NEW TELEPHONE RATES

The Board of Transport Commissioners has ordered our first general rate increase in 23 years EFFECTIVE JULY 22, 1950

In accordance with an interim order of The Board of Transport Commissioners, telephone tates will be increased on July 22nd. These rates will apply until the Board makes a final decision on the application for higher rates that we made last October.

No one, of course, wants to pay higher prices for anything. Though our costs have been going up faster than our revenues for somertime, we delayed applying for increases until it was clearly. evident we could not continue to operate satisfactorily without higher rates.

Most things you buy and the things we buy

too, have gone up in price in recent years, and nearly all of them more than the revenue increase we asked for. The temporary rates now ordered, by the Board give its only part of the revenue we require. If we are to continue towards our goal of providing service to all who want it, when and where they want it, we must receive the balance of the increase for which we applied.

Although the cost of telephone service has finally gone up, when you think about it, the value of telephone service has gone up even more. In terms of convenience, security and friendly contacts, a telephone is worth far more than it costs!
