THE WEATHER

When I mentioned recently about the weather being good for holl, days, 'you must' have thought - the idea was O.K. Anyway, you picked a nice week to be away and we hupé you enjoyed the rest? .. Tho breezes on Sunday put an end (tomporhrily, anyway) to the humidity, and it was an ideal day to tack on

the end of your holidays. You missed Friday's rain, which, with an amount of 1:38 inches was the most for any one day this year, recorded here. It certainly brought the creeks up to flood proportion' and would no doubt help the serious water shortage situation in town. - Ern Batkin
