MACKENZIE NEWS

It's good to see Georgetown grow. We are starting on an addition to the main plant of Smith and Stone which will mean an additional factory space of 12,000 square feet. We also have in process an addition to the Academy Road plant of 2,000 square feet floor-space. We would strongly recommend that all our customers have at least one or two tons of coal in their bins. While there is no shortage of coal, there is an acute railway car shortage on U.S. lines. Railway cars are wearing out faster than they can be replaced. See you at the Turkey Dinner at Knox Church on Thursday night.
