**MacKenzie News**

We were certainly out in our expectation of seeing you voting last Monday. However it is still a date for this Monday. Does the cold blast from Kansas make you wish you could put an overcoat on your house? You can do a lot towards keeping the heat in and the cold out by putting rockwool insulation in your attic. For 41c per square foot you can put two inches of granulated rockwool over the upstairs ceiling. This is a clean quiet job which will keep you from being underfoot of the Christmas preparations. If you are worn down with Christmas shopping on Saturday, why not treat yourself to supper at the Rebekah's sale, and supper.

J. B. MACFENZIE & SON
