WHEATLAND DAY HELD NEAR LANGSTAFFE

Ontario's first Wheatland Day, held on Gordon Lettich's Lettichroft Farm near Langstaffe on July 27th was a field day for the farmers, for the children and for the province's farm implement dealers.

The big show, sponsored by York County Crop Improvement Association, attracted some 3500 farmers. During the day they had a chance to compare different varieties of wheat, including Dawson's Golden Chaff and Cornell 595, the comparatively new wheat which has taken Ontario by storm in the past two or three years. And they had opportunity to compare the harvesting methods of half a dozen implement firms.

With large tents flanking the temporary main street between the two fields adjoining No. 7 highway, scores of units of power equipment lined up on display, upwards of a thousand cars parked in orderly fashion and people everywhere, this proved to be the largest agricultural field day ever staged in York County. As many remarked it looked like a real life sized county fair.

During the morning power spraying equipment was demonstrated before the rush for lunch at the three large refreshment booths. At one o'clock Clark Young, of Milliken, Chairman of the Wheatland Committee called the gathering to order and all machinery demonstrations completed by closing down for the hour of addresses. Mr. Gordon C. Lettich, owner of Lettichroft Farm welcomed the visitors. He explained the early history of the farm and the various crops raised there. He also mentioned the fact that the farm had been in the hands of the Lettich family since 1840. He then spoke of the various crops raised there and the fact that the farm had been in the hands of the Lettich family since 1840. He then spoke of the various crops raised there and the fact that the farm had been in the hands of the Lettich family since 1840.

State who developed the Cornell variety which was brought into Ontario in 1946. At that time through the York County Crop Improvement Association 27 growers in the county secured seed for 5 acres each in the 50 Bushel Wheat Club. Dr. Love spoke on the excellent relationship between Canada and U.S.A. and the various universities.

Chairman Young then introduced several prominent visitors as well as the president of the association, Clifford Wallwork, who incidentally had been featured that day on a farm broadcast on potato growing. A. H. Muttin, Director of the Ontario Crops Branch, complimented the local association and announced the Mammoth Conservation Day at Brooklin on September 8th. Professor J. R. Scott of the Agricultural Engineering Department of the O.A.C. then introduced each of the seven makes of combines which in turn took the bow by rolling forward to the edge of the wheat field. On a prearranged signal all combines in unison attacked their respective allotments of wheat directly opposite their machinery displays. At three o'clock folks turned their sunburned faces to the blistering sky with a smile as an aerial photographer zoomed overhead.

Throughout the afternoon and up to six o'clock rubber tired hay wagons drawn by various makes of light tractors transported the visitors on a sight-seeing tour of Lettichroft to see their Ayrshires, Yorkshires, Doves, mink, turkeys and poultry. Everyone commented on the excellent arrangements made by the committee consisting of: Chairman, Clark Young; W. M. Cookburn, Secretary, Newmarket; D. D. Leather, manager of Lettichroft; and John McIvor, Master of the club. Clifford Wallwork, president of the O.A.C. Macklin, president of the York County Agricultural Society, and W. H. Waddell of the Ontario Agricultural College.

Barrie, took along the North York club of Australia had a special display in the hall. The club of New York

A Squeaky Car Wastes Money

If you're annoyed by squeaks and rattles and strange grinding noises, it's time you drove in for our expert lubrication service, done by factory-trained service mechanics.

MRS. CHESTER COLE IS BURIED HERE

A former resident of Georgetown, Mrs. Chester Cole died at the Mercy Hospital, Toronto, after an illness of several years. She was the former Barbara Ellen (Nellie) Sutherland, daughter of the late George Sutherland and was born 61 years ago in Emsdale, Ont. She was married to Chester Cole in 1904 and they lived in Toronto until the house on North Street was occupied by Mr. and Mrs. Andrew Brown in 1920. She died on Saturday, July 27, 1943, at the age of 72 years. She is survived by her husband, Mr. Chester Cole, of Toronto, and a son, Lloyd, of Toronto. She also leaves three sisters and three brothers, Mrs. Thomas Dobbin (Jen) of Georgetown, Mrs. Mac Given (Ma) of Delisle, Sask., Mrs. Frank Irwin (Ethel) of Toronto, Angus Sutherland of Tisdale, Sask., Dan Sutherland of Emsdale, and Jim Nolan.

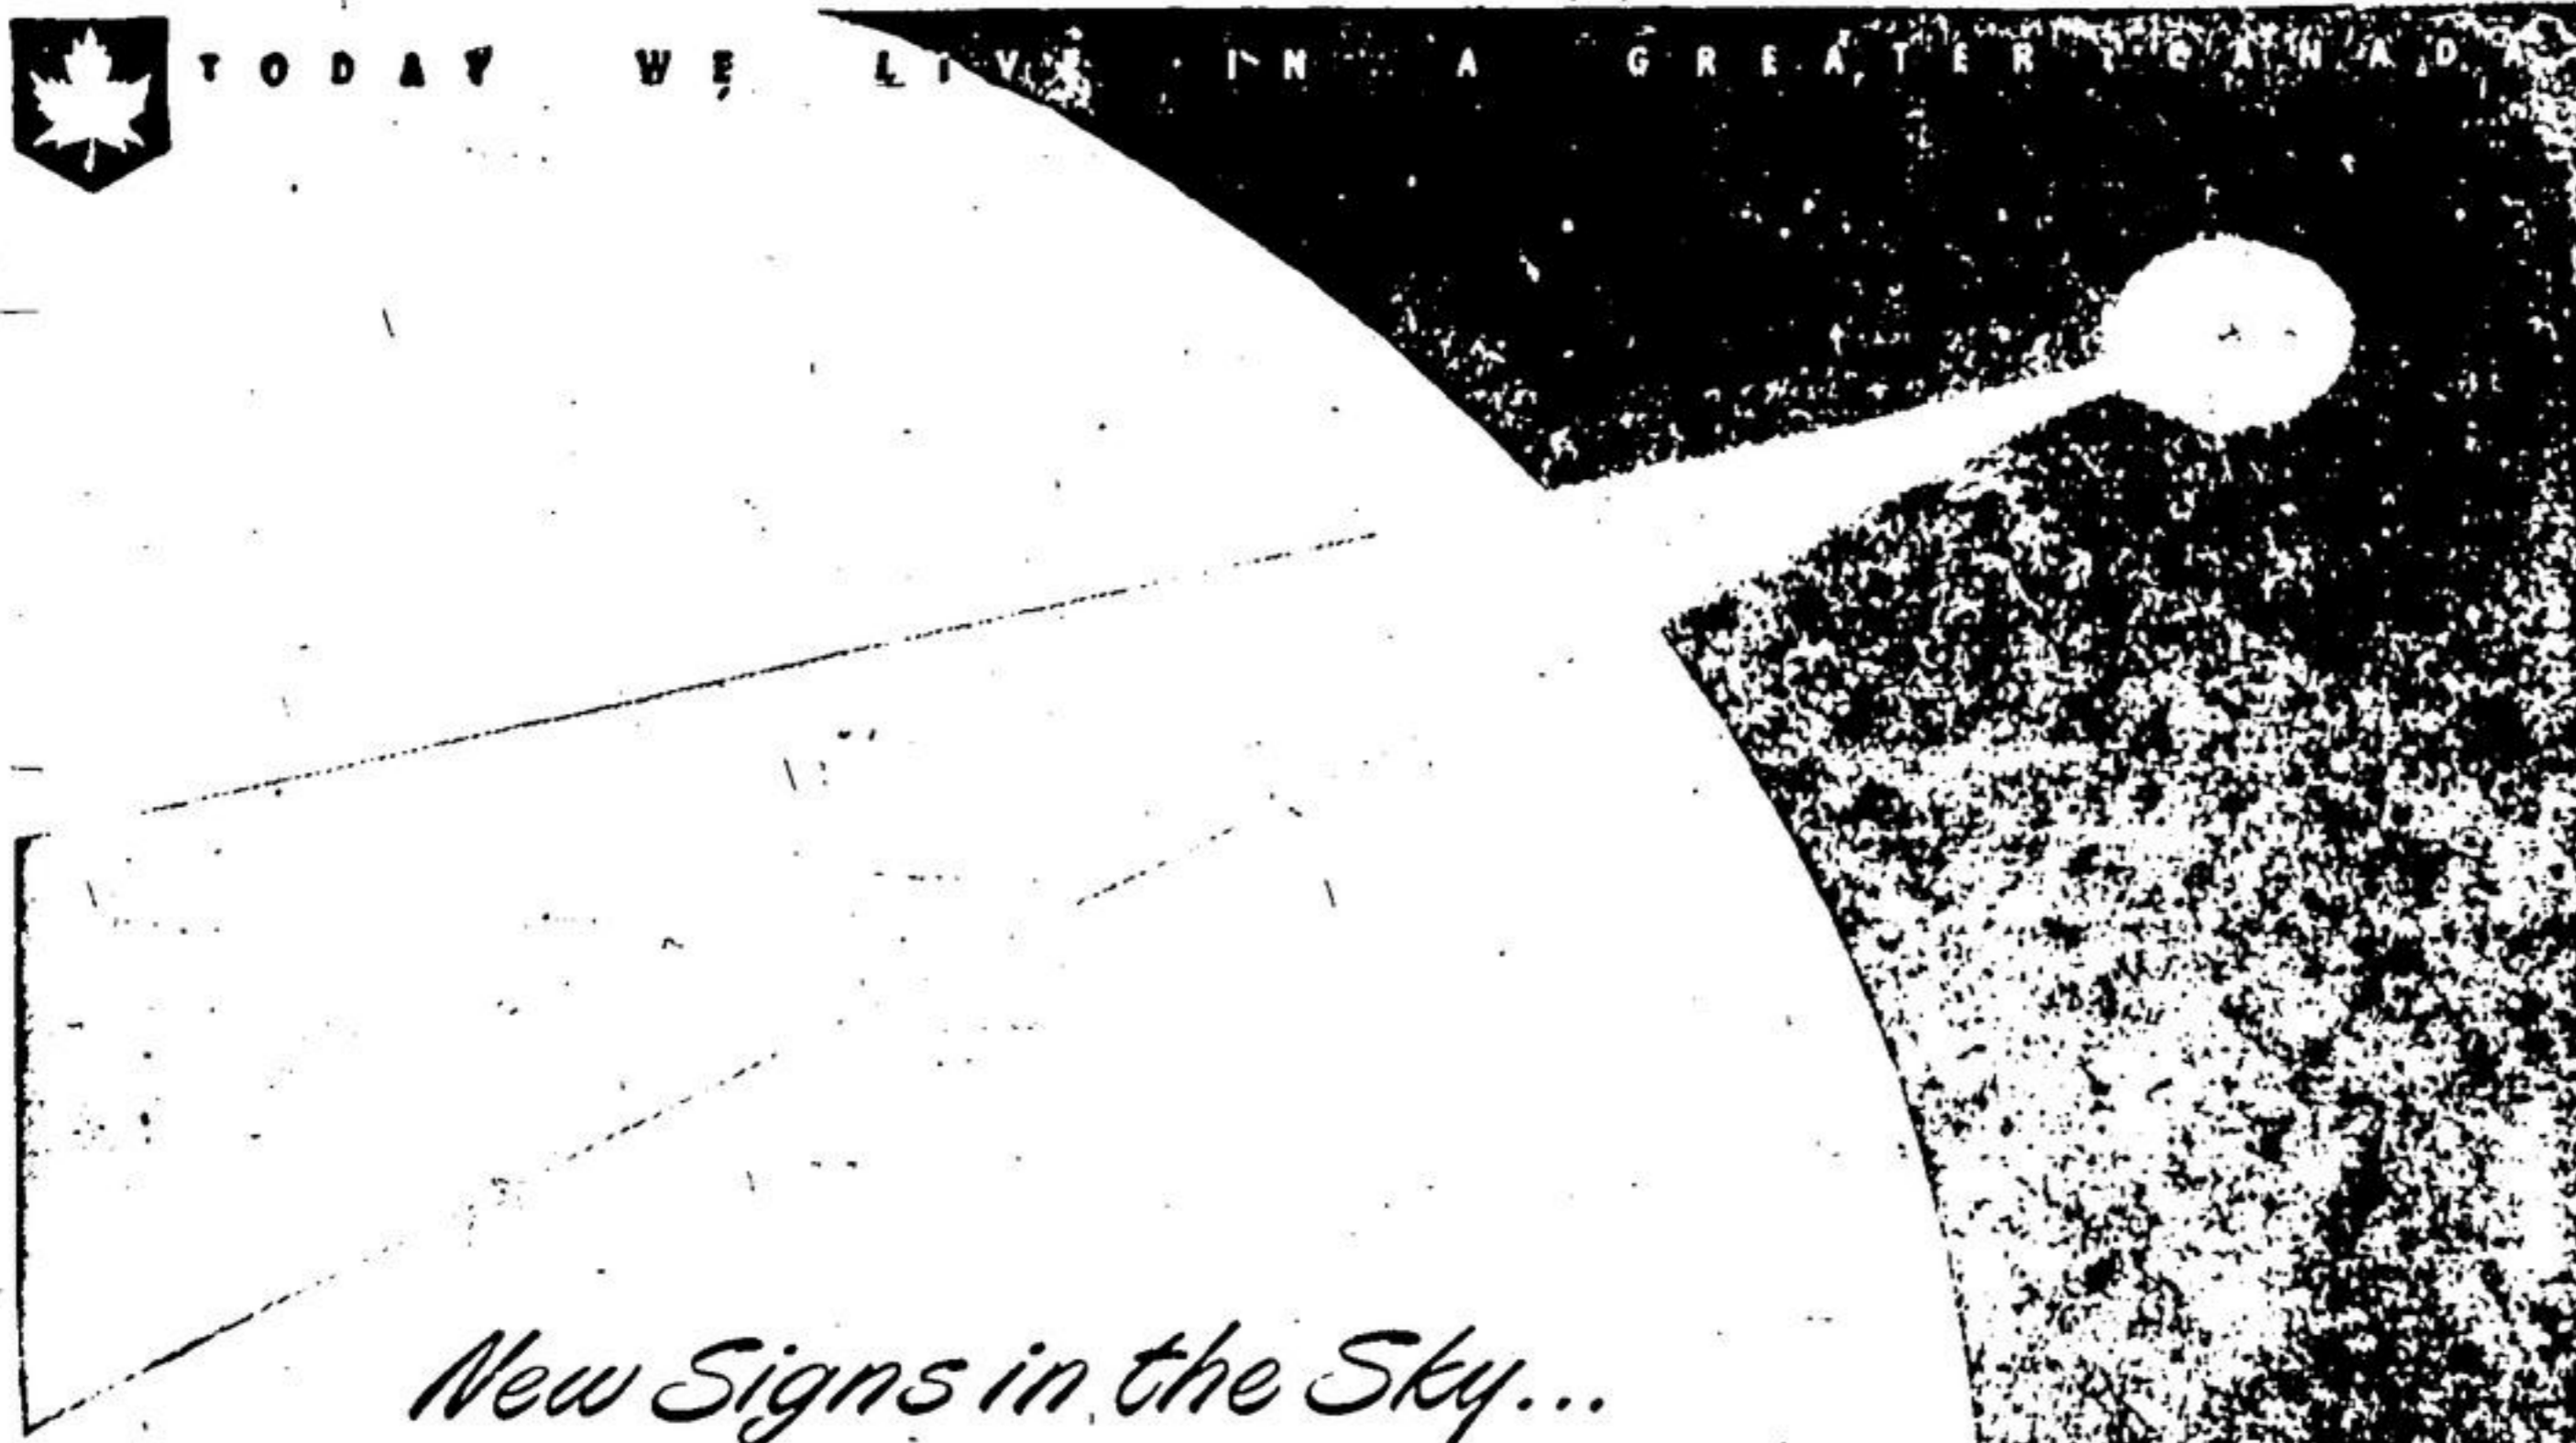

A funeral service was held in Toronto on Saturday, July 30th, followed by a service later in the afternoon in St. George's Church here, conducted by Archdeacon W. G. O. Thompson. Pallbearers were Thomas Dobbin, Jim Dobbin, Everett Cole, Robert Egan, Fred Egan and Alex Keen. Interment was made in Greenwood Cemetery, Georgetown.

LIMEHOUSE

Recent visitors include: Mr. and Mrs. Jas. Newton of Sarnia with Mrs. John Newton. Mrs. Thompson of Laurel with Mr. and Mrs. Russ Thompson. Dr. and Mrs. Veitch of Toronto with Rev. and Mrs. Davidson. Mrs. George Bonner and Mr. and Mrs. Dave Bonner and children of Toronto with the Jas. Nobles. Mr. Glynn of Sarnia and Jimmie Glynn with the Glynn. Mr. and Mrs. Wesley Lane of Toronto with Mrs. R. Lane and the H. Nobles. Mr. Alex Wright and Mr. Stewart Lawson with the Wrights. Mr. and Mrs. Wm. Cummings of Point Pleasant, N.Y., were visitors with Mr. and Mrs. Jas. Noble a week ago.

We extend sympathy to the D. B. McLaughlins and especially Mrs. Robert McLaughlin in the sudden death of Robert McLaughlin. Mr. Jas. Noble is under the doctor's care at present with a bad case of shingles. We hope for his speedy recovery. Rev. John M. Smith of Georgetown United Church preached at Limehouse on Sunday and will again on August 21, there being no services the other two Sundays.

Noah's Ark was built of gopher wood. Cellophane was first made in Germany and France. Colgate Clock in New York harbor, with an illuminated dial 38 feet in diameter is the largest clock in the world. Rats have caused more deaths in any other animal.

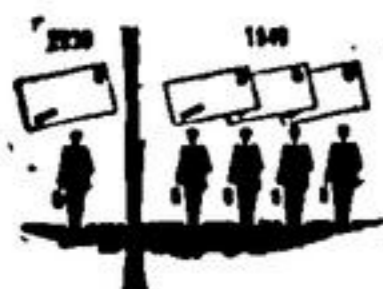

New Signs in the Sky...

A distant hum and a flashing streak in the outer sky announce another exciting Canadian achievement—a new jet plane designed and built by Canadians—one more example of the meteoric advances made by Canadian skills and manufacturing abilities.

In Canada, too, giant airliners, which have won international recognition, are now being built for the world's air routes of today and tomorrow.

Today our production—both in extent and variety—has attained heights undreamt of even ten years ago, creating new opportunities in every field of activity for the talents and enterprise of young Canadians.

Increase of air traffic: today Canada's commercial aircraft carry more than four times the number of passengers and three times the amount of mail they did in 1939.

One of a series presented by

Molson's

to promote a fuller realization by Canadians of Canada's present greatness

"Countless New Opportunities..."

"I sometimes find it hard to realize the extent and rapidity of our plant's growth. It has all been based, of course, upon the tremendous expansion of Canadian industry in general, which has created countless new opportunities in every field of activity for the energy and enthusiasm of young Canadians." —says HARRY J. SEHL, Manager, Kitchener.

The development of Sehl Engineering is a typical Canadian success story. Only 14 years ago, Mr. Sehl, with one assistant, began operating a small tool and die shop in Kitchener. Its expansion has been spectacular, with new lines of production added, new departments established and new plants built. Today the company, with 90 employees, is fast becoming one of the leading metal producing concerns in the country.

You are Worthy of Our Best

This Bank we call ours is really yours. We say yours because it was built for your use—a safe and profitable place in which to deposit your money—a thoroughly dependable and efficient establishment in which to transact all your banking business.

You can enter this Bank with assurance. It is conducted on the basis of personal service, and of mutual confidence, understanding and co-operation.

We seek not only new accounts, but the opportunity to prove that this institution has a genuine interest in every customer whatever his station in life.
