Halo Homemakers! "Being in believing" is the motto of the exhibitors at the Canadian National Exhibition this year. These manufacturers tell their story with more than twenty to twenty-five minutes standing time. It is worthwhile to do the exhibition in easy stages to check your time to see the various pictures and it's one way of seeing every look.

The women will want to spend some time in the Coliseum section where there are practical interior decorating schemes and demonstrations pertaining to home and community program projects.

Of special interest will be the day when your hobby or craft is in competition. Consult the catalogue for place and schedule of events.

#### NEW EQUIPMENT

1. More glassware is now being made in Canada. There will be ample supply of table glassware as well as cooking and baking utensils of this type.
2. The aluminum jelly moulds of different shapes and sizes are being displayed for the first time in years.
3. Notice the food chopper attachment designed to hold the chopper firm and at the same time protect your table top or working surface. It can be fastened so that it is out of your way when not in use.
4. Again, a new grater and easy to clean because the grooves are more curved.
5. There are many new apartment washing machines this year. These are time savers and require only small storage space.
6. An electric drier for clothes is another machine which many

women are considering.

7. The thermometers are also interesting. These are the most inexpensive ones ever marketed. There are special purpose ones for deep frying, for syrups, or for meats, as well as dual purpose recording gadgets.

8. Electric ranges are again the envy of the bride-to-be. Special features are: the pressure cooker as one element; a broiling gas that fits right opening shelves; time signals that ring like an alarm clock; light fixtures for an oven; easy-to-clean drip trays and streamlined handles.

9. New ironers and hand irons are displayed in the manufacturers' building where many pieces of laundry are being done for your benefit if you wish to review your technique.

Community planning is the concern of the family, yet women have a keen interest in the pattern of life surrounding them. The model homes are in detail and an attendant will be glad to tell you all about them.

#### REQUESTED RECIPES

##### Piquant Tongue Mold

- 1 package lemon jelly powder
  - 2 cups hot water
  - 2 1/2 tbsps. vinegar
  - 1/4 tsp salt
  - 1 tsp. scraped onion
  - 3/4 cups boiled tongue
  - 1/4 cup chopped dill pickles
  - 1/4 cup mayonnaise
- Dissolve lemon jelly powder in hot water. Add vinegar and salt. Chill. When slightly thickened, place in bowl of ice and water and whip with rotary egg beater until fluffy and thick like whipped cream. Fold in onion, tongue, pickles, and mayonnaise. Turn into loaf pan. Chill until firm in elec-

with cups, butter and milk. Makes 10.

- 1/2 cup peanut butter
- 1 tbsps. honey
- 2 tps. milk
- 2 cups milk
- 1/2 cup sugar

Put peanut butter, honey and salt in bowl. Add 1/2 cup milk and beat until smooth. Add the remaining milk, continuing to beat. Add vanilla. Pour into jar, cover and store in refrigerator until needed. Top each glassful with a dash of nutmeg.

##### Blueberry Pie

Line a pie plate with a rich pie pastry 1/4 inch thick. Mix 3/4 to 1 cup of blueberries with 1 tablespoon of flour, two-thirds cupful brown sugar and 1/4 teaspoon ground cloves. Fill the pie plate. Add the top crust, crimp edges and bake in a hot oven 425 degrees F. for 10 minutes; reduce heat to moderate 350 degrees F. and bake another 2 minutes or until done.

Cloves and brown sugar give a new and different flavour, but if you prefer a dash of lemon juice it's good, too.

##### Lead Tea

Allow 2 teaspoons of tea for every standard measuring cup (8-ounce) of briskly boiling water. Brew in warmed teapot 4 to 5 minutes.

Fill tall glasses with cracked or cubed ice, then pour in the hot tea. Serve with sugar and lemon slices.

##### Old Time Tarts

- 2 cups diced rhubarb
  - 1/4 cup water
  - 1 1/4 cups sugar
  - 1/4 teaspoon salt
  - 3 tablespoons quick-cooking-tapioca
  - 2 cups crushed berries
  - 8 baked tart shells
  - 1/2 cup cream, whipped
- Combine rhubarb, water, sugar and salt in saucepan. Bring to a boil and simmer 5 minutes. Add quick-cooking tapioca and berries and bring to a full boil, stirring constantly. Remove from heat. Cool, stirring occasionally. Turn into tart shells. Chill just before serving, garnish with the whipped cream. Makes 8 servings.

#### THE MODERN AGE

Down mid the clank of flying wheels,  
Where never the forward march relaxes,  
I trudge each shift to pay my meals  
And little bit of income taxes.  
Time was when man just worked by day,  
The night were his, serene, star-spangled;  
Advancement came, or so they say,  
Planes jet-propelled and things new-fangled.

Now this machine, the experts say,  
Will take the drudgery from labour.  
Less hours to work, more time to play,  
Some time to visit with your neighbour.  
Just look at her (salesman's veneer)  
A stream-lined dream of gears and gauges;  
Buy her, be her pioneer,  
Have stamped your name on record's pages.  
Her uses, why she'll hoe your corn,  
Harvest it, dump it in your silo;  
Harvest your grain in calm or storm,  
Yet leave it, that shade of golden yellow.

Of things that are, or that have been,  
A vision this of science's scholars;  
Her needs, a spot of gasoline,  
Her price (he coughed) twelve thousand dollars.  
Sandy, I said to my old friend,  
We met (well) near the railway station.  
In this tractor age, and drudgery's end,  
I fear, doomed is your occupation.

Over a glass he stared at me —  
Why man alive, not now, nor never  
The tractor balks at drudgery,  
The hired man works as hard as ever.

Why where I work, fence rows and land,  
With every kind of weed infested,  
Work calling me on every hand,  
All money in machines invested.  
The time we've lost, I'm telling you  
Fiddling with this and that new caper,  
We'll have to go on shift work too  
The same as where they make the paper.

No time discuss the why's or how's,  
A shaft of light the east's adorning,  
I'll have to hike and find the cows,  
Staff job, but mine on Sunday morning.

But still for me a ray of hope,  
Now long my day, and it's a shorter,  
If we go on shifts with work to cope  
You'd think the night shift would be shorter."

Along the line, somewhere we've faltered,  
Surely not those, science scholars,  
Sandy's working hours are not curtailed,  
And like a racehorse flies — our dollars.

Bill Taylor, Water St.

## Today we Live in a Greater Canada

# Through their Eyes

... CANADA is the most desired of countries. It represents hope and opportunity. It is where they want to be.

The dream of millions overseas is a reality for us.

"To see ourselves as others see us" strengthens our realization of our country's new importance in the modern world. The Canada that emerged from the war is a far greater country than we ever thought possible — a country of vastly increased and varied productivity — with a million more employed than before the war — with a new wealth of interesting careers awaiting those alive to the opportunities around them.

125,000 APPLICATIONS were on file in Ontario House, London, when Ontario began its immigration plan. It has been estimated that at least 80% of the displaced persons in Germany want to emigrate to Canada.

SIGNIFICANT, too, is the number of new plants established here by foreign firms. Specially interesting are those built up by wartime refugees, of whom about 1,500 entered Canada. They established at least 56 new industries employing over 6,000.

CANADA is increasingly attractive for visitors too! More tourists than ever came to us in 1947 — making an ever growing contribution to our national progress and prosperity.

LOUIS FISCHL, escaping from Czechoslovakia, came to Canada in 1938 — began manufacturing kid gloves in an old renovated Ontario factory. Canadian job of his original kind of skilled Czech workers to learn the new art. Today thousands of pairs of these Canadian high-fashion gloves, in leather and in fabric, are being produced both in Toronto, Ont. and St. Tho.
