CANADA PRODUCES GOLD FOR ALL THE WORLD

Canada, world's second largest producer of gold, exports more than ninety-five percent of her product—an important contribution to the world supply of this universal medium of international exchange.

Why Seagram's sells Canada first

This is an adaptation of one of a series of advertisements which, for the past two years, The House of Seagram has published in magazines and newspapers printed in many languages and countries throughout the world. These advertisements feature various Canadian products—lumber, salmon, furs, nickel, apples, plywood and many others.

Nature has endowed our country with an almost limitless supply of valuable resources. Properly used and converted to manufactured goods, these resources can carry our nation to unprecedented greatness. But first, the peoples of other lands must learn of the prestige and quality of Canadian products.

One out of every three dollars we Canadians earn comes to us as a result of foreign trade. This campaign is designed to help all Canadian industries and, consequently, to help put money in the pockets of every Canadian citizen.

The House of Seagram believes that it is in the interest of every Canadian manufacturer to help the sale of all Canadian products in foreign markets. It is in this spirit that these advertisements are being produced and published throughout the world.

The House of Seagram

THIS SCENE from M-G-M's "The Search" shows wandering boys in post-war Germany under the care of an American field organization. Unable to realize that they are now with friends, they rise to show that they are not hiding any food.
