FEDERAL GRANT TO HALTON COUNTY HEALTH UNIT

Dental ill health is one of our major public health problems today. It is the most commonly found defect among school children. It was the most common cause for rejection of applicants for enlistment to the armed forces during the recent war. In a survey sponsored by the Red Cross in the schools of Oakville last year over 50 per cent of the children needed dental attention.

The Federal Government has realized that this is a problem that needs close study and, by means of the new grants for public health, has made financial aid available. Certain selected counties have been chosen as demonstration areas. Two such areas have been organized in Ontario — St. Catharines-Lincoln Health Unit and Halton County Health Unit.

The Federal Government has made funds available to these areas so that an intensive study can be made into the problem of dental ill health. All costs of this study are to be borne by the Federal Government and all equipment and personnel are provided without cost to the local resident.

In Halton County this study will be headed by Dr. Brian J. O'Meara. Dr. O'Meara is a graduate of the Universities of Birmingham and Toronto in dentistry and of the School of Hygiene, University of Toronto, in public health. He served with the Royal Navy during the war, spent a year in China with UNRRA and was with the Canadian Red Cross Society in Northern Ontario. He will be assisted by a dental nurse.

Dr. O'Meara will use a trailer completely equipped for dental examination. He plans to go to each school in the county and a complete dental examination will be offered to each school child. Through the Child Health Centres in the various towns an examination of older pre-school children will be done. Each parent will receive a report of the dental condition of the child.

This is not a treatment service. It is entirely preventive in nature. By routine examination and by education it is hoped that dental conditions will be noted at an age when they can still be controlled.

Halton County is unique in that in nearly all the rural schools free dental treatment through the family dentist is provided by the school boards. This is not the case in the towns. Thus, there will be a basis of comparison of results.

This project has the endorsement of organized dentistry at county, provincial, and dominion levels.

It is anticipated that these studies will be carried on for a period of years. From these and similar studies may come information which may help us to solve the problem of dental ill health.

CHURCH NEWS

Baptist Church
Rev. Chas. R. Gower, Minister
Harvest Home Services, 10 a.m. and 7 p.m.
11:00 a.m. — Sunday School
8 p.m. — Monday BYPL

"Why accept anything less than the most Beautiful BUY of all?"

Stand by for a Chevrolet and get the most for your money

It's your money you're spending, and you're entitled to get the most motor car, in return. All Canada says that means Chevrolet—the most beautiful buy of all—and the car that gives EXTRA VALUES in every phase and feature of motoring. It brings you fine-car advantage after fine-car advantage, from Fisher Body Styling and Valve-in-Head performance to Centre-Point steering ease and the greater riding comfort of the longest, heaviest car in its field. And offers these advantages at the lowest priced. So, why accept anything less than the most beautiful buy of all? ... Invest in a Chevrolet and get the most for your money!

Insist on getting these EXTRA VALUES exclusive to Chevrolet in its field!

WORLD'S CHAMPION VALVE-IN-HEAD ENGINE
the extra efficient power plant that's setting the trend for the industry.

FISHER BODY STYLING AND LUXURY
found elsewhere only on higher priced cars

CENTRE-POINT STEERING
giving maximum steering ease with minimum driver-fatigue or "car-wander" and found elsewhere only on costlier cars.

CERTI-SAFE HYDRAULIC BRAKES
(with Dual-Life Rivalless Brake Linings)
ensuring swifter, safer stops for you and your family.

FISHER UNISTEEL BODY CONSTRUCTION
with steel welded to steel all around you for maximum solidity, quietness and safety.

CURVED WINDSHIELD with PANORAMIC VISIBILITY
supplying that extra vision which means extra safety, exclusive to Chevrolet in its field.

LONGEST, HEAVIEST CAR IN ITS FIELD
with WIDEST TREAD, as well giving more room, more riding-comfort, more road-steadiness and safety.

5-INCH WIDE-BASE WHEELS
(with Extra Low-Pressure Tires) the widest rims in the entire low-price field, providing greater ride-stability.

EXTRA ECONOMICAL TO OWN—OPERATE—MAINTAIN
and bringing you more when you trade for Chevrolets are most wanted — new or used!

NEVER BEFORE
have farm implement prices been so low in comparison with prices of other supplies the farmer buys

On the average, supplies which farmers must buy to carry on their business, have gone up 70% in price since 1911. In the same period, Massey-Harris prices for Canadian-made farm implements have gone up only 43.9% ... not much more than half the average rise. Massey-Harris has held down its prices in the face of a 92.6% increase in cost of raw materials, and an increase of 87% in the average hourly wage rate to its employees. Demand has been keen in all parts of the world, and Massey-Harris factories have been working at top capacity. High volume has spread the overhead costs over more machines, and enabled the Company to absorb part of the increased cost of material and labor.
