

OUTDOOR WORKERS

YOU NEED THIS GREAT FOOD EVERY DAY!

Everybody needs WHOLE WHEAT in their diet!

You must eat right to feel right! Health's foundation is in our diet. It contains vital food elements. And NABISCO SHREDDED WHEAT is made from 100% whole wheat! Enjoy delicious, golden NABISCO SHREDDED WHEAT and MILK tomorrow. Serve those crisp, roasty biscuits COOKED or fresh from the package!

Always good... Good All ways!

Snow Plow Inventors Form New Company

Two new snow plows, both invented by residents of Halton County will soon be on the market. They will be developed by Halton Manufacturing Company Limited, a private company formed by the inventors to produce and sell them. The plows are specifically designed for use by farmers in plowing lanes and baryards and by towns, cities and townships for road work.

Gordon W. Bridgen of Hornby is president of the firm, Leslie Lowe, Campbellville, vice-president, and William Wynn Dunbar, secretary-treasurer. For the present parts for the machines, both of which have patents pending, will be manufactured in shops at Hornby and Campbellville.

The new company is a combine of two inventors, each of whom has developed a specialized snow plow. Best known in town is the rotary loader developed by Mr. Lowe which was used this past winter in Georgetown for snow plowing by Mansell Nelles of Acton. At the time, townspeople were struck by the amazing speed and efficiency which the machine exhibited when put to work on the downtown streets.

Mr. Bridgen has developed a cylinder plow which can be used by farmers and on township and county roads. This six foot plow delivers snow a distance of 40 to 50 feet, throwing the snow in both directions.

All members of the new firm which started operations on Monday, October 2nd are practical machinists. Mr. Bridgen, a native of Hornby operated a garage there from 1929 until two years ago when he opened a machine shop. Mr. Lowe, after working in Guelph and Brantford opened a welding and machine shop at Campbellville in 1943 and three years ago took Mr. Dunbar into partnership. The two machine shops will continue to operate in the same locations under Company management.

Now and then we figure any high degree of international cooperation is improbable in a world where most people won't keep to the right of a crowded sidewalk.

Subways are partially ventilated by the piston action of trains driving the air through the tubes.

LIMEHOUSE

District President at Limehouse W.I. Meeting

The district president, Mrs. Milton Brown, of Hornby, was guest speaker at the October meeting of Limehouse W.I. held at the home of Mrs. J. Noble in Limehouse village. More than twenty ladies were present to hear her address. She brought congratulations to this enterprising group of ladies and wished them continued success in their work.

"Patience" was the theme of her talk. She remarked that women's duty to home and community should be the centre of their lives, not the circumference.

After singing O Canada, and repeating the Lord's Prayer, roll call was answered by naming a Canadian Wild Flower. Minutes of the September meeting, treasurer's report, and correspondence were read by Mrs. Ellerby. A great deal of business was considered. Mrs. Sam Gisby was appointed delegate to a two-day convention held at Stratford on October 17th and 18th.

An invitation from Stewarttown W.I. to attend their autumn tea was accepted. Mrs. Frank Brown was re-appointed leader of the girls' training course with Mrs. S. Kirkpatrick as her assistant. A shower was planned for "Save the Children Fund". A bank account is to be opened for Robert Harold Barber, infant son of Mr. and Mrs. Harold Barber, fourth line of Esqueping. Mrs. S. Kirkpatrick was re-elected to the hall board for a three year period. Reports were given concerning fall fair work, garden displays, and flower and fruit funds. Mr. E. L. Miller gave an interesting motto on "Duty makes us do things well; Love makes us do them beautifully."

Current events prepared by Mrs. McVey were read by Mrs. Ellerby. The conveners read short articles entitled "Margarine", "What kind of people are Canadians. The Cookie Jar", and "The Ultimate Cure". Mrs. Kirkpatrick showed an old picture of Dolly Varden.

After closing the meeting with the National Anthem Mrs. Wright and Mrs. H. Norton assisted the hostess to serve refreshments.

... AND THAT'S HOW

we built the school

It's the biggest contract I ever went after, so I lost no time in getting over to my bank manager.

"George," I said, "I'll need some help to handle a job this size."

We went over the whole thing, discussed how much I would need. When I landed the contract he gave me a line of credit and I was able to go right ahead. Now the school's as good as built.

It is an everyday part of your local bank manager's job to provide short-term credit—so that payrolls can be met, material bought, goods produced and marketed.

Leading Jersey Breeder Was Winter Fair Founder

One of Peel County's most outstanding citizens, Duncan O. Bull died last week at his farm home near Brampton.

A leading Canadian Jersey breeder, Mr. Bull was born in Brampton in 1878 and with the exception of ten years when he was in business abroad he resided at the family home where his brother, Colonel Bartley Bull and he carried on the Jersey cattle business under the name of B. H. Bull and Son for several decades. They were joined in the partnership by his son, John, fifteen years ago.

From an acreage of 250 with less than ninety head of cattle in 1902, the business has increased steadily until today the land covers 1100 acres and the herd totals 800. The farm is the largest importer and exporter of dairy cattle in Canada. Foundation Jersey stock has been sold to nineteen different countries.

Top exhibitors in the Jersey classes, the Bull entries have triumphed in shows all over Canada and the States. Brampton Basillus, who established the world's record for butterfat production among all breeds of cattle came from the Bull herd. In recent times one animal bred on the farm sold for \$32,000.

Mr. Bull helped to found the Canadian Jersey Cattle Club in 1902, was twice its president and an honorary president for a number of years. He was the only non-resident of the states to ever be a director of the American Jersey Cattle Club.

A founder of the Royal Winter Fair he was a past president of this organization and was on the permanent executive at the time of his death.

In the field of commerce, Mr. Bull was one of the organizers of the Kelvinator Company of Canada, Limited and was a director of the company. He was a past president of Peel County Conservative Association and played a leading role in several provincial and national conventions. He was a member of Peel Memorial Hospital board and Grace United Church.

Duncan O. Bull was a son of the late Bartholomew Hill Bull and Sarah Duncan Bull and is survived by one daughter, Mrs. Alexander M. Hutchinson, Toronto, and one son, John. The only members of the original family now living are Mrs. R. O. McKay and Mrs. Archibald Hislop, Toronto, Mrs. William Gibson and Colonel Bartley Bull of Brampton.

SPORTSMANSHIP IN CANADA UNLIMITED

It was Sept. 22, 1949. A Little Rock, Ark., Toronto Tip Tops were matched with the Clearwater (Florida) Bombers. Tip Tops had better their way undefeated through the cream of North American softball teams—with the world title as their goal.

Faced with the Bombers' ace hurler, the Toronto team trailed from the 3rd to the 7th inning—then tied it up, 1-1. For the next 10 frames the teams battled a draw. Suddenly, Tip Tops rallied. In the 18th they blasted two men home... and became the first Canadian team to win the world softball championship.

Close teamwork has won many firsts for Canadian sportsmen. And teamwork, with sportsmanship, can help you, too—in work and play. Together they keep your scope for opportunity in Canada... unlimited.
