**THE MIXING BOWL**  
 Hello Homemakers. Enjoyment of the few minutes we can spare to relax during the busy hot weather days is more complete with a tall, cool drink. There are many commercially packaged mixtures available which make the preparation very simple. On the other hand, look in the refrigerator for leftover fruit juices to make your own combination.  
 We believe that the more tartness there is to a brisk drink, the more cooling it is. Lemon juice, grapefruit juice, or rhubarb juice are effective refreshing ingredients. Recalling the days when raspberry vinegar was made at home with the soft berries, and bottled fruit juice was put away for the threshers, we submit the old standby recipes.

**RASPBERRY VINEGAR**  
 6 quarts red raspberries  
 2 pints vinegar  
 1 1/2 cups water  
 Sugar  
 Crush berries. Combine vinegar and water. Pour over berries and leave to stand overnight. Strain and measure. Add 1 cup sugar for each cup of liquid. Bring to boil for 20 minutes. Bottle and seal.

**RHUBARB PUNCH**  
 1 quart diced rhubarb  
 1 quart water  
 2 cups sugar  
 1/2 cup orange juice  
 1/4 cup lemon juice  
 1 quart soda water  
 Combine rhubarb, water and sugar. Stew until tender. Strain through very fine sieve. Chill. Add fruit juices and chill thoroughly. Add soda water and crushed ice just before serving. Yields about 2 1/2 quarts.

**MINT JULEP**  
 1 1/2 cups sugar syrup  
 6 stalks fresh mint  
 2 tablespoons lemon juice  
 1/2 cup grapefruit juice  
 1 cup ice water  
 2 cups ginger ale  
 Heat syrup, add the crushed leaves of mint and let stand 1/2 hour. Strain. Add fruit juices and chill in electric refrigerator. Just before serving, add ginger ale. Serve in tall glasses with crushed ice and a sprig of mint.

**FRUIT JUICES**  
 Wash sound, well-ripened fruit thoroughly, drain, crush. Prepare small quantities. Avoid over-cooking. Heat to simmering for several minutes. Extract juice in fruit, by straining through several layers of cheesecloth. If desired, add sugar — 1/2 to 1 cup per gallon of juice. Heat to simmering point, fill hot sterilized containers to within 1-8 inch of top of glass jars or cans, and within 1 inch of bottle rims. Seal. If bottles are used, lay in water bath. Process at boiling point for 15 minutes.

**THE QUESTION BOX**  
 Mrs. T. J. asks how to pasteurize milk at the cottage.  
**Answer:**  
**HOME PASTEURIZATION**  
 For large quantities — Filled bottles of milk, with a dairy thermometer inserted through the cap of one bottle, are placed in a deep kettle (preserving pan), in cold water about one inch from their tops. Heat is applied and when the thermometer reading reaches 145 degrees F. keep heat moderate for 30 minutes. Cool quickly for best flavour.  
 For small quantities — Heat in a double boiler to 145 degrees as indicated by dairy thermometer; hold at that temperature in the covered pan for 30 mins. Then cool quickly in several pans of cold water.  
 You may bring milk quickly to boiling point, stirring constantly, then cool immediately to assure safety from harmful bacteria, but sometimes the flavour is not as good since milk scorches easily.  
 Miss M. S. suggests:  
 (1) In hot weather use more salt in your diet.  
 (2) Be sure your water supply is pure at this time of year.

**G.R.C. Picnic Draws 200 Children at Erin**

The second annual picnic at Stanley Park, Erin, sponsored by the Georgetown Recreational Council more than lived up to expectations, when over 200 children went by bus and private car on Thursday to enjoy a big day of entertainment. The weather threatened rain but fortunately the shower held off until early evening. Walker Cleave was chairman in charge and with Hal Newman had assembled a good number of adults to take charge of sports which included races, swimming and baseball. An interesting feature was a ball game between the boys and the "old men", the latter winning 8-7. The children from Notre Dame de Bonuegard farm, a Catholic farm which is located on the former Moyer property on the 8th line, attended in a body and enjoyed themselves immensely. The G.R.C. provided pop and ice cream to supplement the box lunches brought by the children.

Winners of the races and contests were: Boys, 7-8, Doug Richardson, Briscois Gilles, Hobby Walker; girls, 7-8, Ruth Hancock, Gail McGilvray, Patty Given; boys, 9-10, wheelbarrow race, Bobby Carey and Keith Tracey, Ross Hillier and Robert Hillier, Francis Hulme and John Hulme; girls 9-10, three-legged race, Batty Barrow and Betty Henderson, Sandra McFarlane and Marna Mackenzie, Claire Bradley and Maxine Ryall; boys, 11-12, somersault race, Lynn MacNeale, Gerald Scott, Gerald Cox; girls, 11-12, thread and needle race, Beverly Hyde and Anne Hyde, Gaby St. Jean and Claire St. Jean, Marilyn Cleave and Jean Muckart; boys, 13-14, sack race, Bud Varey, Ian MacNeale, Danny Hewitt; girls, 13-14, sack race, Orla Ryall, Claire St. Jean, Claire Bradley; boys, 15-16, three-legged race, Bud Varey and Paul Barber, Bobby Carey and John Cohean, Billy Whitney and Gerald Scott; girls, 15-16, three-legged race, Shirley Dobbie and Jean Tyler, Joan Harrison and Jane Lusfy, Leona Conn and Orla Ryall; teen age boys, throwing baseball, Jean Luc, John de Beauhieu, Charles Migue; teen age girls,

*The* **MODERATE MAN**

- ▶ A moderate man is temperate in his thinking ... in his actions ... in his convictions ... he is moderate in all things.
- ▶ He has the respect of his family, his friends and his associates. He is, in short, a contented and a happy man.
- ▶ And when an occasion calls for the use of whisky, he is a man who knows, as The House of Seagram has so frequently pointed out, that he has an obligation to himself, and to his community ... it is, to drink moderately or not at all.

*Men who Think of Tomorrow Practice Moderation Today!*
