What Council Did

ON MONDAY, SEPTEMBER 11

Gave first and second readings to a by-law providing for sewerage extensions up to a value of \$25,000 under the supervision of C. R. Hagoy. The proposed extensions will be made along Paperrill Road to the new plant of Commercial Displays, Ltd., in the Orr subdivision on Maple Avenue, and on Arletta and John Streets. The by-law goes to the Municipal Board for approval before its third reading.

Consolidated existing parking regulations in a new by-law which establishes the present system of angle parking on one side of Main Street and parallel on the other. Two hour parking regulations on Main Street are retained. Reeve Marshall suggested that an amendment be made later enforcing snow removal from sidewalks.

Promised Smith & Stone, Ltd. that arrangements would be made to supply better fire-protection to the part of town in which their plants are located.

Company engineer Trygve Wold interviewed council about this matter and said that a 6 inch main on Guelph Street feeds 6-inch branches on John, Queen and Durham. If anything were to block the Guelph main the whole industrial area would be cut off from water and fire protection, he said. Present pressure of 75 lbs. drops to 35 lbs. when the pipes are opened, he said, and this is not enough protection in a big fire.

He suggested that an 8 inch pipe be connected to the 10 inch pipe on Main Street North to run along Ewing, Elm and Ontario streets and connect with the present six-inch loop in College View. Plans for company expansion would be greatly expedited by such a measure, he said.

Reeve Marshall, who is chairman of water, said an 8 inch main would be put in at the earliest possible convenience of council. A new main he said would provide better service in a district which now has only a one inch main, would give proper fire protection on Valleyview Crescent and help out the situation at the Provincial mill.

A complaint by Dick Licata that a driveway between the Budget Grocery building owned by him and Goodlet's Hardware was unusable because of too steep an entrance on Main Street was turned over to the road committee.

Will install two lights on the highway beyond Normandy Boulevard, on the request of Fred Harrison who has erected a new garage there and who pointed out the danger to pedestrians without street lighting.

Subject to the advice of a solicitor, will construct a sewer line up Lamb Street to the Smith & Stone plant, cost to be as follows: The town will pay for digging and back filling, Smith & Stone will pay for the pipe and laying and no frontage charge will be made on Lamb Street.

Heard from town foreman Ern Hyde that the grader, which was damaged in a fire some time ago is all fixed and ready to operate.

Discussed the possibility of laying asphalt sidewalk in place of cement along the highway to Normandy Boulevard if cement cannot be obtained.

Were threatened with legal action by a Toronto law firm, acting for Mr. Wilfred Ford unless the garbage nuisance is remedied. Mr. Ford, who owns property adjacent to the town dump in the park claims there is a fire and smoke nuisance and also that garbage is accumulating on his property.

Council turned the letter over to LeRoy Dale, K.C. They also sent a letter to the garbage collector, Bob Lane, absolving him from any responsibility should legal action develop.

A letter from Langdon & Aylsworth, acting for J. J. Gibbens threatened action against the town unless a bill for \$200, representing rent on his property where a town septic tank had been installed is paid. The tank was originally installed to temporarily serve Churchill Crescent and \$100 was paid in 1948 for use of the property. There is a dispute as to whether this is a yearly rent or not.

Asked the hydro to have tree experts remove dangerous trees on town property near the residences of W. C. Cunningham, Thos. L.

THE WEATHER

Mr. Editor: Maybe we better correct the misprint in last week's report regarding the total rainfall for August this year. The correct amount should have been 4.21 inches, which is considerably less than the 54 inches which appeared in the paper. Let's hope the new moon scheduled for this week will not have any bad effect on the weather for Georgetown Fair on Saturday.

Sudden Death Monday of Public School Principal Shock to Town

Howard Wrigglesworth, principal of Georgetown Public School since 1938 died suddenly early Monday evening. Death of one of Georgetown's most prominent citizens from a heart attack was a great shock to the town and his loss will be keenly felt.

A son of Mr. and Mrs. Fred Wrigglesworth of Ashgrove, he was born forty years ago on their farm near Hornby and received his early education at Hornby Public School, continuing on to Milton High School where he was an outstanding student and athlete. He excelled in track events and was one of the best 100 yard runners that Halton has ever produced.

After graduating from Toronto Normal School, Mr. Wrigglesworth taught at St. Catharines for six years, then joined the local school staff after the retirement of Miss Annie Ryan as principal. During his principalship the school continued to grow and expand. A kindergarten-primary course was added and the teaching of manual training begun and he promoted inter-scholastic sport in baseball, hockey, track and field with neighbouring Halton schools. This year, he had been assisting the school board with plans for an auxiliary school to take care of increasing enrolment.

Mr. Wrigglesworth received his Bachelor of Arts degree from McMaster University last fall, taking his course in the summers and in extra-mural studies during the winter months. His interest in his position led him to take a principal's refresher course in Toronto this summer.

A faithful member of St. John's United Church, he was superintendent of the Sunday School at the time of his death, a member of the Board of Session and of the 50-50 Club. He enjoyed music and possessed a fine singing voice and was at one time a member of the church choir.

He was Master of Credit Lodge AF&AM in 1948 and a director of Esqueusing Agricultural Society. He was one of the organizers of Geor-

getown Recreation Commission. He is survived by his wife, formerly Ruth Giffen, two sons, Douglas and Robert, his parents, Mr. and Mrs. Fred Wrigglesworth, one brother, Clifford of Hornby and one sister, Mrs. Jim Carney (Jobel) Ashgrove.
