THE WEATHER

Mr. Editor: Well, here we are into the month of May and really not a bad start either. There was certainly lots of sunshine over the week-end even if the air did feel a bit on the cool side. I thought maybe you would like a review of poor old April and all that was said about it; but after all, it was 4 degrees warmer than the daily normal average of 51 and was one degree above the minimum daily normal average of 38. Even the rainfall for April this year of 2.89 inches was only a little more than

the normal monthly amount which is 2.48 inches.

DATE	MAX.	MIN.	RAIN
April 26	70	43	.02
April 27	46	41	.10
April 28	58	34	
April 29	55	32	
April 30	59	39	
May 1	64	32	
May 2	64	29	
Average	59.42	35.71	.12

CARD OF THANKS
