Mackenzie News
Well it was a good week-end for a rest — and Monday was a good day for washing. If you are still interested in economy in heating a modest investment of \$25.00 (plus installation charges) will buy one of our STEP SAVER Draft controls. This eliminates overheating, thereby saving coal. Also it saves you steps up and down cellar and lets you get to bed earlier without sitting up to check on the furnace. The STEP SAVER has a spring return which closes the draft in the event of a power shut-off. We have a number of householders burning Pea coal and using the STEP SAVER thus saving \$2.00 per ton in their coal. Drop into the office and we will show you the model control in operation. We have two cars of Stove coal rolling and if you'd like to have your bin filled up, let us know and we will deliver it directly off the car. See you raking the leaves — yet.
