**Mackenzie News**

After looking in the paper and seeing nothing but Flood, Gun-fro and Famine, it's a good idea to take a walk or a ride. You see the country-side at its best in June. What a truly good part of the world we live in — even when the dust blows in our eyes, from "Operation Sewer."

One of our best values at present is Cedar Shingles at \$8.50 per hundred board, foot for "12-10". This is one of the best woods to withstand weather and the 12" boards go on so fast that the amateur builder begins to think he is already graduated into the professional class. See you casting your vote on Monday. It is both your duty and your privilege.
