**MISS ELMA STRINGER**, of the Smith & Stone Ltd. office staff, left last Thursday, to take a new position in Toronto, at the Bay Street office of the Beatty Cadillac Company. Miss Stringer has been staying with Mrs. W. D. Johnston, Charles Street.

To spend a three week vacation on Long Island, N.Y., with her uncle and aunt, Mr. and Mrs. George Keen, Miss Doris Keen, of the Bell Telephone Office left by plane from Malton, on Saturday.

The marriage date for Mrs. Vince Jones, accountant at the Royal Bank and his fiancée from New Luskard, has been set for May 6th. They will live in a Berwick Hall apartment. Since coming to town, Mr. Jones has been making his home with Mr. and Mrs. A. G. M. Bruyns on Charles Street. You may recall it was only last year Mr. Bruyns complained to us that every young man who came to stay with them became engaged and married within a short time. If we remember correctly, Mr. Jones will be the fifth bachelor to take the leap into matrimony from the Bruyns' house.

Cunningham's apartment on Chapel Street. The Lawrs formerly had an apartment in Berwick Hall.

Remember last week we were wondering about our snowdrops and crocus bulbs? Well, they're actually up! But we'll keep our fingers crossed till we see those blooms.

Mrs. Ted Darlington tells us, the flood was quite bad down their way, out by the Beauregard Farm, on the 8th Line. Also mentioned that her son Peter, had seen quite an unusual and beautiful sight one afternoon recently, near the Girls' School. A doe and two little fawns standing in the field.

## PUBLIC SCHOOL NEWS

On the springlike morning of March 30, some of the school children expressed their ideas in verse. Some of the verses follow:

Spring time is here again,  
And Easter's drawing near,  
Easter time brings joy and gladness,  
Happiness and cheer.

— Briah Goodlet

The grass grows high,  
The breezes sigh,  
From grey to blue now turns the sky,  
While in the sky the sun rolls round,  
And beats its rays on the softening ground.

— Terry Harley

When the daffodils are blooming,  
And the frozen soil is bare,  
When frogs have started croaking,  
Then you know spring's in the air.

— Ross McGilvray

Easter time is bright and sunny,  
The bees will soon be making honey,  
And down the lane comes Easter Bunny.

To make us Easter things so funny,  
— Jack Livingstone

I am so glad that spring is here,  
And winter is so far away,  
The cloudless sky is blue and clear,  
The time when children love to play.

— William Vivian

The birds take wing,  
And in the spring  
Even the flowers seem to sing,  
A joyous song, that's full of cheer;  
They seem to chime out,  
"Spring is here!"

— Terry Harley

The animals which were asleep,  
Awake, and from their dens they peep,  
And robin, finch, and bluebird cheep,  
The sun shines so that rivers flow,  
And the fisherman's heart is all aglow!

— Terry Harley

I couldn't stay in bed today,  
I wanted to run and jump and play,  
Easter time is on its way,  
Oh, happy is the Easter Day.

— Jack Livingstone

The Eager Beavers Branch of the Junior Red Cross held their regular meeting recently. A penny sale which netted \$2.62, was the highlight of the programme.

Films shown to the senior pupils last week include a topographical picture of Brazil, and a film depicting Eskimo Summer. The junior grades saw "Ten Little Farmers" and "The Policeman."

The shield for best attendance during the month of March went to the class of Miss Mildred Eason, with a percentage of 93.28 and 1 late. Grade Seven, Mrs. Evans' class was in second place with 92.97 percentage with 2 lates.

**U.N. Mission Inspect African Colonies**

Members of a United Nations Visiting Mission to West Africa set out to inspect conditions in a plantation labor camp in the British-administered Cameroons in West Africa. U.N. new exercises overall supervision over the administration of 11 colonial territories which have been placed under the U.N. Trusteeship System.

**World Plant Catalogue in the Making**

Plant Catalogue is being developed by the United Nations (U.N.) at Washington. The Catalogue, set up by the United Nations, is a world-wide project to develop a world catalogue of plants, animals, and minerals. It is a project of the United Nations, and is being developed by the United Nations at Washington. The Catalogue, set up by the United Nations, is a world-wide project to develop a world catalogue of plants, animals, and minerals. It is a project of the United Nations, and is being developed by the United Nations at Washington.

**WHILE TALKING** to Mr. Bruyns, there was a little favour we asked of him, which he willingly did for us. We had heard of the Dutch family recently arrived in town and living in the house owned by Mr. W. F. Bradley formerly occupied by Mr. and Mrs. Bill McDonald, on Main Street South. Since Mr. Bruyns could explain better than we, just what we wished the information for, he called on our new citizens so that we could pass on the particulars to you. Incidentally, Mr. Bruyns' first wife, the Dutch family coincided with the arrival of their new son, Mr. and Mrs. Doede De Wit are natives of Friesland, Holland. This particular part of Holland is a little different from the rest of the country, just about the way in which Scotland is different from England. Friesland is the cradle of the well-known Holstein Friesian breed of cattle, and the majority of its people are farmer-folk, specializing of course, in cattle. The DeWit family comprises three teen-age boys, one employed at Clay Products Ltd. one at Lincoln Auto Body, and the other on a farm; two teen-age girls; two Public School boys and the new baby boy. Mr. De Wit is working at the Dominion Seed House. Mr. and Mrs. De Wit and family are most enthusiastic about Canada and about Georgetown in particular. They intend to make our town their new home, and we welcome them very cordially.

**WELCOMING A NEW neighbour** to McNab Street, was the purpose of an afternoon tea held last week by Mrs. Fred Armstrong, at which the ladies in the immediate neighbourhood met Mrs. Penrice who recently moved into the house on McNab Street formerly occupied by Mr. and Mrs. James Richardson. The Penrices came to Georgetown from New Brunswick. Mr. Penrice taking the position of Superintendent at the Beaumont Knitting Mills, Glen Williams.

Passing John Street around supper-time last Friday afternoon, we noticed quite a large gathering of young girls, all with figure skates slung over their shoulders. We learned they were waiting for the bus to take them to Paris, where they were to take part in a skating carnival that evening. Excitement was running high and chatter subjects included the treat of "supper-out" provided by the Carnival sponsors in Paris, as well as the fit and details of their attractive new skating costumes. These costumes were cut out by the Women's Institute, and the parents took the responsibility of having them sewn up. Opinion seemed unanimous . . . the costumes were very smart as well as becoming. They represented "soldiers" of the Foreign Legion, with very full pleated grey satin skirts, bright red tight-fitting waistcoats with two rows of buttons down the front, and smart high peaked caps to match. We'll see them Friday night at the local Ice Revue.

**WHAT HAVOC** a flood can wreak! Never have the waters been so high as they were in Glen Williams and Norval last week. The rampaging waters caused discomfort, inconvenience and damage to all residents and buildings in their path. The Sunday School room of the Glen United Church, where Public School classes are temporarily being held, was flooded to a depth of several feet, ruining the furnace, blackboards, etc. . . . and sending the piano floating around the room on its side. Workmen at the new Glen school reported seeing a whole uprooted tree swirl by in the flood.

Mrs. Herb Bessey, Guelph St., had an unfortunate accident last week, when she missed her footing on a small step-stool, and fell against the stove, breaking her right wrist and burning her left arm.

Mr. and Mrs. Jack Lawr are very shortly moving into Mr. W. C.

Thousands of persons from all over the world are expected this year to visit the International Exposition at Port-au-Prince, Haiti, to commemorate the two hundredth anniversary of the founding of that city. The exposition features a special United Nations exhibition, dramatizing the activities of the world organization. Above is one of the U.N. pavilions under construction in the Haitian capital.

## STEWARTTOWN

Two birthdays this week! Happy Birthday to David Smith, who is to be 6 on Wednesday, and to Susan Canham who will be 8 on Saturday.

The cooler weather has been welcome to check the water. The creek was very high last week and in danger of breaking down its banks. Fortunately the dams did not give way.

Sunday was a very nice bright Easter Day. There was a good congregation at Church in the afternoon.

Visitors with Mr. and Mrs. John Standish on Sunday were Mr. and Mrs. W. Bradley and Ellen of Hornby.

The Sunday School children brought in their Lenten Boxes Easter Sunday afternoon. Rev. J. E. Maxwell was the preacher at the service of Holy Communion.

Mr. and Mrs. Russell Robinson of Toronto and Mr. Bob Auld of Detroit were Easter visitors with Mr. and Mrs. C. A. Grant.

The AYP meeting on Friday will be held at the rectory in Norval. Those wishing transportation will meet at the home of Bob Harris at 8 p.m.

## Film Strips Brings United Nations to Classrooms

Film strips are being used by teachers in classrooms to bring the United Nations to the attention of the young people. The U.N. Department of Public Information has released 25 different film strips showing the aims, structure and work of the World Organization. The strips are available in English, French, Spanish, and Chinese. Each strip is only a few minutes long and is suitable for use in the classroom. The strips are available from the U.N. Department of Public Information, 1000 United Nations Plaza, New York 17, N.Y.
