News and Views For Halton Farmers

"WOODYGLEN QUEEN NIG" CLASSIFIED EXCELLENT

Wilfred Thompson of Hornby has the distinction and honour of being the only Holstein breeder in Halton, to our knowledge, who bred and still owns a Holstein cow classified "Excellent" under Selective Registration. A cow to classify "excellent" must score over ninety points out of a possible 100 for type and confirmation. Geo. M. Van Patter of Aylmer, Ont., was the official grader and in the opinion of most Halton breeders "he is plenty tough" when it comes to grading. Woodyglen Queen Nig is the cow and she will be eleven years old in October, which makes the achievement all the more noteworthy. Her sire is Walhill Ruben Nig bred by Wm. McCaugherty of Streetsville. He in turn was sired by the noted Spring Farm Nig Palmyra, a son of the great world record cow, Bruch Nig, who as we recall was bred by the late Lorne Davidson of Meadowvale, then purchased as a heifer and developed by J. M. Fraser of Streetsville, and later sold by him at one of the National Holstein Sales in the early 30's for what was then considered a record price of some \$600.00. Late in the U.S., under the name of Calamity Nig she made that great world record of something over 30,000 lbs. milk. While we are at it perhaps we should add that she was by that noted sire King Tortilla Acme.

However, to get back to "Queen Nig" her dam was Pauline Netherland Canary, bred by Messrs. R. C. Given and J. H. Bingham of Georgetown, being a daughter of Paul Netherland Korndyke. "Queen Nig" in the words of Geo. Van Patter, "is a cow of tremendous scale, strength and dairy character. She looks as fresh as an 8 year old, with a strong head, lean neck, beautiful shoulder, strong loin and rump, — very wide level pins — good heart, — extreme in depth of rib and flank — udder well attached and desirable quality — level in floor — quartered very slightly and fore teats just a shade flared. — very superior legs for age."

It will also be of interest that Queen Nig has more than type. She is now in her eighth lactation and has out something over 110,000 lbs. for her life time production. As a four year old she produced 15,916 lbs. milk — 642 lbs. fat with a 4.03 test. Much more could be said about this great cow. However, our memory is faulty and our knowledge of Holstein families and pedigrees is limited so we shall have to content ourselves by extending our best congratulations to the Thompson family on behalf of the Halton Holstein fraternity.

grasses and a 100 lbs. of fertilizer be disced in per acre. This was but one of the many constructive suggestions thrown out by N. J. Thomas, outstanding soils authority of the OAC at the combined Twilight Guernsey Breeders' meeting and Calf Club meeting held on Friday evening last at M. T. McNabb and Sons farm near Georgetown. Approximately 75 were in attendance for this last dairy calf club meeting of the season. In addition to Mr. Thomas' practical and thought-provoking address, the programme included two excellent classes of Guernsey cows, the official judges for which were Carl Ellis, a former past president of the Ontario Guernsey Club and J. Lloyd Chisholm past president of the Halton & Peel Guernsey Club and a director of the Ontario Assoc.; two excellent demonstrations on hoof-trimming and clipping by A. T. Woodley, veteran club leader and the presentation by R. S. Heatherington of a new film entitled "Grass Roots in the Soil." In short, it was the consensus of opinion that it was the best all round programme of an excellent club season.

GRAIN HARVEST NEARLY COMPLETED

The bulk of the spring crop is now off the fields. In general the spring grain has turned out exceptionally well to the amount of straw. We may well be thankful that, in general, the barns and granaries present a much better picture to that of a year ago. The corn crop too, while later than normal, should result in most of the silos being filled. The preparation of land for fall wheat along with the taking off of second-crop alfalfa, is the next job. Quite a number are leaving second crop alfalfa hoping for some seed, but judging by the fields we have seen prospects for seed are not too promising. Due to the sprouting of wheat a good many are looking for fresh seed. It should not be necessary to point out the wisdom of only buying seed backed by government grade and germination test and don't forget to treat for smut, or if you don't like the job get your seed cleaned and treated at the same time at Stewarttown or Ballinfad. Both seed cleaning plants have new equipment installed and are prepared to give service.

NOTICE TO CREDITORS

In the Estate of Thomas A. Young, late of the Town of Georgetown in the County of Halton, Gentleman

The creditors of Thomas A. Young, late of the Town of Georgetown in the County of Halton, Gentleman, deceased, who died on or about the 29th day of June 1950, and all others having claims against his estate are hereby notified to send by post, prepaid, or otherwise to deliver to Messrs. Langdon & Aylsworth, Georgetown, Ont., Solicitors for the undersigned Executor of the Estate of the said Thomas A. Young, Gentleman, deceased, on or before the 13th day of September, 1950, their names, addresses, descriptions and full particulars of their claims and the nature of the securities, if any, held by them and that immediately after the 13th day of September, 1950, the Executor will proceed to distribute the estate of the said deceased amongst the parties entitled thereto, having regard only to the claims of which the Executor shall then have notice.

DATED the 15th day of August, 1950.

JUNIOR FARMER PLOWING MATCH ON SEPTEMBER 8th

At a joint meeting of the Halton Junior Farmers and the Halton Plowmen held recently plans were laid for the annual Junior Farmer plowing match to be held at the farm of Mr. W. H. Devlin near Hornby on Friday, September 8th. All of the plowmen, with tractor plows, and we hope that there will be a good display of the plowmen's skills. In case of a tie, the plowmen will be allowed to plow a second time. The plowing will be held from 10:00 a.m. to 12:00 p.m. and will be held on the farm of Mr. W. H. Devlin near Hornby. The plowmen are invited to bring their own plows and tractors. The match will be held on the farm of Mr. W. H. Devlin near Hornby. The plowmen are invited to bring their own plows and tractors. The match will be held on the farm of Mr. W. H. Devlin near Hornby.

COUNTY MATCH SCHEDULED FOR TRAFALGAR TOWNSHIP

The W. H. Devlin farm at Amnash is to be the site of the big 1950 Annual Halton County Match. Unfortunately for the advocates of contour plowing matches, the fields in question are almost as level as a billiard table. In the opinion of those responsible for the selection of the site it is an ideal site for the occasion. Plans are also underway to stage the annual banquet in the new Trafalgar Township Hall. And the date for this annual event, which is generally conceded to be one of the top County matches in the province, is Thursday, October 26.

N. J. THOMAS RECOMMENDS

That in the case of 1950 seedlings which are on the weak side but where the alfalfa has caught but grasses are missing, that 4 or 5 lbs. of Bromo grass along with other

GOING FISHING?

Now the fishing season is in full swing. Now, too, is the time to remember, and observe, the fishing regulations. There's a reason for them.

The number of fish available for each season is estimated. The authorities then balance this against the expected number of fishermen to establish catch limits. This is done for your protection to provide a continuing supply of game fish for the future. To permit full growth, minimum lengths are set for various species of fish which may be taken. Take Black Bass, for example. The maximum catch allowed in Ontario is six per day and the minimum legal length is 10 inches. Only by observing regulations like these will you be sure of enjoying this sport in the future.
