Federation of Agriculture Studies Automobile Insurance

At the Directors' meeting of Halton County Federation of Agriculture last Wednesday the question of establishing Co-operative Automobile Insurance in the Province of Ontario was discussed. A motion approving the Plan in principle was passed and a committee appointed to investigate and further study the suggested plan and report to the next meeting.

The County Secretary arranged an interview with the Executive of the Ontario Federation of Agriculture and the Ontario Co-operative Insurance officials and on Friday the committee composed of M. J. Brown, Esqueping; E. M. Ford, Trifalgar; A. Hunter, Nelson; L. Crawford, Newagawey, and the County Secretary, B. S. Heatherington, accompanied by Paul A. Fisher went to Toronto to the head office of the Ontario Federation of Agriculture where the interview was held and a vast amount of information gathered.

For several years the question of Co-operative Insurance has been discussed and studied. During the past year the member bodies of the Federation and Farm Forum have been making a more intensive study of the question and requests for some action have been repeatedly made, which resulted in the Ontario Federation of Agriculture preparing and submitting a plan to the county Federations for their consideration.

Already four provinces in Canada, Alberta, Saskatchewan, Manitoba and Ontario have established and are writing co-operative insurance and have obtained Dominion Charters. During 1947 the volume of business in Co-operative Life Insurance reached \$11,082,891.

In order to obtain the necessary license to write automobile insurance in Ontario, \$50,000.00 capital will have to be raised. To assure a proper distribution and democratic control, the suggested plan as set out by the Ontario Federation allocates a fair and equitable amount to each County. Already several Counties have set up County Co-operative Automobile Insurance Committees and the movement is rapidly gaining momentum.

In Ontario sufficient capital has been raised and an Ontario License has been obtained to write Live Stock Transit Insurance which has resulted from the Organized Live Stock Producers' study and demand.
