

# Glen Fair Has Excellent Hall Exhibit

Second Annual Fair by St. Alban's Ladies — Baby Show, Decorated Bikes and Carriages add to interest.

The second annual Glen Williams Fair, sponsored by the Ladies Guild of St. Alban's Church of England was a most successful event on Saturday afternoon. Archdeacon W. G. O. Thompson officially opened the fair which included a tastefully arranged hall exhibit as well as special features including a baby show and decorated bicycles and doll carriages.

John Crossley and Mary Jane Bouskirk won the baby show classes, which were judged by Mrs. Norman Verdes of Georgetown and Miss Audrey Cameron of Toronto, both registered nurses. Results of the baby show were: Over 6 months: 1st, John Crossley; 2nd, Carol Ann Fritker; 3rd, David Sheppard. Under 6 months: 1st, Mary Jane Bouskirk; 2nd, Joanne Kemahead; 3rd, Dorothy Hancock; 4th, Margaret Crawford.

Winners for best decorated doll carriages were Betty Anne Preston, Heather Hayes and Judy Beaumont. Prizes were given to Dennis Hancock, Laddie Haines and Tim Haines for best decorated tricycles. Mrs. William Sharpe, aged 89, won the prize for the oldest person on the grounds and 11-week old Joy Haines was the youngest person present.

Principal J. L. Lambert of Georgetown High School and Recreation Director Hal Newman judged the school work. Mrs. Thomas Sykes judged the ladies work and Mrs. S. Groat and Mrs. W. V. Grant the baking. Walter Rigz acted as judge of flowers and vegetables.

## YOUR HYDRO CHAIRMAN REPORTS on the Power Shortage

**THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO**

620 UNIVERSITY AVENUE  
TORONTO 2

September 11, 1948.

ROBERT H. SAUNDERS, C.B.E., K.C.  
CHAIRMAN

Dear Fellow Citizens:

The demand for electricity from all classes of the community — homes, farms and industries — all over Ontario, is still mounting. Homes are being built, the demand for increased production from farms is steadily increasing and industry is pressing forward with plans for expansion, plans that mean greater production and more jobs to keep Ontario prosperous.

It is anticipated that the increase in demand over the available supply will amount to in excess of four million kilowatt hours per day, and conservation measures have been put into effect as of Tuesday, September 14th. These will include reductions in the supply for snow windows, office lighting and certain industries, banning outdoor electrical signs and in other ways. Even with all these reductions we will still be short 1,200,000 kilowatt hours per day but to insist on more would have a hampering effect on industry and seriously reduce employment.

Where then can we get the vitally needed power? From you and every individual Hydro user in Ontario. How much should you save? Take a 60-watt electric lamp as an example. For every 24 hours it burns, it requires almost one and a half kilowatt hours of current. If every one of the 900,000 Hydro users in Ontario will save the equivalent of that much electricity every day there will be no need for cut offs.

Everyone must do his or her part. It should be a 24 hour effort. Turn off every light, switch off every motor or appliance the moment it is not needed. Particularly, watch the switches on your electric range.

The situation is critical. Full employment must be maintained and the support of every householder, every commercial user and every industrial consumer is essential in avoiding the waste of electricity.

*Robert H. Saunders*  
Chairman,  
The Hydro-Electric Power Commission of Ontario.
