament in New York.

As prizes in a sports quiz, five boys were awarded Maple Leaf hockey programs autographed by all members of this year's hockey team.

Twenty four jackets were presented to members of the junior lacrosse team by Nels Robinson, assisted by the wardens of Peel and Halton counties, J. M. Fraser and George Cleave. Mr. Robinson remarked on the accomplishments of the Norval recreation program which included in addition to lacrosse, softball for boys and girls, soccer and hockey.

Due to cold weather and some roads being blocked, the crowd was not as large as it might have been and the funds raised for purchase of the jackets and crests fell short of the mark by \$75, and officials of the Norval Recreation Centre are hoping this will be made up in private donations which may be made to the treasurer, Nels Robinson.

Members of the teams, who received crests and sweaters, are:

**Pee Wees**  
Julian Reed, Laurie Reed, Peter Fendley, Harvey Hazell, Jamie Cunningham, Ross Cunningham, George Grady, Mitch Hunter, Don Jarvie, Gordon Graham, Don Smith, Peter Pomeroy, Brim Bastedo, Bill Donaldson, Jack Frim.

**Bantams**  
Joe Louth, Tommy Armitstead, Ross Oldham, Doug Allen, John Hunter, Sho Teramoto, Glenn Elliott, Arnie Hazell, George Smith, Walter Alexander, Leloy Young.

**Midgets**  
Ronnie Fendley, Tom Finnamore, Don Schenk, Lorne Whaley, Carl Laidlaw, Bob Leslie, Bill Muir, Bruce McMurphy.

**DOLLARS FROM SHIPPING**

The Mauretania is being devoted to pleasure cruises to the West Indies out of New York with bookings restricted to dollars. The Caronia (largest liner now under construction) is being completed with a similar objective.

# Are You Asking These Questions About Saving Electricity?

## IS IT STILL NECESSARY TO SAVE ELECTRICITY?

Yes. Not nearly enough saving is yet being made, especially in the home. Result, for some time past several large industries have had their power supply cut off for lengthy periods in the 24 hours.

## IS IT NECESSARY TO SAVE ONLY AT CERTAIN HOURS?

No, it is vital to save at ALL hours. While electricity cannot be stored, water that generates it can be stored. The water storage for the five Hydro plants in the Niagara area is provided by the Great Lakes. This assures a continuous flow of water sufficient to enable these plants to go all out 24 hours a day—still there is not enough power. In 48 other Hydro generating stations throughout Ontario the water supply must be very closely guarded—if too much electricity is demanded one day, the next day's power supply must suffer. This condition is aggravated by the abnormally low rain fall last Autumn.

## MUST HOMES DO ALL THE SAVING?

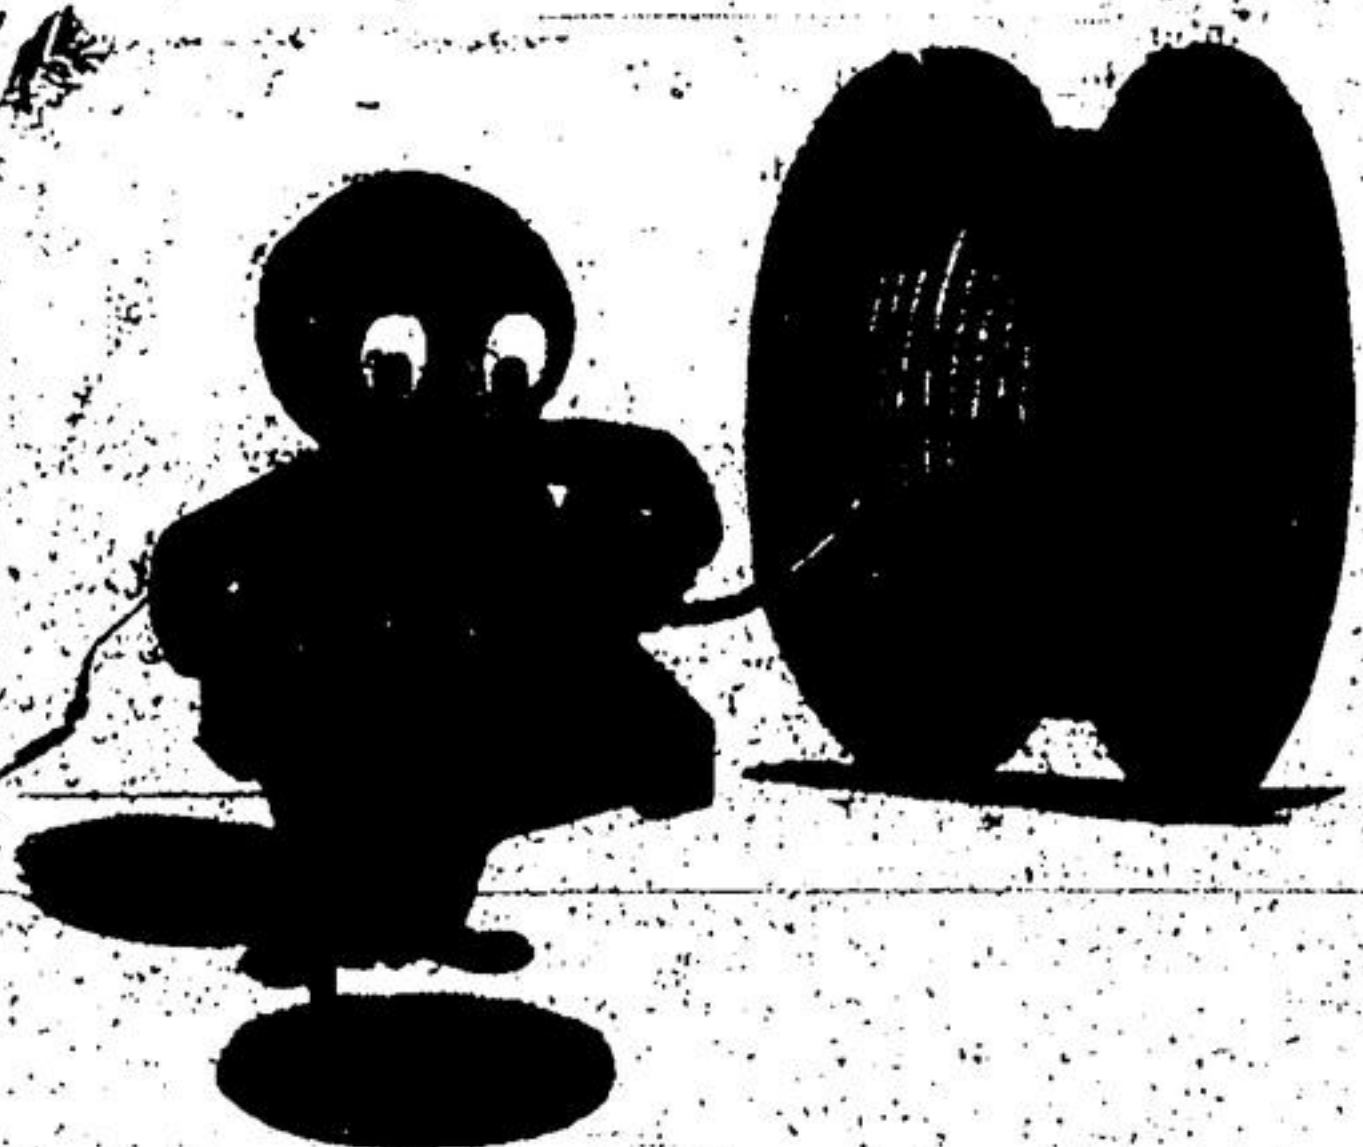

Not by any means. ALL consumers must play their full part. Modified rationing has to some extent reduced the consumption of electricity in stores and by other commercial consumers, but still greater voluntary savings are urgently needed.

## HOW CAN I SAVE MORE ELECTRICITY?

Don't leave lights burning in unoccupied offices. Turn idling motors off. Use range elements as short a time as possible. Turn off verandah and all other lights when not needed. Use electrically heated water sparingly. Do not use electric heaters or grates.

**Avoid All Waste — SAVE ELECTRICITY!**

### Safeguarding telephone wires for trouble-free Service

THE WORK of burying telephone wires or placing them in overhead cable continues year after year. Today, over 4 million miles of telephone wires, 95% of our total, are in cable, safer from storms. Service interruptions caused by weather are fewer, and still our constant aim is to provide even better service.

Not only is our service becoming more dependable, but it's growing, too. We are filling orders for telephones just as fast as new equipment is available. More telephones plus more dependable service — and always at the lowest possible cost — mean greater telephone value for every user.
