

John Garfield and Pat O'Brien co-star in "Flowing Gold", part of a double feature playing at the Roxy next week.

Better Seeds for Better Crops

To ensure bigger crops for a hungry world, the United Nations Food and Agriculture Organization (FAO) is now sending hybrid seed corn to 19 countries in Europe and the Near East. In Italy, for example, hybrid corn gives up to 50 percent better yields than older types. Here members of FAO's agricultural division pass hybrid seed for other countries suffering from food shortages.

Rehabilitation of Amputees Aided by U.N.

Philippine amputees learn to use their new artificial limb by working in the garden of their hospital. This occupational therapy program was designed with the help of a United Nations consultant, who served in the Philippines under the United Nations international social service program, which is being expanded during 1949.
