In the report of the euchre held by Verdun Rebekah Lodge for the CP & T Fund, it was stated that the money raised was sent to headquarters in Toronto. This was an incorrect report. The money collected locally for this fund, remains in town with the local CP & T treasurer to be used by anyone in Georgetown and vicinity needing financial help, by application through their doctor.

**MACKENZIE NEWS**

Is there anything more disagreeable than rain in the winter? After trying to keep your balance on wet and icy streets on a windy day, and hold an umbrella up at the same time, one mustn't be far off the first tests to be a parachutist.

Have you a ceiling or wall that is uneven? You can't make it look well with either paper or paint and it makes you mad every time you look at it. Gyplex texture paint is the answer to such a problem. It is easy to apply and requires only one coat. It comes in five pastel shades and white, and will stick to any solid surface—wood, metal, plaster or paper. The cost is low at about 3c per square foot. See us for further information.

See you wading through the slush.

**NEW CURLING RINK MOUNTED FOR GEORGETOWN**

There was some curling at the local rink last week, the first of the season other than the participation of individual rinks in bonspiels, though the mild weather over the weekend suspended activities again. Some of the club members are enthusiastic about talk of building a new rink which with artificial ice, would provide steady curling, during the season. The limited capacity of the present rink would not make it economical to instal artificial ice in the present location.
