**What is Canada's Largest Flesh-Eater?**  
The Orca, or killer whale, is Canada's largest carnivorous mammal. Strange as it may seem, it is true. This mammal is thought to live entirely on the flesh of seals and other warm blooded creatures. The diet of most other whales is comprised of certain types of tiny marine life. Nothing is stranger than nature . . . and nothing is more enjoyable. We must all help protect it by promoting conservation with ourselves, and amongst others.
