Imagine!
A NEW KIND OF WATER HEATER
Lived with Glass

Inglis CANADA

AUTOMATIC ELECTRIC WATER HEATER COSTS LESS TO OWN!
The Inglis Glassed Electric Water Heater costs less to own! Life-time glass protects the steel tank from rust and corrosion, guarantees that you can spread the first cost over many, many years of trouble-free, efficient, economical use. Now, at last, you can enjoy all the convenience and economy of hot water as clean and pure as the source of your water supply, absolutely free of tank rust and corrosion.

This amazing water heater is 100% automatic... thermostatically controlled.

Shortage of Help for Ontario Harvest

Ontario Regional Officials of the National Employment Service announced in Toronto today that it is of the utmost importance that 3000 workers be secured to assist farmers with harvest operations throughout Ontario. During this time of emergency—men need not be idle! A bumper hay, and grain crop throughout the province has been placed in a position of tremendous importance owing to the fact that due to adverse weather conditions in the Prairies, seeding operations were retarded, greatly increasing the risk of fall frost. Added to this serious situation, western crops are now being attacked by grasshoppers and in some cases drought.

DRAMATIC SOPRANO—Elizabeth Benson Guy, young Halifax singer on the CBC Trans-Canada network. Miss Guy was one of this year's winners in the "Singing Stars" of Tomorrow radio concert series. She is studying for an operatic and concert career at the Royal Conservatory of Music, Toronto.

During previous years we have had the co-operation of western farmers who have come to assist in the Ontario Harvest, usually obtaining in the neighbourhood of 2500 men. However, indications are that help cannot be expected from that source in anything approaching the number required. Assistance has been sought from other regions in Canada but without a great deal of success.

An urgent appeal is being directed to all men and boys over 16 years of age, husky and strong, who are seeking summer employment. A number of young lads have already been placed on farms for this work. Those interested can register now at their nearest National Employment Office. All you need to say is "I am interested in summer farm work"—the office will do the rest.

DAUGHTER OF ACTON PUBLISHER MARRIES

Frances Elizabeth Dills, B.A., daughter of G. Arlo Dills, publisher of the Acton Free Press and Milton Champion, was married in Acton on Saturday, June 26th, to Clarence Rodrick Prosser, B.A., son of Mr. and Mrs. W. Prosser of Kirkland Lake. The ceremony was performed at the bride's home by Rev. Louis Pickering and Mr. Frank Daley of Toronto played the wedding music. Mrs. John Wray was matron of honour and the groom's brother, William Prosser of Kirkland Lake was best man.

The bride and groom, both of whom served during the war with the RCNR are graduates of the University of Toronto and the Ontario College of Education. They will live in Hanover, where the groom will be a member of the High School staff.

— Personal items always appreciated.

and Irene Boushail in yellow marquette. Roy Willis was best man, and Johnny Huta and Bill Wilde were ushers.

Today we Live in a Greater Canada

FROM DESIGN TO Delivery — "ALL-CANADIAN"

Today for the first time the label "All-Canadian" can be applied to a growing diversity of products — from kitchen and garden chairs to modern aircraft. Increasing use of original Canadian design is one more indication of Canada's continuing advance — with ever-widening areas of opportunity awaiting the enterprise of young Canadians. Canada has become one of the world's great manufacturing nations and not only are we producing more; now our designers are applying new processes and new materials to the development of distinctively Canadian products.

NEW TYPES of upholstered furniture, laminated plywood chairs, kitchen ranges, lighting equipment, canoes, toys... are some of the modern products created by the imagination and technical knowledge of Canadian designers.

LOCOMOTIVES and tractors are being designed... new features applied to ship construction... a distinctive West Coast architecture developed... Typical of Canadian achievement in metal design is modern railway coach equipment.

IN FASHION, too, there's a "New Canadian Look", as new patterns and fabrics are developed and Canadian dress designers win increasing recognition in world style centres. Today Canada's fashion industry has become big business.

G. H. WOOD raised sufficient money in 1923 to buy a tiny Toronto soap plant employing two workers. Since then his energy, industry and consistent emphasis on salesmanship have built his company into the biggest sanitation products organization in Canada manufacturing 176 separate items.

MR. WOOD says: "I've always felt that business success comes from a combination of initiative salesmanship and harmony between labour and management; and nowhere is that combination more certain of achieving results than right here at home in our own country now."
