Lumber

Coal

Just by way of taking your mind off the heat, have you your fuel in for the winter?

As you will have read in the press there has been much less coal brought into Canada this year up-to-date, than for many years. Georgetown householders have put in much more coal than the average, but you can still be caught in the winter shortage. Why not put in at least one or two tons this month, and save money, get quality coal and peace of mind?

See you reclining under a large tree.

Rev. John M. Smith, Minister

Miss Lynda Stewart, Organist
