The GARDSMAN may save YOUR life by eliminating the danger of being trapped by fire while asleep.

- Modern scientific engineering has made it possible to place a FIRE DETECTOR and ALARM in your home to help protect you against loss of life by fire.
- This outstanding invention, known as the GARDSMAN will ring out a loud warning for you and your family to leave the premises before it is too late.
- The GARDSMAN is non-electrical, has no batteries, chemicals or fusible links, does not require any installation — just hang it on a nail.
- You carry fire insurance to protect you against loss of property but what protection have you against the loss of your LIFE and the LIVES of your loved ones in that very same fire?
- This sensational life saving device is now available at a nominal cost. Don't delay — don't wait — call on your dealer — RIGHT NOW — for a demonstration.

Hello Homemakers! Gift shopping should be done according to plan. Too often, we are carried away at the last moment by the "on the spot glamour" of expensive, impractical, gadgets. Do not be too easily diverted from the items on your shopping list.

Take time to consider what the recipient will think of the gift two weeks after Christmas. A high priced article is even more costly if it has beauty but lacks durability. For example, a blouse for your sister, a solid colour will cost more than white in the identical material while a print design will cost more again. It requires an additional process to add colour, and the dye itself costs extra while the design in the print costs still more. Quoting a merchandising expert, our friend suggested that we should consider whether usefulness and decorative-ness balance each other.

Your key to intrinsic value lies in the answers to three basic questions: Of what is it made? Secondly, how is it made? Thirdly, what is the quality of workmanship?

- To help on busy shopping days, we suggest quick cooking dishes, that will save electricity too:
- Liver and onions.
 - Scalloped Tomatoes.
 - Gingerbread Muffins and Apple-sauce.
 - Cream Potato-Cheese Soup.
 - Cold Meat and Maccadone Canned Vegetables.
 - Tea Biscuits and Chocolate Rice Pudding.
 - Corn Fritters and Sausages.
 - Grated Carrot-Raisin Salad.
 - Mince-meat Tarts.
 - English Stew (Pressure Cooked).
 - Carrots and Turnip Sticks
 - Jelly Roll — Canned Fruit

REQUESTED RECIPES
Mrs. T. G. asks for:
Glazed Fruits
2 cups sugar 1 cup water, two thirds light corn syrup, small fruits or sections of larger fruits or whole nuts.
Make a syrup of the sugar, water and corn syrup. Boil, without stirring, to the hard crack stage (300 degrees). Remove the saucepan from the element and put it into an outer pan of boiling water

With the Halton Farm Forums

by Lillian C. Gray

Review Night saw some three hundred people from seventeen forums gathering in Milton Town Hall. This was Halton's first county rally, and, judging from comments overheard it was a decided success. The program, under the chairmanship of R. S. Heatherington, Agricultural Fieldman for Halton, included addresses by R. W. Morrison, Vice President of the Federation of Agriculture and Secretary of Ontario Cream Producers; J. E. Whitlock, Agricultural representative; Ray Hergott, Farm Forum Fieldman; and Clare Burt, Ontario Farm Forum Secretary.

Forums a Peoples' Movement
Mr. Morrison, who spoke on agriculture conditions as he saw them in Europe when he attended the meeting of I.F.A.P. in Paris, a year ago, challenged Ontario rural people to learn how to live more than to just make a living. He spoke of the Danish folk schools which, he said, were designed to teach people how to be better citizens. The Danish folk schools, the Co-operatives, which were extremely well developed, the people's religion and philosophy, their whole way of living, was all bound together in their People's Movement. Farm Forum is a People's Movement, stated the speaker, and let's keep it that. Let us interpret our idealism into everyday living.

Should Think Internationally
Mr. Whitlock, in his address, said he believed in Farm Forum for two reasons — it should help rural people to straighten out their thinking and create a better spirit of understanding, and it is a medium for tackling not only community problems but also problems too large to be solved individually. Few of us think internationally and we need to do so. The speaker also warned against faulty thinking and the believing and accepting of false rumours that endanger our national welfare to no good purpose. Speaking of conservation of soil, Mr. Whitlock stated that we must take action very soon. It is most important that the organic matter of our soils be preserved. He also advocated contour ploughing and the preservation of wood lots.

SOCIAL WORKER RECEIVES MASTER'S DEGREE
Miss Eileen Duffy, who, on September 1st, commenced her duties as Social Worker with the County of Halton Children's Aid Society, recently received the degree of Master of Social Work at the convocation exercises at the University of Toronto, attaining a high standing.

Mr. R. F. asks for:
Holiday Fudge

2 cups white sugar, 1/2 cup corn syrup, 1/2 cup water, 1/2 cup candied cherries, 2 egg-whites, 1/2 cup blanched almonds, 1 tablespoon almond or lemon extract.
Put the sugar, water and corn syrup into a saucepan. Stir it while it dissolves over the heat, then let it boil without stirring to the light crack stage (305 degrees). While it is cooking, beat the whites of eggs stiffly and when the syrup is ready pour it over them, beating constantly. Cool slightly (on window sill). Beat until creamy, add nuts, cherries and extract, and pour into buttered tins.

Mrs. M. J. asks for:
Butter Scotch Sticks

1/2 cup butter, 1 cup brown sugar, 1 egg, 1/2 cup broken pecan meats, 1 cup sifted flour, 1/2 teaspoon salt, 1 teaspoon baking powder, 1 teaspoon vanilla.
Melt butter in a saucepan, add sugar and when well blended remove from the electric element and cool, in the saucepan, until lukewarm. Add unbeaten eggs to mixture and beat well. Mix flour, salt and baking powder and add to the sugar mixture; then add the nut meats and vanilla. Spread the mixture in a shallow pan lined with plain paper which has been greased. Bake 30 minutes in a hot electric oven (400 to 450 degrees). While hot, cut into strips an inch wide and four inches long. This recipe makes about two dozen.

Mrs. S. S. asks for:
Gingerbread

1/2 cup shortening, 1/2 cup boiling water, 1 cup molasses, 1 1/2 teaspoons ginger, 1/2 teaspoon salt, 2 1/2 cups flour, 1 teaspoon soda.
Melt the shortening in the boiling water. Add molasses. Sift the dry ingredients together and add them to the mixture. Beat vigorously. Put in a greased muffin tin and bake in an electric oven (350 to 375 degrees) 25 minutes.
