

**MORE TELEPHONES  
+ SERVICE IMPROVEMENTS**

GREATER VALUE TO EVERY TELEPHONE USER

In two short years we have added over 257,000 telephones, put in hundreds of switchboards and trained thousands of people to extend and improve your telephone service.

We are adding more telephones to meet the continuing demand for service just as fast as equipment becomes available.

All this is being done in the face of rising costs. Yet, up to now, there has been no increase in the basic telephone rates established 21 years ago.

For you, this means greater value than ever before; for us, the satisfaction of providing "the best telephone service at the lowest possible cost".

**Today we Live in a Greater Canada**

**Through their Eyes**

... CANADA is the most desired of countries. It represents hope and opportunity. It is where they want to be.

The dream of millions overseas is a reality for us.

"To see ourselves as others see us" strengthens our realization of our country's new importance in the modern world. The Canada that emerged from the war is a far greater country than we ever thought possible — a country of vastly increased and varied productivity with a million more employed than before the war with a new wealth of interesting careers awaiting those alive to the opportunities around them.

CANADA is increasingly attractive for visitors too! More tourists than ever came to us in 1947 — making an ever-growing contribution to continued Canadian progress and prosperity.

125,000 APPLICATIONS were on file in Ontario House, London, when Ontario began its immigration plan. It has been estimated that at least 80% of the displaced persons in Germany want to emigrate to Canada.

SIGNIFICANT, too, is the number of new plants established here by foreign firms. Specially interesting are those built up by wartime refugees, of whom about 3,500 entered Canada. They established at least 50 new industries employing over 6,000.

LOUIS FISCHL, escaping from Czechoslovakia, came to Canada in 1938 — began manufacturing kid gloves in an old renovated Ontario factory. Canadians joined his original handful of skilled Czech workers to learn the new art. Today thousands of pairs of finest Canadian high-fashion gloves, in leather and in fabrics, are being produced both in Prescott, Ont. and St. Tito, Que., their new branch.

LOUIS FISCHL says: "When I knew I was finished with Europe and had to begin a new life at 50, Canada was the country to which I was most anxious to come. Here there is a future. Here is everything needed for industry; vast resources for development; great opportunities for new careers."
