Hello Homemakers! If there is one thing that will make a gourmet out of an otherwise simple soul, it is the lushness, the juiciness and the colourful array of the summer's fruits and berries. The fact that they are perishable and delicately fragrant seems to make them even more tempting.

The conclusion is obvious. Even the amateur cook realizes that fruit served in the most advantageous way is best. The fruit "compote" is highly recognized in all leading dining rooms for this reason.

**SUMMER COMPOTE**

Bring 3/4 cup sugar and 2 cups water to a boil, and cook 4 minutes. Wash 8 plums and 8 raspberries and simmer gently for 5 minutes. Add 1 qt. fresh blackberries and let stand in the hot fruit juice 5 minutes. Chill in electric refrigerator. Serve plain or with half-frozen cream.

**PEACH AND MELON COMPOTE**

1 1/2 cups diced peaches  
1 1/2 cups diced melon  
1 1/2 cups granulated sugar  
2 1/2 cups water  
2 tablespoons ginger syrup  
2 tablespoons finely chopped ginger

Prepare fruit. Make a syrup of sugar and water, when slightly thickened add the ginger and ginger syrup. Bring to boil and add peaches and melon. Simmer slowly until fruit is slightly transparent. Remove fruit to serving dish and cook the syrup till thickened. Pour over fruit. Chill well in electric refrigerator and serve topped with whipped cream. If desired, sprinkle with chopped nuts.

**BAKED PEACHES**

6 large peaches  
6 tablespoons brown sugar  
2 tablespoons butter  
1 cup hot water

Peel peaches, cut in half and remove pits. Place 2 tablespoons of sugar and dot of butter in each half. Place in shallow baking dish. Add the water. Bake in electric oven at 375 degrees for 20 minutes. Serve with cream.

**REFRIGERATOR CAKE**

1 can (1-1/2 cup) sweetened condensed milk  
3/4 cup lemon juice  
1 egg yolk  
1/2 cup raisins  
1/2 cups raspberries or halved strawberries  
1 egg white  
1 pound graham crackers

Combine the condensed milk, lemon juice and egg. Add the fruit and fold in the stiffly beaten egg white. Line a round or oblong pan or mold with graham crackers and cover with fruit. Add another layer of graham crackers, then the remaining mixture. Cover with cracker crumbs. Chill several hours or overnight in the electric refrigerator. Unmold and serve cold all over with whipped cream and garnished with whole berries. Serve six.

**NORVAL MIDGETS BEAT  
BRAMPTON**

Norval Midgets, completing their regular schedule in Lacrosse last week beat Brampton in a game there on Wednesday night, 7-6 and lost 6-4 on their home grounds in a return match on Friday. The Norval team were aided last night by the first time a Norval team had come out on the winning end in five years. They had to come from behind to overcome a 3-2 lead by Brampton in the first period. The game was tied at 6-6 with five minutes left to play, when Blair and Whaley clicked to push in the final goal. Norval scorers were: Ihaley (3), Carberry, Parkinson, Armistead and Blair. Haynes and Lockhurst scored two apiece for Brampton and Sibbald and Archdekin one.

Friday's game served as a preliminary to the Junior game at Norval. The Brampton line-up was bolstered with a juvenile, Howell, and it took every effort for the Brampton lads to break into the win column, the score being tied until the last period. Parkinson scored three goals for Norval and Carberry one. Brampton scorers were Caruso (2), Foster, Lockhurst, Sibbald and Howell.

Play-offs are being arranged between first and third and second and fourth teams. Ferguson and Brampton who are tied for second place will play a sudden-death game to decide their standing before these are arranged.

Norval — George Smith, Ron Feniley, Stan Archdekin, Tom Carberry, Arnie Hazell, Elgin Parkinson, Doug Allen, Tom Armistead, Ross O'Hara, Lorne Whaley, Shu Feramote, Ken Reid, Blair, Lloyd Sedore, Joe Louth, Brampton — Foster, J. S. B.

**Today we Live in a Greater Canada**

**FROM DESIGN TO  
Delivery—  
"ALL-CANADIAN"**

TODAY FOR the first time the label "All-Canadian" can be applied to a growing diversity of products — from kitchen and garden chairs to modern aircraft. Increasing use of original Canadian design is one more indication of Canada's continuing advance — with ever-widening areas of opportunity awaiting the enterprise of young Canadians. Canada has become one of the world's great manufacturing nations; and not only are we producing more; now our designers are applying new processes and new materials to the development of distinctively Canadian products.

LOCOMOTIVES and tractors are being designed . . . new features applied to ship construction . . . a distinctive West Coast architecture developed . . . Typical of Canadian achievements in metal design is modern railway coach equipment.

NEW TYPES of upholstered furniture, laminated plywood chairs, kitchen ranges, lighting equipment, canoes, toys . . . are some of the modern products created by the imagination and technical knowledge of Canadian designers.

IN FASHION, too, there's a "New Canadian Look", as new patterns and fabrics are developed and Canadian dress designers win increasing recognition in world style centres. Today Canada's fashion industry has become big business.

G. H. WOOD raised sufficient money in 1923 to buy a tiny Toronto soap plant employing two workers. Since then his energy, industry and consistent emphasis on salesmanship have built his company into the biggest sanitation products organization in Canada manufacturing 176 separate items.

MR. WOOD says: "I've always felt that business success comes from a combination of initiative salesmanship and harmony between labour and management; and nowhere is that combination more certain of achieving results than right here at home in our own country now."
