C.P.A. STARTS AUSTRALIAN SERVICE: The traditional Hawaiian "aloha" greets passengers at Honolulu on Canadian Pacific Air Lines' new Empress route to Australia. In lower picture above, the Empress of Sydney rests in front of the Aloha control tower at Honolulu Airport during 30-hour stop which gives passengers an opportunity for rest and sightseeing in beautiful Hawaii. The idea of the CPA Australian service is to travel by day and sleep by night on the 8,000 mile route, and other pictures

above show how this is done. Upper left, Stewardesses Pamela Hookham of Sydney, Australia, and Helen McCracken of Vancouver, pause in their slight-seeing during overnight stop at Fiji to chat with a native at Nadi Airport. Centre left, some 20,000 feet above the broad Pacific, passengers enjoy full course meal, with W. J. Turnbull, Canada's Deputy Postmaster General, choosing a filet mignon, while Grant McConachie, president of CPA, looks on. Seated across the table from them are Senator

Gray Turgeon, Vancouver, and Air-Vice Marshal A. T. N. Cowley, Director of Air Services, Department of Transport. Upper right, passengers on the first flight are entertained by R. R. E. Dale, Acting Canadian Trade Commissioner, Sydney, and Mrs. Dale. Shown with Mr. and Mrs. Dale in this picture are Mr. McConachie (left) and Senator James A. MacKinnon (seated), former Canadian Minister of Trade and Commerce.

LEUKEMIA FATAL TO OAKVILLE YOUNG MAN

A talented singer who had won several awards in Halton music festivals, thirteen-year-old Richard Boyd of Oakville died in the Hos-

pital for Sick Children, Toronto, of Leukemia. He was the only son of Mr. and Mrs. Donald Boyd and was a student at Oakville Central School. Bungalow houses originated in India.

Smoke, Smoke, smoke that germ to death. That used to be the rule in cleaning sick-rooms twenty-five years ago, when the fumes of the sulphur candle were used. But now it is done by a systematic laundering of all sickroom material.

INSTANT HEAT AT THE TOUCH OF A SWITCH!

You can have it with Esotane . . . and it's Economical!
GET THE FACTS!

ESOTANE GIVES YOU MAXIMUM HEAT the moment the burner is turned on. No fussing with slow heating elements—no shaking and poking up fires—no troublesome priming or refueling. It gives more heat faster than any other kind of fuel.

AT THE TOUCH OF A SWITCH your stove is ready—either for top-of-stove cooking or oven baking—ready to give you perfect results. You can choose your stove from many different makes and types.

Be free forever from all the drudgery of cooking the old-fashioned way.

Begin right now to enjoy the pleasure and convenience of switching on a gleaming white gas range and getting instant heat the moment you need it—and the exact amount you need.

No more smoke and fumes to soil walls and ceilings and blacken your pots and pans.

Never again the problems of fuel supplies and a fire that is never 'just right' when you want to bake a cake or cook a roast.

The convenience of Esotane is only half the story. You'd never believe how economically you can enjoy the advantages of gas cooking.

Instead of a fire that wastes heat most of the day, you switch on a clean, smokeless, odorless flame only when it is actually needed.

Expensive supplies of kindling and coal or

wood are no longer required for the kitchen. You need never spoil a cake through having too hot or too cool an oven. With Esotane you select the right oven temperature you require.

Esotane gas is safe and is stored outside your home in steel cylinders. It travels into your kitchen through a thin copper tube.

Imperial Oil men change the cylinders at intervals to make sure you always have an adequate supply of gas.

The ranges themselves cost as little as \$99.50 and can be installed for as low as \$9.95 down with the balance in small monthly payments.

Mail the coupon below and get the facts and figures on Esotane cooking for your kitchen. Send it now because every day you wait is another day you might have enjoyed more fully with quick, clean Esotane cooking.
