

THE OLD AND THE NEW IN FLYING

SEVEN YEARS IN AVIATION
—It is a far cry from the planes used when Trans-Canada Air Lines first began operations in 1941 to the huge 40-passenger, pressurized North Star which officially entered transcontinental service on June 1. When T.C.A. began transcontinental operations in April, 1939, the Lockheed 10-passenger, shown below, was sufficient to meet traffic demands. Air travel has grown to such an extent in the past 17 years that the Lockheeds have been replaced with the powerful four-engined North Star shown at top. It is Canada's largest and fastest plane and holds a transcontinental speed record. On June 1 the new T.C.A. plane also entered inter-city and trans-Atlantic services.

NEWS AND ITEMS OF INTEREST TO HALTON FARMERS

SPRAYING COWS AGAINST FLIES

Spraying dairy animals against flies at regular intervals during the summer months should be a "must" in the routine of herd management. Spraying the livestock should be begun at once if action in this direction has not already been taken. It should be continued at regular intervals from two to five weeks depending on the duration of the effectiveness of the spray used. After exposure to heavy rains additional spraying is necessary.

There are a number of commercial sprays available. Some of these contain D.D.T. and other poisonous ingredients while others have varying concentrations of D.D.T. mixed with water or paraffin. As a result of tests made at the Central Experimental Farm, the following spray is now being used: 50% D.D.T. water dispersible powder in 2 1/2 to 5 gals. of water. This gives a concentration of from one to two per cent spray which has proven satisfactory for controlling flies on cattle.

A similar spray, but of greater D. D. T. concentration, is used in and about dairy stables to control cattle flies. This spray is made up of one pound of 50 per cent D.D.T. water dispersible powder in one gal. of water. Care should be taken to see that all food or drinking vessels are covered before spraying since D.D.T. is poisonous when swallowed in large amounts.

HALTON CATTLE COMMAND HIGH PRICES

The National Holstein Sale held in the Oakville Arena on Monday afternoon of last week and the Golden Guernsey Sale at the Oakville Sales Arena on Wednesday evening of the same week both attracted capacity crowds. An animal consigned by J. J. E. McGeue of Alliston topped the Holstein Sale, bringing \$5,000. A two year old daughter of Sovereign consigned by Albert Stagg of Oakville brought \$2,650, while a Paragon daughter bred by E. J. Meagher of Oakville brought \$1500.

At the Golden Guernsey Sale a heifer consigned by W. S. Brooks of Paris brought the top price of \$1450. The top Halton heifer bred and consigned by M. T. McNabb and Sons of Georgetown brought \$725. Other Halton Guernsey breeders making consignments to this sale were: Wm. G. Booth, Milton; and Valley Crest Farms Ltd., Oakville.

HIGH SCHOOL NEWS

By Vic and Jo
As our jubilant readers readily know, this column is our final masterpiece. This week the students will emerge from the dim and dusty halls of old G.H.S. to enjoy a brief rest-called the summer holidays. With no school we have nothing to report, so no column (logical, isn't it?)

We readily admit that our column has been no literary masterpiece or a gem of the English language, for it has been full of corn, half-baked witticisms and sarcastic comments. However we have had lots of fun writing it and we hope you have enjoyed reading it.

Now comes the question of who are Vic and Jo? We have tried to keep it somewhat of a secret mainly because we like to live. However as this is our last column and because we are leaving the country (on the advice of the editor) we should let our few readers in on it. So here is the confession—

H. R. WHITE ADDRESSES SHORTHORN MEETING

A twilight barn meeting was held recently at the farm home of J. E. Pearen, well known and prominent Shorthorn breeder of Acton. A goodly number of Shorthorn breeders of Halton and Wellington counties were in attendance in addition to members of the Acton Boys' and Girls' Calf Club and the members of the Baby Beef Section of the Halton Calf Club. H. R. White, Secretary of the Shorthorn Ass'n. of Canada, and Prof. A. D. Runions of the Department of Animal Husbandry, Guelph, were the chief speakers. Two excellent classes of Shorthorns were selected from the Pearen herd. The programme also included demonstrations on curling and showmanship by T. C. Amos of Moffat and Agricultural Representative J. E. Whitehead. A delicious lunch served by the Pearen family, brought to a conclusion one of the most successful farm meetings held in Acton districts in some years.

VISITOR HERE FROM ENGLAND

Mrs. C. L. Scott of Leeds, England, arrived in town last week to visit with her son-in-law and daughter, Mr. and Mrs. Stewart Young. Mrs. Scott made the crossing on the Aquitania.

WINS NEW FORD IN LUCKY DRAW

Harry Reed of Guelph, who is married to the former Mary Bludd of Glen Williams, was the winner of a 1948 Ford in a recent raffle conducted by a service club at Stamford.

WAS BANK CLERK HERE, NOW IN BRAMPTON

Douglas Bracken, teller at the Bank of Montreal here until he was transferred to Timmins has been appointed assistant accountant at the bank branch in Brampton. Doug married the former Helen Thompson of Timmins three years ago and she will be joining him in Brampton as soon as they find an apartment there.

I'm "Vic" alias Douglas Victor Latimer, tall, dark and stupid; I live in the part of town called John Street. I'm a fifth form former, treasurer of the Student Council, C.O. of the cadet corps, and a general all around dreg. I like most sports such as baseball, girls, rugby, girls, volleyball and girls. My favourite pastime is looking at new cars. All the sarcastic remarks in the column come from me and I usually get punched in the nose for my trouble.

I'm "Jo" alias Robert Joseph Adley. I'm the tall, handsome schmoe with the red hair. I inhabit a part of town called Glen Williams. I'm a fifth former, member of the country called Glen Williams of the cadet corps and a pretty good half-wit. My mighty contribution to the column is the so-called wit. Most sports interest me especially swimming, girls, rugby, girls, baseball and girls. I occupy my spare time with playing the cornet and looking at new cars.

So we have finally confessed to our crimes but try and catch us. But we would like to thank our few readers for enduring our nonsense every week. Also we want to thank Walter Blinn for printing our column even though the circulation of the Herald dropped, and our English teacher, Mr. Lambert, who tried to teach us some English, (ain't it a shame?)

CHURCH NEWS

St. George's Church
Archdeacon W. G. O. Thompson,
Rector

THIRD SUNDAY AFTER TRINITY

Holy Communion, 8.00 a.m.; Sunday School, 10.00 a.m.; Matins, 11.00 a.m.; Evensong, 7. p.m.

Today we live in a Greater Canada

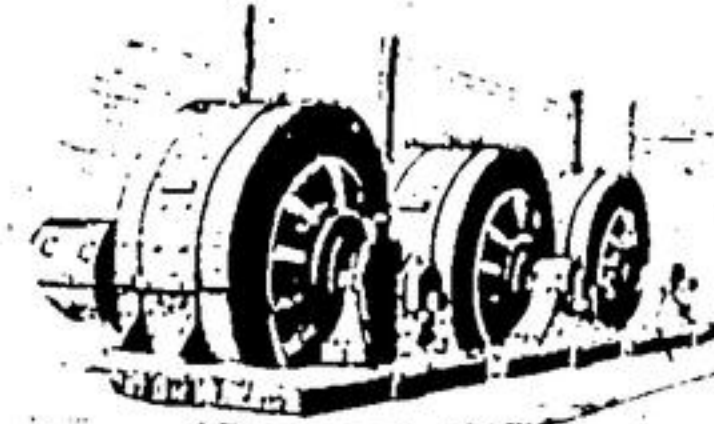

The Barren Lands

Produce New Wealth

AT STEEP ROCK the wartime development of one of the richest bodies of iron ore on the continent has given us a new, long-sought primary industry... Today under the carbon mass of Ungava vast new areas of high-grade iron ore are now being actively explored.

WHERE BEFORE the war was a roadless Quebec wilderness, Shipshaw is now producing more than a million horsepower of electrical energy... At Yellowknife on Great Slave Lake, rich gold-bearing areas are being developed... From Great Bear Lake near the Arctic Circle comes precious radium...

WAR-CREATED transportation facilities by road and air have opened up a hundred thousand square miles of the northwest, making accessible, for the first time, vast resources of farmland, forests, coal and power sites.

NEW... OPPORTUNITIES

JOHN ADASKIN, son of an immigrant woodworker, developed his talents as a musician to win a distinguished place in Canadian radio. He became CBC's senior program producer; now has his own production company in Toronto; has produced over 4,000 radio shows, including some of the most popular on the Canadian air; is Master of Ceremonies and musical conductor on the national talent show "Opportunity Knocks".

JOHN ADASKIN says: "I have never regained a career in Canada. Today — more than ever before — new fields and opportunities are opening up for young Canadians. As business in general expands, so do the job and career opportunities. It's certain that opportunity will continue to break harder and more often for the talent of this country."
