THE MIXING BOWL

Easter, which this year falls on April 9, is what the churches call a "movable feast."

Since March 21 is the first day of Spring, we associate Easter with fresh, colorful, new things.

Vegetable garnishes enhance taste appeal and also add a touch of colour to nearly every food.

TAKE A TIP 1. Roast Beef - Oven browned potatoes, asparagus with pimiento strips.

2. Roast Lamb - Carrots rolled in finely chopped mint, mashed potato nests filled with spoonfuls of peas.

3. Roast pork - Sheet sweet potatoes of baked oranges slices, buttered cabbage sprinkled with grated carrot.

4. Broiled Fish - Covered with lemon juice and watercress, mashed potatoes and scalloped tomatoes with minced onion tops.

Communicable Disease Control

press release from Halton Health Unit In certain areas of the county, there have been local outbreaks of some of the milder communicable diseases of childhood.

Up to the week ending March 11, 113 cases of measles had been reported during 1950 in the county. 38 in January, 64 in February and 11 in March. Acton reported 87 of these cases.

In the week ending March 18th, German measles and measles have shown a sharp upswing in the Oakville - Trafalgar area. Oakville reports 35 cases of German measles and 7 of measles.

These figures are, at best, only approximate. They are based on reports by physicians, public health nurses, and by other authorities.

It is suggested that parents should be alert to signs of illness in their children. If they observe any of the following symptoms, they should consult their physician.

Table with 3 columns: Year, German Measles, Measles. 1948: 2, 25; 1949: 3, 9; 1950: 40, 17.

The child with these diseases is required to stay home for varying periods by Provincial regulations: Chickenpox, until skin is clear; German Measles, 6 days from appearance of rash; Measles (red) 7 days from appearance of rash; Mumps, 16 days from onset of swelling.

Skinny men, women gain 5, 10, 15 lbs.
