NEWS AND ITEMS OF INTEREST TO HALTON FARMERS

JERSEY BREEDERS AND CALF CLUB MEMBERS MEET AT M. C. BEATY FARM

Some sixty odd attended the twilight barn meeting at the farm of M. C. Beaty on Friday evening of last week. Two excellent classes of Jerseys were judged and a number of the Calf Club members present demonstrated their skill and ability in giving oral reasons. A T. Woodley who is completing his twelfth year as a Calf Club leader, gave the Club Members a very efficient and clear cut demonstration in trimming a calf for the show. The guest speaker was James Bremner, the popular secretary of the Canadian Jersey Cattle Club, who had, but recently returned from business trips to the Maritime Provinces and the State of Georgia. Some films in technicolor taken by Mr. Bremner in various parts of Canada brought to a close another of those most interesting and educational programmes in which Halton Calf Club Members participate each month.

FRUIT AND VEGETABLE FIELD-MAN ESTABLISHES HEAD-QUARTERS AT OAKVILLE

Some weeks ago it was announced in this column that the Ontario Dept. of Agriculture had appointed Wm. Fox of Brantford, to give special service to the fruit and vegetable growers in the area along Lake Ontario between Hamilton and Toronto. Temporarily Mr. Fox is making his headquarters at Oakville, where he can be contacted by writing to Box 192. On and after August 1st, his headquarters will be 117 Colborne St. East, Oakville, over the Rexall Drug Store. Mr. Fox has had a wealth of practical experience with the Fruit and Vegetable Division at the Central Experimental Farm; the Norfolk Fruit Growers' Co-operative at Simcoe; as well as on his own farm near Brantford. Growers of Halton are requested to make note of Mr. Fox's address, in order that they may avail themselves of his services without undue delay.

HALTON JUNIORS STAGE MID-SUMMER DANCE

The mid-summer dance of the Halton Junior Farmers was held at Huttonville Park on July 22nd. Juniors from all sections of Halton were present to enjoy this annual event, the music for which was supplied by the Modern Aires. President Cameron Wilson and his fellow officers staged a successful party and as usual it was conducted on a high level. Congratulations, Halton Junior Farmers.

COMMERCIAL FERTILIZERS FOR FALL WHEAT

Tractors with binders in tow were going full speed in most sections of Halton when this column was being dashed off—by the time it appears in print all Halton wheat with the exception of that being left for the combine will be in stock. As a matter of fact, weather permitting, some will be in the bin or at the mill. The spring crop is also turning rapidly and quite a number of fields were cut by the end of last week. In brief, it looks like an early harvest and a good one at that. True, some of Halton's wheat fields will not run over 25 bushels to the acre, while others will crowd the 50 bushel mark. In answer to our inquiry as to why the difference, Agricultural Representative J. E. Whitelock, who had recently inspected a fairly large number of Halton fields, replied that while there are a great many factors which influence yield, his inspection trip would lead him to conclude that perhaps soil preparation is the most important factor. It is rather significant, he added that the lower yielding fields were either grassy or twitchy, while the top yielding fields were clean as a whip. But what about commercial fertilizer, we asked? "Oh," replied Mr. Whitelock, "all of the farmers whose fields I visited had used commercial fertilizer—few farmers today would think of sowing fall wheat without commercial fertilizer in some form. True, where manure is available a moderate application will improve the physical condition of the soil and also add valuable plant food, but it is also a well fertilizer—few efficient farmers to fertilizers supplying a high percentage of phosphate materially promote the production of a strong rooting system, hence, it protects fall wheat against winter killing."

That is why, fall wheat fertilizers usually have a ratio of 1-6-3, that is, one part nitrogen to six parts phosphate to three parts potash. The Advisory Fertilizer Board for Ontario at their session last May, authorized the following analyses of fertilizers to be manufactured and sold in Ontario this fall: 2-12-6; 3-18-9; or 4-24-12.

Where a farmer uses the 3-18-9 mixture he need only apply two-thirds of the amount he would normally sow of 2-12-6, and in the case of 4-24-12 only half the amount is required. Other analyses of fertilizers approved by the Board are as follows: 2-16-6; 2-12-10; 4-12-6; 4-8-10; 2-8-16; 2-8-24; 0-14-7; 0-16-8; 0-12-12; and 0-12-20. The particular analyses to be used will depend on the soil type and previous cropping history of the field. Halton farmers who have not as yet had their soil analyzed, might find it good business to try it out in 1948. Soil sample boxes and instructions for the taking of soil samples can be secured on request at the Agricultural Office, Milton.

Don't forget the old adage, "It's the early bird who gets the worm," so early August would be a good time to get that sample away if you hope to have a report back in time for the sowing of your 1948 crop.

BALLINAFAD

The annual Sunday school picnic was held Thursday afternoon at the Old Mill Park in Guelph. Despite the threatening clouds there was a good attendance. Many of the younger group enjoyed the bathing facilities. A ball game then proved to be the centre of attraction till the supper hour, after which races and other contests were enjoyed.

Mrs. Fred Sinclair is at present in Guelph General Hospital where she underwent an operation for appendicitis. We all join in wishing her a speedy recovery.

Miss Dolan McEury left Malton by plane on Saturday for a two-week holiday with friends in Vancouver.

STEWARTTOWN

Congratulations and best wishes to Mr. and Mrs. Thomas Clapham, who were married in St. John's Church last Saturday.

Mrs. M. Baily spent two days last week with Mr. and Mrs. P. R. Baily in Hamilton.

Visitors with Mr. and Mrs. Greenwood during last week and this week end were Mrs. Bath, Miss M. Bath, Mrs. Hodges and Miss Grace Kooteney of Mount Dennis.

Mrs. McEwen of London and Mrs. Howard of Hamilton visited with Mrs. G. Appelbe and Miss E. Thompson over the week end.

The Women's Institute have received the following letter from England: "Dear Friends—Will you please accept our very grateful thanks for the lovely parcel of food you so kindly sent us. I would like you to tell the ladies who so kindly contributed towards it how very much it is appreciated. Each packet will help to make our rations go much further and make the change in diet so welcome. As you will know, I am a member of our W.V.S. and my particular job is the clothing exchange. Mothers can bring along any garment outgrown by their children and exchange for a larger size. This helps mothers to get the most out of their clothing coupons. This district (Chingford) was very heavily bombed during the war. Our Borough has issued a book "Chingford at War" and if your members would be interested I should be very pleased to send a copy along. May I once again offer my grateful thanks and those of my family to the members of your Institute."

St. John's Sunday school will be closed during August and will reopen the first Sunday in September.

STONE SCHOOL - PIE SOCIAL

The Stone School Forum held their monthly summer meeting on Monday, July 26th. This time it took the form of a pie social (although there were many varieties of sandwiches as well). There were so many kinds of pie on hand, that it was rumoured that some of the very prominent neighbors tried to sample all of them—others stayed with repeat orders of berry pie.

The Forum had as their guests Mr. and Mrs. G. L. Smith, John and Georgy; Mr. and Mrs. R. Corbett, all of Toronto, who have summer cottages in the district. Mr. Corbett's brother Fred and his wife who are visiting from British Columbia, were also guests.

The prize-winners at the euchre game turned out to be Miss Wilma Stull for the ladies and Miss Charlotte McCullough won the consolation in a cut with Mrs. H. Marchington. Mr. Bob Miller and Klaus Brunger received the respective men's prizes. The capable hostesses for the evening were Miss Isabel Moore, Mrs. T. Appleyard and Mrs. Harold Campbell.

Camera Records
St. George's S. S. Picnic

There's nothing like a camera to keep a permanent record of happy occasions and this year's annual picnic of St. George's Sunday School will be long remembered by those who attended through several pictures taken by our local photographer, Albert Simson. The picnic was held recently at Miles Park and the pictures are being displayed this week in the Herald office window and will form the main item for a display of Mr. Simson's art in St. George's Clubrooms tomorrow evening (Thursday, July 29th) from 7.30 p.m. to 9.30 when orders will be taken for any pictures desired.

Included in the display is a group photo as well as dozens of individual shots, many of them candid. We see Freddie Harrison on one of the benches which are a feature of entertainment at the park. Action shots of the sack race, the thread and needle competition, ball game and running races are all excellent and are a good example of Mr. Simson's talent.

CARD OF THANKS
I would like to thank all those who remembered me with cards, fruit and flowers while I was a patient in Toronto hospital.—Alvin Starret.

Long's Confectionery
will be
Closed For Vacation
Until August 3rd.
