MACKENZIE NEWS

Just a little time and you will see the new Hotel McGibbon behind all that boarding. The ladies of the town and district are going to miss their good location for their lake sales.

A good job for the winter would be to improve your present cupboard by the addition of a new alabaster counter top. We have several attractive shades on hand and it is the easiest surface to keep. You might put Duratite in black and white baked enamel finish on your kitchen at 40c per square foot or Masonite temp-tile to enamel yourself at 15c per square foot.

See you at the Hockey game.
