ESQUESING ADOPTS DENTAL CARE IN SCHOOLS

At its meeting on Monday evening, April 25th, the members of the Esquesing Township School Board voted unanimously to institute a programme for the dental care of the children in their schools.

The beginning of dental care in the schools in Esquesing Township marks the completion of coverage of this service in Halton County in those rural areas served by Area School Boards, since the Boards in Nassagaweya, Nelson and Trafalgar Townships already have such programmes well under way.

By this plan all primary school children in the Board Area will have free dental care available to them. The cost of this service will be borne jointly by the Area School Board and by the Provincial Department of Health.

Local dentists will make periodic surveys of the schools to determine which children need care. The parent will be notified of the dentist's findings, will make his own appointment with his own family dentist and the necessary work will be done by his family dentist.

It is felt that this service will be of great value to school children and will be an important factor in establishing and maintaining good health in the school population.

Mackenzie News

This week started the grass cutting season. With everything so green and after a long winter, it's almost a pleasure for the first time or two.

Until this Spring we would get a large truckload of gyproc in, and in two days time would be giving the same old answer of no gyproc on hand and didn't know when the next shipment would be. This season we have gyproc board for as long as a week or ten days at a time! You can apply it yourself and get your wife to do the job of filling in the cracks (that's the slowest part, but she won't find that out until she has started the job). The cost is 4.9c per square foot.

See you over the back fence, putting in your garden, mowing the grass, or just leaning on the rake watching the Spring arrive.
