What's New?
 PIERRETTE LEWIS

My hectic bout with the flu has prevented me from going down Main Street to find out what's new, so I shall have to depend mainly on what I have read these last few weeks for this column. My incursions have been much too long. Oh! to get out and do mad gay things! Such as buying a crazy new Spring chapeau, pay my bills, or buy those cute little turtle pins at Vi's Variety Shop. I'd like one of those big Easter eggs at Cordaro's, the kind that are piled high with flowers, calla lilies, roses and violets, the kind my first beau gave me many years ago, how many, I am not prepared to say. I have conveniently forgotten his name but I have not forgotten the Easter egg. It was breathtaking! I saw one like it a few weeks ago at Cordaro's and I want one, if there are any left. I want to go to Caldwell's and have a chocolate ice cream sundae with oozing with marshmallow. I just want to go to a hockey game, listen to new records at McClure's, ten to Hoydy to the Mayor, wave at the Licias, greet my old friend Mr. Martin, and drop in on Boss Man Biehn to see how well the Herald has fared without one of its columnists. Boy! Am I anxious to get out!

Madame Rubinstein announced with great fanfare (and with her tongue in her cheek) "Pure Silk Make-Up Foundation", where particles of pure silk are supposed to have been mixed in with all the other ingredients that go in the making of cosmetics. Not for me, Helena, my pet! Imagine my embarrassment, when while doing an energetic minuet on one of my rare nights out, RUNS start up my cheeks, nose and neck! You'll never get me to slap that stuff on my dermis! I've enough trouble with running mascara, and runs in my stockings without worrying about runs in my face.

Last week the newspapers carried a full page ad announcing Instant Potatoes. We can now have — for a small sum — packages of pre-cooked potatoes which can be cooked in one minute! No washing. No peeling. No mashing. Yippee! All you need is boiling water, milk and the stuff from the box and presto, mashed potatoes. This should prove of great help in many instances, especially the cottage.

Speaking of cottages, the Financial Post has a What's New column (copy cats) from which I gleaned this little item — Fiberglass row-boats! This is a one piece seamless job molded of impregnated fiberglass and supposed to be impervious to climatic conditions, leak proof, rot proof, worm proof and corrosion proof. A five seater boat weighs 95 lb. The next time I have to portage through wild Muskoka terrain, I want one of these.

I also read about an aluminum house, a three bedroom shack, highly advertised as the ideal house for the middle income class. How middling can you get? This shiny abode costs \$10,500, without land. It was not so long ago a twelve thousand dollar house could belong only to the nouveau riche class, now it's the middle class, who, on paper, according to statis-

BAPTIST CHURCH HIGHLIGHTS

The pastor used the parable that Jesus used in Matthew 21: 28-32, as the theme of his morning message. A certain man had two sons. The first son refused to obey and later repented. The second son promised to obey but did not mean what he said. The first son represented the publicans and harlots, the second son represented the Pharisees. Jesus said, the publicans and harlots would go into the kingdom of heaven ahead of the Pharisees, because they repented. The Pharisees trusted in their own self righteousness.

God calls us to go and work in His vineyard. Some refused but later repented and went. Others are promising but fail to keep their promise to God. A reward is waiting for the obedient worker. No man can do effective work for God until he has been adopted into the family of God. The test of sincerity is not in word but in deeds. God is calling us to go and work in His vineyard. Will life end in this world with only the call? God is waiting for the reply: Yes I go.

The subject for the evening worship was, The Final Victory. In Psalm 37 and verse 29 we have the words, the righteous shall inherit the land and dwell therein for ever. This is the final victory. The Christian proclaims the gospel so others can be saved. He believes in the power of God's word. The whole work of the church is to lead men and women into righteousness. The true believer in God will proclaim the gospel in some way. In fact the righteous can not help proclaiming the gospel, because the law of God is written in his heart. At conversion we accept Christ as our Saviour, because we believe in God's love revealed in Christ. If the law of God is not in our hearts, we have

not the determination for the things of God. We may be in favour and have inclinations toward Christ, but this is not having the law of God written in our heart. Law rule. Representatives from several Baptist Churches met in the Georgetown Baptist church for a conference on Junior work, last Friday evening. Miss Ruth Johnson, from Toronto was the special speaker.

PRE-TEEN NEWS

Hi, kids, your reporter, Jacqueline Graham, coming in for a chat about our party of March 28th for Group 1. The fun started off with musical chairs, with the lucky guy, Bill Gibbs. Then we played swat tag — and we do mean swat. The gang yelled for a bingo dance Marie Armstrong and Bob Webster started us off. Statue dance was won by Sue Crabtree and Marilyn Clave. Ann Hyde and Bob Casely were caught under the chandelier. Fun galore was had in the next two games of maze tag and wink. Johnny Farmer did a good job of getting the crowd off the floor in the elimination dance, with the exception of Maxine McDougall and Bob Freestone. During the jive session, the judges chose Bev Hyde, Marlene Rau, Glenna Doherty and Donna Timbers as the four best.

Early in the evening, all but three of the boys had to push pop bottle tops across the floor with their noses, for refusing to dance. Later others paid the penalty for the same offence, only these boys had to walk around the room with a

CARLING'S CONSERVATION CORNER

YES, PROFESSOR, THE LAKE TROUT FISHING HAS ALWAYS BEEN GOOD, HERE—AND I THINK IT WOULD BE EVEN BETTER IF WE HAD LESS OF THAT GREEN SCUM IN THE WATER.

ON THE CONTRARY, MY FRIEND, THAT SCUM, OR ALGAE, IS THE FOOD ON WHICH ANIMAL PLANKTON FEEDS—TAKE A LOOK AT THESE TWO PLATES AND YOU'LL SEE HOW IMPORTANT IT IS TO OUR GAME AND COMMERCIAL FISH.

THIS IS GREEN ALGAE MAGNIFIED 250 TIMES

THESE HERRING AND SMALLER FISHES THRIVE WHERE THEIR FOOD PLANKTON IS IN GOOD SUPPLY

THE LAKE TROUT, A MOST DESIRABLE FISH, IN TURN DEPENDS ON THE HERRING TO MAKE UP THE GREATER PART OF ITS DIET

WELL, SIRRE, IT MEANS ALL WHAT GOES ON IN THE WATER, EH?

YES—AND AS LONG AS THE LAKE REMAINS AS IT IS NOW, FREE FROM POLLUTION, YOU'LL HAVE PLENTY OF THE PLANKTON WHICH PRODUCES GOOD FISH AND GOOD FISHING

From the green scum of algae to the full-grown lake trout there is a complex food chain which can exist only so long as water remains unpolluted and free of silt. By keeping water pure and by observing the catch limits you can help keep nature in balance, and assure an everlasting supply of game and commercial fish.
