NEWS AND ITEMS OF INTEREST TO HALTON FARMERS

HALTON JERSEY NEW CANADIAN CHAMPION

Fairy Raleigh Zana, 14 yr. old Jersey cow owned by Featherstone Bros. of the sixth line of Trafalgar, is the new Jersey Champion long distance production cow for Canada. "Old Zana", as she is known to all Jersey enthusiasts, just recently completed another record of 660 lbs. of butterfat which makes her life-time production 7,980 lbs. of butterfat. All of her records have been made on two times milking under the management of her owners, those master feeders and caretakers, Jack and Bill Featherstone. In the same herd is Almonte Gentle Fern whose recent record makes her fifth in the list of Canada's long distance Jersey producers.

In recognition of Zana's great achievement, Halton Jersey Breeders' Club in cooperation with the Canadian Jersey Cattle Club, is staging a Banquet in the Milton Town Hall on Tuesday evening, April 13th. Col. the Honourable T. L. Kennedy, Minister of Agriculture for Ontario, is to be the guest speaker. We understand that tickets are now available from officers and directors of the Halton Jersey Club; Jas. Brommer, Secretary of the Canadian Jersey Club; and the Agricultural Office, in Milton.

At a recent meeting of the Halton club the officers for 1948 were elected as follows: President, Wm. Davies, Palermo; 1st vice-pres., Gerald R. Graham, Georgetown; 2nd Vice-Pres., Duncan Moffat, Rockwood; Secretary-Treasurer, J. E. Whitlock, Milton.

MAPLE UNIT TO ADD BATTERIES OF AYRSHIRE AND JERSEY BULLS

The annual meeting of the Maple Cattle Breeders' Association was held at Maple, Ontario, on Monday, March 22nd. The crowded auditorium bespoke the interest of the members of the unit who followed with interest the reports of the officers which revealed the amazing growth of the Association. Operations commenced in June, 1945, with a membership of 78. At the end of 1947 this had increased to 685 and many new members have signed up since the beginning of the year. The new barn, 120 ft. in length, which will house 16 bulls and also the new laboratory are both rapidly nearing completion.

Signed applications with cheques attached were presented by Andrew Stewart, fieldman of the Ontario Ayrshire Club. These represented 1038 Ayrshire cows in the 5 counties covered by the unit, to be bred in a twelve month period. Secretary W. M. Cockburn of the York Jersey Club also presented signed up applications representing some 1090 Jersey cows. Two hundred of this number are from fourteen Halton Jersey herds.

The election of the new officers resulted as follows—President Norman Porter; Vice-President, Jim Barlington; Secretary-Manager G. W. Isler.

W. P. Watson, Ontario Live stock commissioner, who has played an active part in the development of the Maple Unit, brought greetings, congratulations and a few suggestions to the officers and members of the thriving organization which is recognized as a model for new units being established in the Province.

CAPACITY HOUSE AT ANNUAL THEATRE NIGHT

The annual entertainment jointly sponsored by the Halton Holstein Club and Halton Milk Producers' Association was held in the Princess Theatre, Milton, on Wednesday evening of last week. A capacity house greeted the guest speaker, Dr. Archer Wallace of Maple, and the assisting artists, Ben Silvertown and Margaret Lewis, old favorites of Halton audiences, with their dynamic numbers on the violin and piano accordion, the Victorians, a mixed quartette, and Ben Lucia, characterist, who also acted as Master of Ceremonies.

Dr. Wallace who is well-known as a traveller, lecturer, and author delighted his audience with his illustrated lecture on a "Fate of Two Cities—London and New York". The balance of the programme while very excellent was hardly up to the standard of recent years. C. J. Pickett, president of the Halton Holstein Club, was the very able chairman of the evening. J. M. Fraser, Streetville, President of the Holstein-Friesian Ass'n. of Canada, spoke briefly and presented a Red Seal Certification of Production to Morley T. Watson, popular fieldman of the Halton Club, for the outstanding performance of one of the members of the Watson herd. Other out of

town guests included President and Mrs. W. L. McClure of the Peel Club; Mr. and Mrs. D. I. McCaugherty of the Holstein-Friesian Journal and Mr. and Mrs. Geo. Dronnan of Guelph.

WORLD CHAMPION HOLSTEIN RECALLS FAMOUS SPY

Recalling to memory "Mata Hari" famous spy of World War I, is a new World Champion Holstein cow named Liffoc Mata Hari. Supreme, bred and owned by N. W. McConkey, Peterboro, Ontario. Mata Hari has just established a new World record for butterfat production over all breeds for her 365 day Junior three-year-old record of 906 lbs. butterfat from 19685 lbs. milk, average test 4.61 percent butterfat. This record was made on twice a-day milking and is substantially larger than that of the previous champion Sweetholm Rag Apple Belle, another Canadian Holstein who made her record of 848 lbs. fat from 17,945 lbs. milk in 1944 in the herd of E. L. Sweet, Belmont Ontario.

According to Mr. McConkey, the new champion was milked entirely by machine and was very consistent in her production, gaining steadily to reach her highest day of 72 lbs. in the sixth month of her lactation and finishing with 40 lbs. on her last day on test. Not a particularly large animal she is more remarkable for her appetite for hay, consuming more hay than any other cow ever owned on the McConkey Farm. She had no particular scientific feeding program, her feeder most of the time being "Grandpa McConkey" who is 71 years of age.

Mata Hari's two sons have both been prize winners, her first, Liffoc Grand Champion being Junior Champion at Lindsay Central Exhibition in 1946 and her second

son, Liffoc Signet Tahari, Junior and Grand Champion at the Peterboro County Black and White Day in 1947. Mata Hari is a daughter of the noted Supreme Grand Slam.

SILVER MEDAL JERSEY

Another Jersey cow in the herd of H. Kroiss, Oakville, Ontario, has been awarded a Silver Medal Certificate by the Canadian Jersey Cattle Club. Bolvin Standard Mary 107278, went on test as a junior three-year-old and in 305 days produced 7,549 lbs. of milk, 632 lbs. of fat with the high average test of 7.05 per cent. Mary has a full sister that is also a Silver Medal winner and another daughter of their sire, Sissy's Golden Standard, has completed a Silver Medal Record. However, since two of those daughters are from the same dam, Sissy's Golden Standard is not yet known as a Silver Medal record.

NOTICE TO CREDITORS

In the Estate of Lt. Colonel James Ballantine, D.S.O.
Orchard Farmer, deceased

All persons having claims against the estate of Lt. Col. James Ballantine, D.S.O., late of the Township of Esquevas, in the County of Halton, Orchard Farmer, who died on or about the 7th day of January, 1948, are hereby notified to send particulars of same to the undersigned on or before the 19th day of April, A.D. 1948, after which date the estate will be distributed with regard only to the claims of which the undersigned shall then have notice, and the undersigned will not be liable to any person of whose claim they shall not then have notice.

DATED at Georgetown this 16th day of March, A.D., 1948.

Mary Elizabeth Ballantine, John Robert Ballantine, and Bert Blackwell, executors of the estate of Lt. Colonel James Ballantine, D.S.O., by their solicitors, Dals and Bennett, Georgetown, Ontario.

ON GUARD

Day and night, more dependable than ever

TODAY, telephones are four times as free from "trouble" as twenty years ago, and there are twice as many of them!

Each month 10,000 are being added so that soon all may have dependable telephone service and the security that goes with it.

This is being done in spite of rising costs, yet up to now there has been no increase in the basic telephone rates established 21 years ago.

For you, this means greater value than ever before; for us, the satisfaction of providing "the best telephone service at the lowest cost".

THE BELL TELEPHONE COMPANY OF CANADA

Advertising reminds people of the things they are going to need, and it gives them important information about these things. The result is that many people are attracted to the store that gives this information.

New Zealand Maori people are closely allied to the Hawaiians. Both Hawaiians and New Zealand Maoris trace their ancestry to Tahitians.

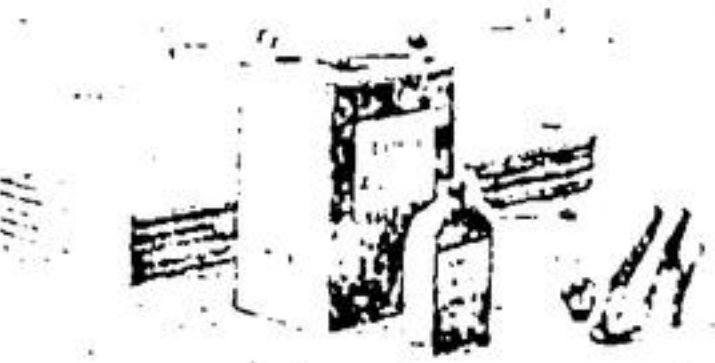

Today we Live in a Greater Canada

Flavoured with
Pulp Mill Waste

VANILLA from waste pulp mill liquor... rock wool insulation from blast furnace slag... Yesterday waste... today a useful product... contributing to Canada's industrial advance which has made us one of the world's great manufacturing nations... with greater, more interesting, more varied opportunities than ever before for the talents and enterprise of young Canadians. Today our vast natural resources are being developed not only more extensively than ever before. Canadian science and initiative are developing them more intensively too.

OUR NATURAL gas is now the source of a great new fertilizer production... Sulphur fumes are processed into sulphuric acid... From formerly waste hydrogen comes a Canadian nitric acid...

FROM the waste liquor of our pulp and paper mills now come ethyl alcohol, vanilla flavour, yeast, some forms of plastics. New developments convert our saw mill waste into kraft pulp; slash from sawing into insulating board.

NEW METHODS developed by Canadian scientists extract additional metals from Canadian ores... a whole range of minor metals are now the valuable by-products of our lead-time arts...

"OPPORTUNITIES HERE..."

LAIRD MILLER of Jarvis, Ontario, "started at the bottom" in a local industry 20 years ago, has advanced to a position of responsibility today. 13 years ago he took over the failing local newspaper, has built it up until it has gained recognition as one of Canada's outstanding weeklies. He has served eight years as councillor, four as Reeve, on his municipal council; last year was elected to the Board of the Canadian Weekly Newspapers Association.

LAIRD MILLER says: "I'm glad I stayed in Canada when others were seeking success elsewhere. There have always been opportunities here for those ready to take advantage of them — but never have there been so many, or such a variety, of them as there are today."

One of a series presented by

Molson's

to promote a fuller realization by Canadians of Canada's present potential
