Glen Williams  
10:30 a.m. — Sunday School  
7:00 p.m. — Public Worship

### More Telephone Workers... AND HIGHER WAGES HAVE GREATLY INCREASED OUR COSTS

In the past five years the number of employees has doubled and our payroll has gone up from 20 million dollars to over 50 million dollars. Yet, up to now, despite rising costs on all sides there has been no increase in the basic telephone rates established 22 years ago.

To meet unprecedented post-war demand for more telephones, our expansion and improvement of service have of necessity taken place in a period of rapidly rising costs. Most businesses have offset their higher costs by higher prices for their products. We have not yet done so.

You can be sure we will keep on doing our best to provide you with adequate and constantly improving telephone service — and to provide it at the lowest rates consistent with a fair return to our investors and employees.

THE BELL TELEPHONE COMPANY OF CANADA

10 a.m. — Our Birthright  
11 a.m. — Sunday School  
7 p.m. — Service withdrawn  
If you have no church home, worship with us

The Canadian Fisher, sometimes called the Pennant or the Black Cat, is a fur-bearing member of the weasel family, and is the largest of the North American Martens. For its size it is the swiftest and most deadly of our fur-bearers.

TODAY WE LIVE IN A GREATER CANADA

### New Signs in the Sky...

A distant hum and a flashing streak in the outer sky announce another exciting Canadian achievement—a new jet plane designed and built by Canadians—one more example of the meteoric advances made by Canadian skills and manufacturing abilities.

In Canada, too, giant airliners, which have won international recognition, are now being built for the world's air routes of today and tomorrow.

Today our production—both in extent and variety—has attained heights undreamt of even ten years ago, creating new opportunities in every field of activity for the talents and enterprise of young Canadians.

Increase of air traffic: today Canada's commercial aircraft carry more than four times the number of passengers and three times the amount of mail they did in 1939.

One of a series presented by

## Molson's

To promote a fuller realization by Canadians of Canada's present greatness

### "Countless New Opportunities..."

"I sometimes find it hard to realize the extent and rapidity of our plant's growth. It has all been based, of course, upon the tremendous expansion of the Canadian industry in general, which has created countless new opportunities in every field of activity for the energy and enthusiasm of young Canadians."

Harry J. Sehl, of Kitchener.  
The development of Sehl Engineering is a typical Canadian success story. Only 14 years ago, Mr. Sehl, with one assistant, began operating a small tool and die shop in Kitchener. Its expansion has been spectacular, with new lines of production added, new departments established and new plants built. Today the company, with 90 employees, is fast becoming one of the leading metal producing concerns in the country.
