# Silvercreek May Be Central High School Site

One High School Favoured In 8-3 Vote - Ask Dept. of Education for Approval

. North Hakon High School District board voted 8 to 3 at its meeting Morday in Milton to build a new central school on No. 7 Highway. saldway between Georgetown and Acton.

If plans are approved by the Dep't. of Education this would mean that the school would be located in the Silvercreek vicinity. No sites have been looked at as yet,

The move to decide on a location for one central school to serve the five municipalities which compose the area, Georgetown, Acton, Milton, Esqueeing and Nassagaweya came after several years of discusaion by the board which was originally formed in 1948, with Georgetown joining last year.

Lt.-Col. Gordon Brown, an Esquesing member who seconded the motion made by William Coon of Acton said that he was alarmed at the prohibitive costs of maintaining two schools, one at Milton and one in this vicinity as has been recentmooted. .

The district, he said, had been orseinally formed because the municipalities felt that one school would provide better eduation at a more economical cost. A letter from the Department at the time when a two room addition was made to Milton school bore this out by saying that the new rooms were designed for future use as a public school.

To carry on two schools in the district would mean a teaching staff of twenty-six compared with eighteen in one central school. This is only one instance and he estimated that it would cost well over fifty percent more to continue operation of two schools.

Ross Carbert, Nassagaweya board representative said he could not Vote for the motion because the location suggested is definitely unentisfactory for that township. Milton representatives had previously expressed the feeling of that town whose council has interviewed the department and says they will not consider closing their school.

A recorded vote was taken on the motion, with Mr. Carbert, Bruce Fitzgerald and Nelson Pickett voting against it. Voting with the mover and seconder were chairman G. A. Dills of Acton, Arthur Beaumont and William Schenk of Esroesing, John Bell, Walter Biehn and Dr. J. B. Milne of Georgetown. The board will ask the Departnent of Education for a meeting Toronto with the Minister of Education and all department offidals who have at any time been consulted about the matter, and

A letter from Acton Council, read the meeting, told the board that Acton's population is now over 000 the town is entitled to an gira man on next year's school

expects that a final decision will

e made at the time of this meet-

## TED TYLER NEW ACTON MAYOR

Ted Tyler is mayor of Acton for 1951. Mr. Tyler, who runs a transport business there as well as heving one of the high school bus routes, was chosen by acclamation at a nomination meeting last Friday. He is a brother of Charles Tyler of Georgetown. Mr. Tyler succeeds Mr. Amos Mason, first mayor of the town, since its elevation to town status last year.

J. Hargrave is reeve and A. J. Stewart deputy-reeve.

Nine nominees will run for the six council seats: John Greer, Raymond Thompson, A. Fryer, L. Wieck, A. Mercer, C. Wood, T. Cooke, T. Salmon and Miss Esther Taylor. Frank Okes, C. Heard and T.

Jones were acclaimed members ofthe public school board. C. Rognvaldson and J. R. MacArthur will contest the seat for public utilities commissioner.

## Milton Council Vote Top Three Acclaimed

Three top offices in Milton municipal life were filled by acclamation at the nomination meeting Friday there. Dr. C. H. Heslop is mayor, Kenneth Dick, reeve and John

W. Higgins, deputy reeve. Nominated for council seats were Bruce McKer, Victor Norris, Charles Anderson, Frank Thompson (a brother of Mrs. Isobel Cleave of town), H. F. Whewell, M. J. Ezcard, William Morrison and Ross Pearen.

Mrs. Florence King, T. R. McKim, G. E. Goodchild, and M. Ledwith were nominated for the three public school board seats.

# Turkey Dinner As Masons Fete Ladies

Members of Credit Lodge, AF& AM, entertained their wives last' night at dinner and a social evening in St. John's Church audi-

Wor. Bro. Wilbert Cleave, Master of the Lodge, was chairman and welcomed the ladies to the turkey dinner which had been prepared in their honour. Grace was said by

Rev. J. L. Self, chaplain of the lodge. The toast list included toasts to Grand Lodge, proposed by Jack Armstrong, with a response by Rt. Wor. Bro. E. V. MacCormack; to the ladies, proposed by Bro. Kenneth Whitworth and responded to by Mrs. Campbell Sinclair.

Following dinner entertainment was provided by a concert company from Toronto led by Gerald Funston, Mrs. Vern Thompson and Mrs. William Hamilton won prizes in a birthday draw.

#### Mite Boxes Presented At Little Helpers Tea

The Little Helpers tea at St. George's Church was well attended last Thursday. This is an annual event in charge of the church WA at which children six and under are-emertained with their par-

Mrs. Sam Walker, Mrs. John Farmer and Mrs., James Patton were in charge of arrangements. Each child received a gift and refreshments were served. The children presented their mite boxes as a contribution to the church.

By the end of the 18th century gunmaking was the second largest industry in Birmingham, England.

# \*Two Brigades Called School Fire Threat

Fire brigades from Georgetowe and Brampton answered a call yes. terday afternoon to Union School. The school uses a space oil hester and when an oil flare-up threetened to cause a fire, calls were sent for the brigades. Luckily no

was over before any action: was necessary by the brigade. Local firemen made a fast ruin to the scene and reached the school before neighbouring farmers who were summonsed by telephone.

damage was caused and the danger

#### Ellenton New Reeve Nassagaweya Township

There will be no election in Nassagaweya : Township this year. W. M. Vansickle, township reeve, and warden of Halton County this year is retiring from office and his place will be filled by J. E. Ellenton, a member of last year's council. Mr. Ellenton was given the seat by acclamation at Monday's nomination meeting in Brookville Hall. R. M. Storey, a 1950 councillor who was nominated for both reeve and councillor, did not qualify for either position.

Four council members were also elected by acclamation. They include two present councillors, George Stokes and Stanley Norrish and two new men, C. J. Van Goozen' and Archie Service.

Other nominees for council who did not qualify were John Robertson, Lloyd Chisholm, Murray Mahon and John McPhail. Messrs. Ellenton and Storey complete the list of ten nominees.

Two new school board members are Claude Brinklow and Duncan Moffat. A. H. Diamond and T. W. Kennedy were also nominated for this office but declined to run.

#### **ENGAGEMENTS**

Mr and Mrs. Albert E. Colman announce the engagement of their daughter. Jean Gertrude to Norman H. McDonald, son of Mrs. Emily McDonald and the late! Angus McDonald. The marriage will take place on Saturday, December the ninth at three o'clock in Knox Presbyterian Church, Georgetown.

automatically stopped.

### Raise Ball Team Funds, Kid Baker Show Pleases

The Kidd Baker radio cowboy packed the Glen town hall on Thursday when this popular show played its first engagement in Glen Williams. Williams

The show features the cowboy music of Kidd and Ada Baker and their company with dancing following the stage presentation. It has appeared in Georgetown on several occasions under sponsorship of the

Recreation Commission. Their performance in the Glen was sponsored by the Ladies Softball team and the proceeds will give the ladies a good start toward buying equipment and uniforms for the spring when they hope to be fully organized.

Mrs. Herb Hancock, president, Magaret Cain, captain, and Eleanor Schenk, secretary treasurer are in charge of the team and other members are Mildred Morton, Gell Wheeler, Mrs. W. Bencock, Eve Garvin, Jean Besumont, Jean Han cock, Jean Young, Lillian Nortes, Banufacture of the new poly-Carol Crosby, and Marie Gibbs.

Bottles that bounce without breaking are the newest scientific contribution to the Household front.

Imagine a bottle you can drive over with a car, pound with a hammer. and, more sensibly, drop on the floor without breaking it. They're called polythene bottles and are the newest word in plastics. Scientists started their search for

an unbreakable bottle back in the early 30's. Seeking a container for hydrofluoric acid - a chemical that eats glass - they found their answer in polythene then available in limited quantities. However it was only within the last year or two that an efficient method was found to apply "blow" molding. used in the manufacture of glass bottles, to the new plastic.

The results have been sensational.4 Unlike glass, they are squeezable, and therefore useful for liquid sprays. Unbreakable, they are ideal. for use eround small children. They are impervious to some acids that affect glass. They are about one-

fifth as heavy as glass. Has science, then, perfected an unbreakable milk bottle? Unfortunately, no. Pelythene has not been developed as a food container. But it can be used to hold just about everything in the family medicine cabinet . . . shampoo, talcum powder, deodorants and cleansing miner ather the invention of

thene - polyethylene is the full

scientific term . . . bottles will start in Canada sometime during November when Plax Canada Limited start production in a new plant at Oahawa, Ontario. This is of particuar interest to the cosmetic, drug and chemical industries, where the many possibilities of the polythene bottle are being studied with great interest. The company is an associate of Smith and Stone, Ltd., Geor-

The bottles will be manufactured in six standard designs, with various sizes in each design. Any colour can be produced, although transparent colours are not possible. Practically any shape or size up to 16 ounces can be custom-built for a manufacturer, either in a spray stopper bottle or in an ordinary stopper bottle. They will withstand cold up to 70 degrees below zero. will withstand as much heat as the human hand will endure.

The plastic bottles will also be sold to householders as multi-purpose home containers. Housewives will use them to hold shampoos. colognes and rinses on their dressing tables and in their medicine chests. They like to be able to use something that won't shatter when it slips through soapy hands.

Travelling men buy them because they compress easily, don't break, and are lighter than glass. Doctors use them to carry alcohol, peroxide, and other medicinal liquids.

The plastic bottle is, at present, more expensive than glass.

# Raiders Win First Beat Bracebridge THE WEATHER

Mr. Editor: Wonder what else we could have had on the weekend by way of varlety of weather. Maybe a bit MORE SUNSHINE would have made

#### SALES BRISK AT CHRISTMAS FAIR.

The annual Rebekah Christmas Fair drew a large crowd of ladies to the Oddfellows Hall on Saturday and the Rebekahs had a substantial financial success for their efforts.

Sales were brisk in the various booths which included fancy work, baking, novelties, touch and take, candy and fish pond. Many men joined their women folk in having supper in the basement.

Mrs. Dorothea Lemon, with ticket 2 30 won a Christmas cake in a special draw. Mrs. Bert Bullock with ticket 252 was winner of two dolls.

#### Army Padre, Band at Anniversary Service

Colonel Forth, head chaplain for the army Central Command at Oakville preached at St. George's Church of England on Sunday morning. It was the 98th anniversary of the founding of the church whose present rector is Archdeacon W. G. O. Thompson.

Colonel Forth based his remarks on the power which a church wields in the life of the community. Its influence is felt, he said, not only in the material things accomplished but in the power of prayer. .. "Who knows," he asked "what

great things have been done thru' the prayers of generations who have worshipped in this church?" He urged men to take a greater interest in church affairs. Too often this is left to their wives and he asked the men to make a point of attending church on Sundays .....

The rector conducted evensong and the Lorne Scots Band assisted with the musical portion of this evening service.

Mr. and Mrs. James E. Cave of Detroit, Michigan, and Mr. and Mrs. Lorne Cave and Jimmie of Toronto spent the week-end with their mother, Mrs. T. R. Cave and with Mrs. and Mrs. Ross Thompson.

Winning their, first' game in the starts, Georgetown Raiders showed their old form on Saturday in Brecebridge when they soundly trounced the northern team 12-7. It was a good warm-up for Monday's league opener when Raiders won their let start against Milton.

It was a clean, well-played game much different than the Bridgeport series a week ago. Raiders play wes marked by speed, good passing and precision, the kind that sent them to an Ontario championship year. Starring on the evening's play were Jack Kemaheed and Junior Beaumont. Fred Lewrence played goal, replaced for the second period by "Pic" Dillon, up from last year's junior ranks.

Bracebridge Bears were finalists last year in Intermediate B were eliminated by Bucko McDenald's Sundridge Beavers who lost their crown to Georgetown leter is the season.

# Hockey Opens Raiders Down\* Milton

Georgetown Raiders came through with flying colours in their first league game in Intermediate A competition Monday when they defeated Milton 7-1 in the local arens.

The Milton entry leans heavily on Georgetown players of former years. No less than six Miltonites have seen action previously with the Raiders, including goalies "Dooney" Evans and Fred Lever, defenceman Eddie Binsell, Chuck Currie, Art Murdock, and Jack Kentner. The teams also includes playing coach Earl Fox and Grenke, a Milton boy who played last year with Marlboro Junior A.

. Nick Ferri gave Raiders their first tally and F. Kentner got Milton's only goal to tie the score halfway through the first period. Georgetown increased their 2-1 lead by two goals in the second and three in the third to win handily.

Raiders have a game here next Tuesday with New Toronto. The Hockey Club is hoping for much larger attendance at future games than the two hundred who came out for the opener. A scheduled double-header tonight in which Georgetown | was to have played Burlington has been postponed.

one-fifth the weight of glass, it myos heavily on freight bills when shipped in manufacturers quantities. Also there are fewer rejects on the bottling line when unbreakable plastic bottles are used instead of glass ones which chip.
