Hey, Kids!

I'm coming to Georgetown on Saturday, December 18th . . . meet me at the Community Christmas tree at the Mill and Main Street corner at 3.00 p.m.

Tell your Dad and Mom not to forget to buy tickets on the annual lucky draw . . . Sponsored by the Georgetown Lions Club there are prizes of turkeys and chickens and a special prize of a doll dressed in \$1 bills. Proceeds from their sale helps to pay for my visit to Georgetown...

SEE YOU SATURDAY, DECEMBER 18th

Public School Inspector Recommends Staff Addition

Georgetown Public School will need one extra "teacher next year and another one next year or the venr after. This recommendation was contained in the report of Inspector L. L. Skuce, presented to the Public School Board at their last meeting of the year last Wednesday night. Mr. Skuce, accompanied by Mr. C. E. Potis, assistant inspector for Peel County, had visited the school the last week in November. He pointed to the retardation which can result from overcrowding and said that a class should not contain more than 35 pupils. This year the average, exclusive of kindergarton, is 40.2. A factor in the situation is that 54 kindergarten children will , enter grade 1 next year, while only . 37 will graduate from entrance class. Next year's enrolment is estimated at over 379, and the hiring of kn extra teacher would still mean an average of well over 35 per class.

Mr. Skuce, who discussed his report with board members, said that Georgetown was facing a situation common to most progressive towns in' the province. The growth in population was contributing more pupils to the lower grades, the 54-37 comparison between kindergarten and entrance class being a clear example. Overcrowding is not limited to towns, and the same situation exists in Norval and Glen Williams. Future boards, he said, would have to decide on a permanent step to meet the situation, and meanwhile he strongly urged, the 1949 board to arrange at an early date to provide the extra classroom space, which must either be done by using the present assembly room or securing temporary accommoda-

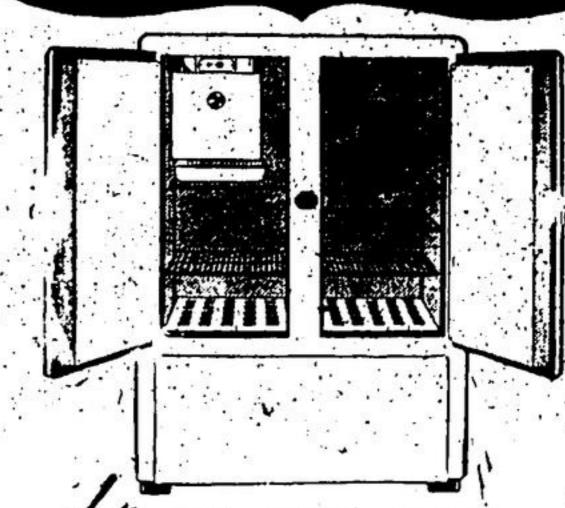

tion in another building. The present enrolment of 416 is made up as follows: Kindergar ten-Primary (Mrs. J. Dwyer) 54 Miss Beatrice Hume, Grade 1; Miss Marle Lindsay, Grade 2, 39 Grade 1; I. Miss Laura Scott, Grade 2, 11 and Grade 3, 29; Miss Hazel Harrison, Grade 3, 25 and Grade 4, 14; Mrs. Edna Tapp, Grade 4, 28 and Grade 5, 9; Miss May. Langan: Grade 5, 40; Miss Wilms Stull, Grade 6, 44; Mr. George Bale, Grade 7, 43; Principal Howard Wrigglesworth, Grade 8, 37.

Mr. Skuce complimented the staff, board and caretaker for the work accomplished in teaching and in care of the building. Recommendations included that steps be taken to provide better ventilation and more natural light in the basement manual training room, and the purchase of additional supplementary reading books for each

Dr. J. B Milne, the board chairman, said that a request had been made to the town council for an additional levy of \$1650 this year to make up a deficit caused by an error in estimating teachers' salaries at the beginning of the year and to pay for two unforseen expenditures, repairing of chimneys and making sewerage connections The request had been granted.

A discussion took place on the

Here's the BIG, NEW 17 CU.FT. · Kelvinaton

It's BIG - 17 cu. ft of refrigerated space, including a spacious stainless steel evaporator for storing 30 lbs. of frozen foods and ice cubes Ruggedly built, of life. The End of the Power Cutoffs Does NOT Mean The End of the Power Shortage

All Consumers must continue their efforts to cut down on electricity

While improved water conditions resulting from recent rainfall in the right places, have enabled The Hydro-Electric Power Commission of Ontario to increase quotas to municipalities, water flow conditions are still not normal. Therefore, it is vitally important that all consumers-industrial, commercial, domestic and rural-be constantly on the alert to avoid all unnecessary use of electricity.

Your co-operation in the past has helped. Here are a few suggestions as to how you can continue to help.

- Turn off all unnecessary lights. Do not leave lights burning in empty rooms, halls, basement, attic, porch and garage.
- At the evening study or reading hours, group the family around the reading lamp and turn off other lights.
- Replace large light bulbs with smaller ones.
- Where water is electrically heated, use hot water sparingly.
- Watch the switches on your range, your iron and other appliances. Turn them off as quickly as possible. Often the stored heat will finish the jobs. Use "High" heat for as short a time as possible for cooking or for boiling water.
- Don't let motors on motor-driven equipment run needlessly in home or factory.
- In factory, store or office, don't light a row or cluster of overhead lights when a single light nearby will do.

Do your part to cut down on electricity and keep pay envelopes full.
